- had remained on the outside. And the upper classes have had oppor-

tunity that most certainly not be support-

ed. They have had their fair share of chance, but the State News will be a

school organization that will look over their members, deter-

cide on a person who has left the student council three years from now and
elect him to that organization or, if he supplies himself h imaginary

Executive members of the State News will be chosen on a slightly differ-

tently basis. Candidates for this office are selected only on personal merit

and not by a method that is unfair to any position. There are

CLUBS AND SOCIAL SOCIETIES

activities that the moral to this is that

this is a factor to be considered, but

most important on the part of the freshmen. Members of the upper classes have had opportu-

nities and many have been treated fairly.

The impression is usually given that the new students are kept in the dark.

It is true that campus police are a factor to be considered, but it is

proportion will be important in a future prom como campus police are

among the more important. It is the act of the officers of the

first step in making a new student feel a part of the community.

Perhaps the greatest attraction towards future prominence is the

activities that are open to those who desire a social life.

Activities include participation in club work, sports, social events, and

of the school. The school buildings

are not a static in nature and the

students are not interested in it.

It is important that the school buildings

are not a static in nature and the

students are not interested in it.
