Busy-Day Salads and Desserts

By ALICE BRADLEY
Principal, Miss Farmer's School of Cookery, Boston, Mass.

ITH Sunkist lemons and oranges in the house the housekeeper need never be at a loss for something delicious in the way of a salad or a dessert. Lemon juice supplies the acid for any kind of a salad dressing. Oranges alone or combined with fruit, fresh, canned or left over, with nuts or with cheese, and served on lettuce, romaine or watercress, provide a salad that may be used for dessert as well.

The present day dictum of the doctors is, "Serve plenty of fruit and vegetables and a salad every day." What is better than an orange salad with different garnishes to prevent monotony? These foods supply the vitamines that are essential to perfect nutrition and health, and at the same time make a dish satisfying alike to eye and palate.

Sunkist oranges served as they are purchased are always satisfactory for dessert, whether used for luncheon or for dinner, and need entail no labor on the part of the housekeeper. With a little trouble, oranges may be pared and sliced and sprinkled sparingly with sugar. They may be combined with other fruits, such as peaches, strawberries, bananas and apricots. They may be sprinkled with shredded coconut or served with marshmallow cream or whipped cream.

The sections free from membrane may be placed on an individual glass serving plate with a mound of powdered sugar in the centre.

To Remove Pulp From Sunkist Oranges

Orange pulp whether used in salads or desserts is best if free from all tough white membrane.

Pare the orange with a sharp knife, removing every particle of the thin inside membrane with the peel. This will leave the orange pulp exposed. Hold the orange over a plate, so that any juice which may drop will be saved. Insert the point of the knife at the stem end of the orange, close to the membrane that divides the sections. Carefully work the knife in, separating the membrane from the section. Then carefully separate the section of orange from the membrane on its other side; remove the whole orange section, complete in shape, and entirely free from membrane. Repeat until all the sections are removed.

In pressing the juice from Sunkist Lemons and Oranges, the glass, china or aluminum squeezers are best and most convenient.

When recipes call for grated rind of Sunkist Oranges or Lemons, it is important that care be taken to remove only the yellow portion.

Orange and Lemon baskets, shells and cups can be used for serving salads and desserts. The meat of the fruit should be removed with a teaspoon, and the edges cut with a sharp knife, scissors, or one of the patent cutters.

Note: In these recipes all measurements are made level. Measuring cups, divided into thirds and quarters, are used, and tea and table measuring-spoons. Cups of dry material are filled to overflowing, by putting the material into the cup with a tablespoon, and are then leveled off with a knife. Tea and tablespoons are filled heaping with dry material, and then leveled off with a knife.

Most of the recipes in this book are proportioned to serve four people.

\(\frac{1}{2}\) cup celery, cut in pieces
\(\frac{1}{2}\) cup shredded cabbage
\(\frac{1}{2}\) cup cooked peas
1\(\frac{1}{2}\) canned pimientoes

\(\frac{1}{2}\) cup Sunkist orange juice  
Grated rind 1 Sunkist orange  
1 egg white  

In a smooth agate saucepan put sugar and Sunkist orange juice and rind, mix well, and boil, being careful not to stir or disturb syrup until it will spin a long thread when it drips from tip of spoon. Lift gently from fire, and pour slowly, while beating vigorously with a strong egg-beater, in a fine stream onto egg white which has been beaten until light but not stiff. Continue beating until frosting is stiff enough to stay in place, pour all at once onto cake and spread over surface with a few movements of a large, flat knife.

Grate the rind and squeeze the juice of the Sunkist oranges, add apples pared and grated, and the sugar. Stir and boil fifteen minutes. Cool and use between layers of pastry or cake.

**Orange Frosting**

Grated rind 1 Sunkist orange  
3 tablespoons Sunkist orange juice  
1 teaspoon Sunkist lemon juice  
1 egg yolk  
Confectioners' sugar

4 teaspoons baking powder  
4 tablespoons sugar  
4 tablespoons shortening  
\(\frac{1}{2}\) to \(\frac{3}{4}\) cup milk
