Even if you can't cook, you can make a JELL-O dessert
HER PUDDING BURNT.
JELL-O DOESN'T HAVE TO BE COOKED,
AND SO IT NEVER BURNS.

KITCHEN TROUBLES come often enough to the practical house-
keeper. Of course they come oftener to the young cook.

Sometimes they come from attempting too much; sometimes everything seems to go wrong anyway.

The woman who knows the sure and easy ways in the kitchen has many advantages over the one who must make experiments to learn how to do things. Having found the "short cuts" to success in the kitchen, she escapes most of the drudgery and avoids many mishaps.

There must be dessert for dinner, of course, and one of the housewife's most difficult tasks is the preparation, day after day, of "something nice" for dessert that will not cost too much.

It is here that Jell-O helps. Nothing else is so economical and satisfactory as the dainty, sparkling, delicious Jell-O desserts. Nothing else can be prepared as easily; one can be made in a minute without any work at all.

There is no cooking to do; no flour, sugar, baking-powder, eggs or anything else to add, for everything is in the powder in the Jell-O package. All there is to do is to put the powder in hot water and let it cool.

The young bride or housewife who has never learned to cook can always be sure of one fine dish for dinner, for she cannot go wrong with Jell-O. The experienced cook, by using Jell-O, can make daintier desserts than she can prepare in any other way, and they will cost less.

So, whether you can cook or not does not matter when you use Jell-O. You will never be disappointed in the result.

Jell-O is made in seven delicious flavors: Strawberry, Raspberry, Lemon, Orange, Cherry, Peach, Chocolate.

Each in a package by itself, 10 cents at any grocer's.

HER PIE WENT WRONG, TOO.
NOTHING GOES WRONG WITH JELL-O.

**To Make a Jell-O Dessert.**

DISSOLVE one package of Jell-O, any flavor, in a pint of boiling water. Pour into a bowl or mould and put in a cool place to harden. When set, turn out on a plate and serve. This dessert serves six persons and costs 10 cents.

The beautiful desserts shown on the front cover and pages 3 and 5, and upper right middle page, are all made from this simple “one-minute” recipe.

**More Elaborate Desserts.**

While simple and satisfactory Jell-O desserts are made in a minute without adding anything except boiling water, most women like to make and serve an occasional fancy dish. For this reason some space is given up in this book to recipes for elaborate Jell-O desserts. Most of the recipes, however, are very simple, and Jell-O can be made up in so many delightful forms in the simple ways that it is never necessary to make the fancy ones, even for a change. When these are made, there is no chance of burning or spoiling them in the making. By using the different flavors a different dessert can be served every day of the week.

**Fruited Jell-O.**

A great variety of fruit desserts can be made easily by using the different flavors of Jell-O and different kinds of fruit. To make a fruited Jell-O dessert, dissolve a package of Jell-O, any flavor, in a pint of boiling water. Just as it begins to set, arrange in it with a fork sliced oranges and bananas, or peaches and strawberries, or cherries, or currants, or any other fruit that may be preferred or is most convenient.

These delicious fruit desserts may be served plain or with whipped cream or cream and sugar.

**To Take Jell-O from the Mould.**

Run the end of a knife blade around the top edges, then dip the mould in and out of very hot water quickly enough to prevent the slightest melting. Place the serving dish over the mould, turn them over together, lift the mould carefully and the Jell-O will come out on the plate.

This is the new way:

Stir a package of Jell-O Ice Cream Powder in a quart of milk and freeze it.

You do not cook or heat the milk. You do not add eggs, sugar, flavoring or anything else, as everything is contained in the package of Jell-O Ice Cream Powder.

There is nothing else to do.

In ten minutes you will have two quarts of pure and delicious ice cream, and the cost will be about one cent a dish.

"WHY DIDN'T I USE JELL-O?"

JELL-O IS APPETIZING.

The uncertain appetites of the sickroom are a source of anxiety and trouble for the nurse. The feeble or jaded appetite must be coaxed with dainty little dishes which the professional nurse usually prepares with her own hands. She has learned that Jell-O saves time when time counts, and that nothing else is quite so likely to be relished by her patients.

Dainty, sparkling, deliciously flavored Jell-O can be prepared in a minute. Physicians everywhere recommend Jell-O for their convalescent patients.

JELL-O IS NOT GELATINE.

There is gelatine in Jell-O, but Jell-O is a prepared dessert, and gelatine is not. Do not mistake gelatine for Jell-O.

And do not make that other mistake of supposing that some other prepared dessert is Jell-O because it looks like Jell-O.

The word Jell-O appears in big red letters on the front of every Jell-O package. If it isn't there, it isn't Jell-O.

To make the famous Jell-O desserts, be sure to get Jell-O. You cannot make them with anything else.

The price of Jell-O never goes up. The big Jell-O dessert still costs only ten cents, though the price of everything else goes higher and higher.
