Co-ed Tells Qualities Her 'Joe College' Should Have

Willie Worries About His Eats

High School Enthusiast

A typical, lovable type of co-ed is the one who tells the qualities that her Joe College should have. Here is an excerpt from the viewpoint of one Michigan State co-ed, who is particularly interested in finding a suitable suitor at the Sophomore Prom this Saturday.

"Joe College" for me should be different from the stereotype. He should be ambitious and interested in education. He should also be physically fit, with good health and strong character. Above all, he should have a sense of humor and be fun to be around.

Willie, a Sophomore, is not satisfied with the typical "Joe College" and worries about finding one. She feels that there are too many expectations placed on potential suitors and that true romance should not be overlooked.

Willie is looking for a man who respects her as an individual and values her opinions. She believes that true love is something that cannot be forced and that it should be allowed to happen naturally.

Exhibit of Art Attracts Many

A recent Exhibit of Art held in the Union Ballroom attracted many students and faculty members. The exhibit featured works by local artists and was organized by the Art Club.

The exhibit was well-received, and many people were interested in learning more about the artists and their work. The Art Club plans to hold similar exhibits in the future to showcase the talents of local artists.

Relations Club Will Hear Talk on Ordnance

The Relations Club held a meeting last week where they discussed the topic of Ordnance. The meeting was conducted by Mr. Johnson, the head of the Ordnance Department.

Mr. Johnson discussed the history of Ordnance and its importance in modern warfare. He also highlighted the challenges faced by the Ordnance Department in ensuring the safety and efficiency of military equipment.

Tobacco to smoke right

has to be a different kind of tobacco from that used in cigarettes... and it has to be made by an entirely different process...

On in Kentucky, where they have pretty women, fast horses, and bluegrass there grows a tobacco called White Burley. It doesn't grow anywhere else in the world.

This is a type of the White Burley that is used today in pipe smoking. It is neither too thin nor too thick. It is not light and cheapy at the same time. It is not rank or strong. "L. H. Type 11" is the government classification for White Burley.

Now no other pipe tobacco has yet been found which seems to equal White Burley. This is what we use in making Granger Rough Cut.

Next we use the Wellman method, a famous H2O method of making pipe tobacco, to give Granger its fine flavor and fragrance. Then, too, Granger is "Rough Cut" — just like they used to "whittle" their tobacco off a plug with a jack-knife. It smokes cool, lasts longer and never gums a pipe.

And finally, we want to sell Granger for 10 cents. Good tobaccos — right process — cost right. So we put Granger in a scrubbly soft feel package instead of an expensive package, knowing that a man can't smoke the package.

Granger has not been on sale very long, but it has grown to be a popular smoke. Folks seem to like it.

Intra-mural Sports:

The basketball game between the Freshmen and Sophomore classes last Saturday, March 8, proved to be one of the most exciting contests of the season. The Freshmen, who had been defeated by the Sophomore class in an earlier game, were determined to win. The game was played in the Broad Street gymnasium and was attended by a large crowd of students and faculty members. The Sophomore class led for most of the game, but with only a few minutes remaining, the Freshmen made a comeback and won the game by a narrow margin of 3 points. This victory marked the end of the current season for the Intramural Basketball League, but the students look forward to a new season with renewed energy and enthusiasm.
