Wheatlet

A DELICATE & DELICIOUS BREAKFAST FOOD

"All of the WHEAT That's fit to EAT"

THE Franklin Mills Company.
LOCKPORT, N.Y. U.S.A.
Wheatlet

Is the most satisfactory of all breakfast foods because most nourishing, and most palatable because it has all the rich, nutty flavor of the wheat. Wheat is the natural food for man. For young or old there is nothing so satisfying as Wheatlet. It is delicate, substantial and easily digested. Contains a larger percentage of nutrition than any other food.

Sold by most grocers everywhere.
