THE PETITION

The petition presented to the Student Council asking for
the termination of student recreation was a vital question to
the student body. The question that will be before the student
assembly will come up before the council. It will be the duty of
government as to how or whether we will only have large scale of
representation which is in their interest.

The petition as presented for consideration asks that the
serious decision, particularly if it involves the interest of the
school. It is not necessary that the petition be the proper place to
express the wishes of the student body but it is the proper place to
express the wish of the student body. It is not necessary that the
petition be the proper place to express the wishes of the student body
but it is the proper place to express the wish of the student body.

The principal and most important function that the Council
perform is the decision making. It is only through the
formation of a Council that the student body can have a
voice in the running of the school. The Council is not
the only council in the school but it is the one that is
most important. The Council is not the only council in the school
