LET'S GIVE A PARTY
and Let's Make Rennet-Custards with "Junket" Rennet Powder

APPLESAUCE RENNET-CUSTARD
1 pkg. Vanilla "Junket" Rennet Powder
1 pint milk
¾ cup applesauce

In the bottom of 5 or 6 dessert glasses, place 1 or 2 tablespoons applesauce. Make rennet-custard according to directions on package of "Junket" Rennet Powder. Pour over applesauce and let set until firm — about 10 minutes. Chill in refrigerator.

NEW ICES MADE WITH "JUNKET" BRAND FREEZING MIX
Whip 1 package "Junket" Freezing Mix with 1½ cups of any fresh or canned fruit juice (such as grape, pineapple, etc.), or 1½ cups of any soft drink (such as root beer, ginger ale, etc.) until dissolved. Pour into refrigerator tray and freeze at once. When frozen to a firm mush, put into bowl and whip vigorously with an egg beater until fluffy. Return to tray, finish freezing.

TEMPELE TELEPATHY
STARTLE folks with this clever mind-reading trick. Choose a partner, then ask a third person to whisper a number, from 1 to 99, in his ear. Put your fingers on your stooge's temples. He transmits the number to you by tightening his jaws causing his temples to press slightly against your fingers. Suppose the number is 26. He presses his jaws twice, pauses, then presses six times. Ten presses mean zero.
WHAT'S IN A WHOOZITNOW?

WELL, we’ve got a Whoozitnow. It just arrived. No fuss or bother at all, it just came wandering home at sunset in the midst of a herd of milch cows.

I caught sight of it first and shrieked for Billy. Billy came and shrieked too. So did the Whoozitnow. . . . it grew, the sillier it looked. Suddenly everyone burst out laughing. Then the Whoozitnow laughed too.

"Is it a dog?" Billy asked. No one could say. Billy thought perhaps it might settle the question if we gave it a bone. So somebody got an old soup bone. In two minutes it was as slick as a piano key.

Just as we had made up our minds it was a dog, someone remembered the Whoozitnow had stopped to nibble grass, along with the cows on the way from the pasture. Certainly no dog would do that.

"I wonder what else it will eat!" I exclaimed, and proceeded to throw it some dried corn, because there was something about its manner that reminded me of a chicken. And do you know, the Whoozie ate that up almost before it reached the ground.

Billy said no one could afford to keep such a hungry animal. And imagine the embarrassment of not being able to tell visitors what it was you had in the back yard. They’d think you were exaggerating. If they saw the Whoozitnow with their own eyes, they’d know you were exaggerating.

But Asparagus solved everything. "A strange animal lak disyere one belong in a zoo," he said.

So it was decided to send the Whoozitnow to the Zoo. But Billy said you can’t give a zoo an animal without telling them what the animal is!

So we figured out the Whoozitnow was not just one animal, but at least six different animals. What are they? If you get stumped, look at the inside back cover.

Snookums: No mother, less dishes.

Tuck: To wash my mother's ears!

NEW SHELL GAME
Folks never tire watching this new version of an old game. Place three nutshells as shown. Then challenge someone to turn over the shells, two at a time, and after exactly three moves, have all shells bottom up. Few can do it, but here's the secret: First turn 2 and 3, then 1 and 3, then 2 and 3 again. All shells are then bottom up. Use tumblers or coins if no shells are handy.
WE’VE GOT Your Number

PLEASE don’t be alarmed. This maze of numbers isn’t some difficult puzzle or brainteaser — although the way it works is pretty mysterious. With these tables of numbers you can tell anyone’s age. It’s simple as simple, but your friends will think you’re wonderful.

Show the six tables to a friend. Have him point to each card that contains his age. Then just add the first number of each table he has selected and you have the answer.

Ages aren’t the only things you can find out. Any number under fifty your friend selects can be determined this same easy way. Try it!

If you want a swell game to startle your friends with, just cut out the tables and mount each on a separate piece of cardboard or heavy paper.
WHAT'S THE DIFFERENCE?

ANYBODY can make funny pictures! By my new system all you have to know is the phone number of the person you want to draw. If you don't know his phone number, the first four numbers of his address, auto license plate or library card will do. Our school principal, Mr. Perry, lives at 3-0-3-2 Fairview Avenue. Look what that makes him! 6-5-0-3 is my brother, Billy, and 0-8-6-8 is none other than Mike Cassidy, the town tough. Read at right how to make cartoons this easy way.

**EASY INSTRUCTIONS**

Supposing the person you wish to draw has a phone number that starts with 6380. Trace the No. 6 head. Then trace, inside the head, the No. 3 eyes, the No. 8 nose and the No. 0 mouth. You then have a completed Kandid Kartoon! Make as many tracings as you like — this game will almost never wear out! You can make Kandid Kartoons of your friends, sweetie, teacher, movie hero — anyone whose phone number, house number, etc., you can learn.

SHOVLIN DIGG, our staff explorer, while digging for dinosaur bones in Upper New South Zurk, came upon a new language which he has named, for no reason at all, Double Dutch. This language is guaranteed to be 100% more educational than any language known to the world today — including the Scandinavian.

Not only is it 100% more educational, but it is twelve times as mysterious, five score and ten times as useful and minus 17 times easier to learn than any language ever invented.

So far there are only six people living in the world today who can speak Double Dutch and only three who can understand it — which is a little hard to understand in itself, but only one of the many unexplainable things about this strange, strange tongue.

Now that you know about Double Dutch, you oughta start writing and speaking it. Just follow the instructions above. Gugoodud Lulu cashkuk!

by BILLY WHITE

UMBLY I must admit it. I am a Bughouse Whiffinpook. By my own invention, I am a Bughouse Whiffinpook.

What is my new invention? It's Zwerchitology.

What's Zwerchitology? It is everything! It is the successor to astrology. It is the successor to phrenology, numerology, graphology. It is the successor to tea leaf reading and all the old and outdated forms of seeing into the future, including newspaper columnists.

It is Knowledge itself.

For instance, you have a big business deal on. You want to know what sort of person you're dealing with. His name is Absalom W. Gutzonborgler. That makes his initials A. W. G. And an A. W. G., according to the simple system of Zwerchitology is an Absolutely Witless Goop. Very good, the deal is on! But supposing you want to do business with F. Prettydale Hollingsweather. His initials show he is a Fearfully Peevish Humbug. The deal is off!

Lots of you are probably wondering what your next teacher is going to be like. Maybe you have lived in constant dread that she was going to turn out to be a crank. Her name, Lottie F. Crabb, goes down the wrong way. She sounds like a terror. But a glance at my Necromantic Necrometer, the pulse and life of Zwerchitology (on the left), shows that
KNOWS ALL  GREAT NEW FORTUNE-TELLING IDEA

Miss Crabb is a Laughably Funny Combobulation, and on top of that probably a Jolly Good Fellow!

Get the idea? All you do is look up a person's initials in the three columns of my Necrometer. If this person has only two initials, use only the second and third columns. That makes Stan Laurel a Silly Lunatic, and if that description doesn't fit, send it in and get two free. Can't you just hear W. C. Fields calling Charley McCarthy a Cuckoo Mophandle, and Charley coming back with Wholly Cuckoo Freak?

Jealous Boob seems like a fitting description of Jack Benny when he gets mad at Mary Livingstone for talking to one of the boys in the band. And maybe we'll be hearing Ben Bernie denouncing Walter Winchell as a Witless Waxwork, and Walter retorting with Bughouse Boob! There's no telling what this Zwerchitology may lead to!

DON'T STOP HERE

Try Zwerchitology on your friends. Try it on yourself — find out things you never knew before. Try it on relatives, famous screen characters, radio stars, authors — anyone. When you've figured out something you think is particularly good, put it in your scrap book, carve it in linoleum, soap, snow or cheese. See if we care!
MAYBE it doesn’t occur to you right away, but unless we get this map fixed up it’s liable to cause trouble. Supposing your Uncle Henry should pick it up and use it on an automobile trip. Why, he’s liable to set out for Kokomo and end up in Kalamazoo! Mark the names of the cities and states which are placed wrong. There are fourteen mismarked states and six misnamed cities.

ANSWER ON INSIDE OF BACK COVER
PEACH SHORTCAKE

1 package Lemon "Junket" Rennet Powder
1 pint milk
4 pieces sponge cake (leftover cake may be used)
A few thin slices fresh or canned peaches

Make rennet-custard according to directions on package of "Junket" Rennet Powder. Pour over pieces of cake and peaches and let set until firm — about 10 minutes. Chill in refrigerator.

VANILLA RENNED-CUSTARD WITH STRAWBERRIES

1 package Vanilla "Junket" Rennet Powder
1 pint milk
4 tablespoons sugar
4 strawberries
½ cup whipping cream

Make rennet-custard according to directions on package of "Junket" Rennet Powder. Chill in refrigerator. When ready to serve, whip the cream and just before it is stiff, add the sugar. Mix thoroughly together. Put on top of each dish of rennet-custard and garnish with strawberries.

HE TALKS WITH HIS EYES!

Your eyes will dance when you eat one of those scrumptious rennet-custards made with "Junket" Brand Rennet Powder. To make Wally Wallace's eyes dance, punch two circles where his eyes are. Then cut out an oblong strip and place behind Wally's head so the two spots show through eye holes. Move the strip slightly, back and forth or round and round. You'll be surprised how expressive Wally's eyes have become!
STAMPS WITHOUT A COUNTRY

WE THINK a lot of boys and girls are going to get dizzy spells on account of what’s on this page. A few may tear out all their hair and others may go completely wonky with the excitement, but anyway, everybody will have a good time. This is what you do: Figure out where these four “masked” stamps come from, then carefully list the countries in the coupon at the bottom of the page. Fill in your name and address, cut out the coupon and mail it, together with 3c (stamps or coin) and one box-front from any “Junket” Brand Food Product. If you want more than one packet send one box front and 3c for each.

Montezuma met a Puma
Going to the fair.
Said Montezuma to the Puma,
"Your coat I'd like to wear."
Thereupon replied the Puma,
"Your impudence, I swear,
Despite the rumas of your humas,
Is more than I can bear."

Montezuma and the Puma
Walked on through the rye.
Montezuma made the Puma
Into apple pie.
Invitation to the nation —
Everyone invited;
Acceptation of the nation —
Everyone delighted.

Rose a ruma that the Puma
Was a bit too lean,
And Montezuma sole consuma —
The nation thought him mean!
Montezuma heard the ruma
And addressed the throng,
Shouting "Pie-dish, it is my dish!
Kings can do no wrong!"

Exclamation of the nation.
Everyone excited;
Indignation, perturbation —
They'd been grossly slighted!
Consternation! Degradation!
Feeling running high —
So Montezuma joined the Puma
In the apple pie!
