East Lansing has asked for material aid from the state department but it has not been forthcoming.
 Why this city does not have more than one traffic light is puzzing. Very little, if anything, has been done withing the last ten years for pedestrians crossing the streets. Traffic is as steed that stripled.

"Qualitative education as it starts upon its mission is not interested merely in perfecting the body of knowledge or the processes by which that knowledge may be obtained, but being social, thinks in terms of life and how it may adjust itself to the age and environment in which it lives." This is a journey which would rival the ramblings of any athletic team in the country, especially since it follows close on the heels of a trip to the west coast. In Madison Square Garden, the Spartans will be showing their wares before an audience which is used to the high-set type of basketball, an honor which should be appreciated by every Spartan sympathizer. Only Top flight teams are asked to play in New York's huge sports arena, which is an excellent example of the esteem in which Michigan State's athletic squads are held.
