M.I.I.G.A. MEETING

WELCOME to the OLD GRADS
Meet and talk over old times in our dining rooms.

I keep coming back to that word "balanced" on the back of the Chesterfield package.

Yielding when the word "balanced"—something is out of balance—top heavy, not on an "even keel."

What you read, "Ches terfield Cigarettes are a balanced blend," means that the right amounts of the right kinds of tobaccos are mixed together. Back in home-grown tobaccos, the right kind, the right quantities are blended and re-blended with tobaccos from Turkey and Greece.

When these tobaccos are blended one against the other, then you have a mild cigarette.

When there are in balance, then you have a better tasting cigarette.

How are we to read against the advertising on the back of the Chesterfield package?

Ches terfield. A balanced blend.

What you want in your pipe

... is tobacco that's made to smoke in a pipe. This means the right kind of leaf tobacco—the kind that grows for pipes.

It means that it's made right... and old man Wellman, who taught us how to make Granger, knew how. It means that it's cut right.

Just pack Granger good and tight in your pipe and strike a match. Folks seem to like it.
