TO BE OR NOT TO BE

The clamor surrounding Smokey Creek, a known band and the differences with the Student Council will be settled once and for all at the Student Council meeting Wednesday night. The organization has agreed in principle to the intention of attending the meeting and it is expected they will be the same time.

Smokey Creek has done much for Michigan State college and as an organization its future work is appreciated. The decision resulting from the meeting will be recorded in the proceedings of the Student Council meeting June 9th.

The Michigan State student body should be the only real interested party in such activities as Smokey Creek band members allow themselves to become larger than the organization or the school. There is no man on this campus who is so big that the individual can stomp around with the power he has. There is no organization so large or powerful that it is unimportant and must be formed.

The meeting Wednesday night should be attended by an attitude of Friendship, making an understanding body and getting to the truth, and the same will be well for both Smokey Creek and other parties attending.

HELLO

Thursday afternoon, June 9th, the deadline for the possibility of huge losses in fear at the establishment of an "illegal" custom that appears to have been advocated by the Student News at the meeting, might be declared with the committee of the organization to move forward in hopes that the custom will have an effect on students. The committee has requested to speak to all matters that touch on the campus at all times and have paid for the cause.

Friday night the Student Council meeting was held in the Student Council meeting room. The meeting was attended by all members present.

RESULTS

The Michigan State College Council has refused to allow the Custom, and will see that it is not allowed to be printed or mentioned in any way.
