A Compact Stove with a Powerful Flame

It burns denatured alcohol gas (self-generated) with a large blow-flame—blue and intensely hot, but at a touch it may be regulated to any heat desired, even to a low simmering flame.

As easy to light as a gas stove.

Safe, clean, odorless and efficient.

Made of brass, nickel plated throughout, and forms an ornament to dining table or side board. Unexcelled for making coffee, tea, toast, etc.—or when covered with asbestos mat, for keeping plates hot.

Especially desirable for use with "Universal" Coffee Percolator.

Equipped with detachable wind shield to permit its use out of doors.

Height, 5\(\frac{1}{2}\) inches. Diameter, 6\(\frac{3}{8}\) inches.

PRICE COMPLETE, EACH $2.50
For All General Household Purposes Requiring a Small, Convenient and Effective Heating Apparatus

It burns with a large blow-flame—blue and intensely hot. The fuel is denatured alcohol, which the stove itself generates into a gas. It is the gas which is burned.

It is as easy to light as a gas stove and at a touch can be regulated to any heat desired. The wind shield with which it is equipped makes this stove especially desirable in camps and such places. It can be absolutely depended upon for all cooking purposes.

The alcohol reservoir is made of brass, nickel plated, and is easily removed. Being large (holding 3 pints) it does not require frequent filling.

The frame is wrought iron, japanned, strong and durable. Height, 7 inches. Diameter, 8 inches.

PRICE COMPLETE. EACH $3.00
A convenient and effective stove for all household purposes. Its converts Denatured Alcohol into gas, and burns with an intensely hot blue flame. It is as simple and easily regulated as an ordinary gas range. It boils a quart of water at 50°F Fahrenheit in seven minutes.

Accommodates all regular cooking utensils. Clean burning, odorless and absolutely safe. Its enclosed body protects the flame from currents of air and makes this stove especially desirable in camps and such places.

It may be used anywhere at any time and depended upon to stay in order and cook thoroughly. Alcohol reservoir and burner made of brass. These and the grate are finished in dull nickel plate. Body is substantially made of japanned sheet steel. Rigid and secure in construction throughout.

Diameter of Grate, 10\(\frac{3}{4}\) inches. Height, 5 inches. Extreme Height, 10\(\frac{3}{4}\) inches.

Packed one in a wooden box. Weight packed, 11 lbs.

PRICE $4.50 EACH
A thoroughly reliable and effective cooking apparatus, which is as simple and easily regulated as an ordinary gas range. It burns the new fuel, Denatured Alcohol, which it converts into Gas and burns with a clean and intensely hot blue flame.

It accommodates large size (two burner) bake oven and all regular cooking utensils. It is especially desirable for summer cooking because it insures a cool kitchen, free from the stifling heat of the coal stove—free from foul odors and danger of kerosene or gasoline.

Its enclosed body prevents currents of air from affecting the flame and for this reason it is unequalled for camping outfits, summer cottages, yachts, etc.

The tank is large, holding two quarts, so the stove will burn several hours without refilling. The burner and tank are made of brass. These and the grate are finished in dull nickel plate. The frame is substantially made of japanned sheet steel. The apron keeps the heat away from the tank. A strong, safe and durable stove.

Packed one in a stout wood box. Weight, 30 lbs.

PRICE $9.00 EACH
A most efficient and reliable cooking apparatus. It converts Denatured Alcohol into gas and burns with an intensely hot blue flame. It readily boils a quart of water at 50° Fahrenheit in seven minutes. Fries, boils and stews to perfection.

As simple and easily operated as an ordinary gas range—odorless and absolutely safe.

It is used to especial advantage with the "Universal" Chafing Dish, Coffee Percolator, etc., as shown in attractive combinations on the following pages.

The "Universal" is artistic in design, superb in finish, and solidly built for service—an ornament to any dining table or sideboard. Its intensely hot flame insures thorough cooking wherever used.

PRICE, $6.50 EACH
This is the "Universal" Alcohol Gas Stove equipped with a Chafing Dish. It insures the rapid and thorough cooking of a substantial meal, and is safe, efficient, and easily operated as an ordinary gas range.

To its usefulness is added artistic design, solid construction, and handsome finish. It will grace the most elegantly appointed Dining Table.

A reliable cooking apparatus for use at any time or place.

PRICE $13.50 EACH
One of the many uses of the "Universal" Alcohol Gas Stove. It accommodates any style or size of the "Universal" Coffee Percolator and with this combination the most delicious, aromatic, and wholesome coffee is quickly and conveniently made at the dining table, or anywhere else.
