

## Enrollment Figure Sets New Record For Spring

### Charles F. Kettering to Speak Here Tonight Reaches New High As 6,100 Students Pass Through Line

#### Inventor Will Open Spring Lectures

Speaker is Vice-President of General Motors

Charles F. Kettering, American inventor and vice-president of General Motors corporation, will open the spring student lecture series tonight at 8 p. m. in the college auditorium when he speaks on "Highways to New Horizons."

A graduate of Ohio State university in the year 1904, Kettering holds the philosophy of never being satisfied with anything. In explanation, he says: "Average has believed itself

#### Lange Spades Out a Super Jack-Pot

A super jack-pot! It happens just once in 168 billion times.

Monday evening, March 18, August Lange, agriculture senior of Gladwin, sat down with fraternity brothers Ted Willis, Rogers Ketcham, and Joe Griffith for a quiet evening of bridge at the Theta Chi house.

Several hands had gone by, conversation was thick and fast. Lange was discussing his last final, finished just four hours previously. He picked up his hand, and stared at—13 spades, and made it, of course.

#### Pianist Named To Fill Music Vacancy

Robert Macdonald, for five years head of the Columbia school of music in Chicago, will replace the late Prof. Lewis Richards as piano instructor at Michigan State college beginning April 1, according to announcement by Dean L. C. Emmons of the Liberal Arts division.

Macdonald will not assume the position of head of the music department, left vacant by the death of Professor Richards. Dean Emmons will care for the duties of that position for the present. Macdonald's appointment is for spring term only.

The new music instructor is the former head of William and Virginia College in Chicago and of Aurora College, Rock Island, Ill. He has also directed music in several of the well-known Chicago churches. Considerable praise has been given him by critics for his concert work in piano.

A number of previously scheduled concert engagements will be filled by Macdonald during his work at Michigan State college.

MICHIGAN STATE COLLEGE ADDS A FINE NEW BOOK TO THE SHELF OF KNOWLEDGE.

#### 693 Seniors Register For Marriage Series Course

Figures late yesterday revealed that 693 students have registered for the marriage lecture series of spring term, it was announced by Becky Lord, Mortar Board representative on the advisory committee for the series, being sponsored jointly by Mortar Board and Excalibur, senior honoraries.

#### Averages Told For Greeks

Pi Kappa Phi with an average of 1.613 had the highest average point average among fraternities for the winter term. Deans of Men Fred T. Mitchell announced today. Alpha Gamma Rho placed second with a 1.548 average.

#### Students Prepare Spring Welcome

In spite of snow storms, spring will be welcomed at the Student club spring dance Friday, March 29, in Little theater to the music of Bell's orchestra.

#### Teachers Will Evaluate Art

"Evaluating the Art Program" will be the topic of a panel discussion to be held Saturday, March 30, at 9:30 a. m. in room 204 Union annex by a group of former Michigan State college students now teaching in various parts of Michigan.

#### ASME Hears Yale, Towne Assistant

Maxwell C. Maxwell, assistant to the president of Yale & Towne Manufacturing company, gave an illustrated lecture at an open meeting of the Michigan State college chapter of the American Society of Mechanical Engineers last night in Olds hall.

#### VanDusen Article Is Published

"Public School Speech Clinic Rooms, Equipment and Supplies," an article by Clarence R. VanDusen, director of the speech clinic of Michigan State college, was published in the March issue of "Journal of Exceptional Children," put out by the International Council for Exceptional Children.

#### ASME Hears Yale, Towne Assistant

Maxwell C. Maxwell, assistant to the president of Yale & Towne Manufacturing company, gave an illustrated lecture at an open meeting of the Michigan State college chapter of the American Society of Mechanical Engineers last night in Olds hall.

TO BE DEVELOPED

Something is one of a number of things engineers who believe in the use of an automobile is still a mystery. Cooperatively they believe, should be the present limits of the automobile industry. The automobile industry has been far from his own field. The use of an artificially created atmosphere as a treatment for various diseases is his most important extra-curricular accomplishment. He will leave to the world the INVENTOR—Page 3.

## Under the Wire

LONDON, March 27—A German submarine was reported here to have penetrated a closely guarded British contraband base in the Orkney Islands, sinking a 3700-ton Norwegian freighter. The crew is said to be safe.

WASHINGTON, March 27—House Military Affairs committee today heard testimony from high government officials recommending proposed selling of United States fighting planes to the Allies. It is believed that as a "shot in the arm" for American aircraft industries, tipping production to 30,000 or 40,000 planes a year, was stated. Secretary of War Wendell and Chief-of-Staff General Marshall were among those testifying.

WASHINGTON, March 27—House economy block was swamped today as 67 millions of dollars were added to CCC and NYA appropriation bills. According to rumor circulating here, President Roosevelt will request a five hand in managing of relief funds, in the event an emergency.

PORTLAND, Maine, March 27—Maire Democrats will throw their support behind President Roosevelt at the presidential convention in August this year, it was disclosed today. Postmaster-General James A. Hoge is second choice.

BERLIN, March 27—Fire in an industrial plant outside Berlin, caused by a munitions factory, during the night caused tension here since it acted as a perfect beacon for enemy planes, some of which appeared over the city, however. Military sources here reported heavy artillery action today on the Western front with German troops "inflicting heavy casualties" on French patrols.

MONTREAL, March 27—Early returns indicate that the war poll of Prime Minister Mackenzie King, recently challenged, have won a largest parliamentary majority in Canadian history.

## Today's Campus

**No Armour?**

Coeds, take note! You may have a new idol. A Spring Parade Cavalier, Glamour Boy Don Robinson, polo captain and member of jumping team, cavalryman deluxe, is mounted on a spirited charger for the military department's extravaganza this spring.

Yesterday Don and his mount came prancing out of the stables and every jug went beautifully until the spirited charger saw a "roadblock." Then with his ears laid back and a malicious glint in his eye, the horse—ah, what a beauty—shuffled over to the drift and laid down for a nap.

**Paging Johnson**

"Hello, Johnson!"

And at least a hundred looked up.

It was 4 o'clock Monday and the "J's" were registering.

Robert Marshall Johnson, for whom the greeting was intended, yelled back his first and middle names and said he was from Chicago.

**Guilty?**

H. W. Glassen, Lansing attorney who is teaching the course in business law, though he had uncovered some culprits when he began his class Wednesday morning.

Opening in his best courtroom manner, Glassen began his lecture, "Today we will take up the statute of frauds." Instantaneously three "members" of the class jumped up and beat a hasty retreat.

Explanation was not guilty consciences, but a mistake in room numbers.

## Misunderstanding Leads to Ill-feeling

The administration's refusal to permit a State News representative to be present when results from the referendum are tabulated seems certain to create ill-feeling between students and administration.

No definite reason has been given as to why State News should not be allowed to witness the final counting.

One belief is that the State Board of Administration desires an expression of opinion from students regarding State News and that it is unnecessary to have a student present.

But students feel that they should be given opportunity to witness the counting, simply because of democratic procedure.

Alighting that the administration does not have to allow students to be present when the counting is done it is to their advantage if students say.

When democracy over a student is to be witnessed, the tabulation of a student is to witness all doubt of misunderstanding will be removed.

## Working As Hard As Work

As done at New York's City University, students are made of the experience of each term. Since there is no vacation, and on all sides are the hard pressures to "do better," "do better," "do better," and "keep up on study work."

Well, it's a hard job to make resolutions, especially for sports teams.

But it's still easier to break them, especially during spring term.

The one place usually, however, and even take on a leading position, thinking of their duties, students' attention is turned.

And the studies suffer. Classes are out. Classes are substituted for library trips. Study sessions are given up to parties.

It will take a lot of determination to stick to study even as they. And it will mean a lot of fun for students.

But the rewards will be great. Spring term marks will show A's and B's, instead of C's and D's. And the rewards will be happy, that's why.

Discontented employees will have a kinder one, and most jobs will present themselves.

The fight to keep up studies will be a hard one, but to them who do their school work faithfully, the rewards will be highly favorable.

Freedom of thought and of action is devoted in our world, and if we are to preserve the freedom which has been won for us at great cost, it is imperative that universities and universities must not be allowed to be taken over by a few men who are playing their part. Queens University's Dr. K. C. Wallace tells today's collegians to take their place in the world of affairs.

## Jerrymeandering with Jerry Dewar

Back again to meander around the United States and parts south to bring you all news of what's happening down among our southern states and brethren. And that off we want to congratulate the University of Mexico for digging up the data that proves that it is the oldest college in America.

Ballroom class... Thursday and Friday, 7:30 to 8:30. Call for information and enroll now. Virgine Simmons, School of Dancing, 25 Strand Avenue, Ph. 2022.

# The Daily Washington Merry-go-round

WASHINGTON, March 28. Now that all the White House ballads over the possible nomination of Cordell Hull for President has died down, some of the inside facts in the matter can be told.

Real fact is that the President did talk to some of his close friends about the adaptability of Secretary Hull as the Democratic nominee; but these conversations did not revolve around Cordell Hull.

## This Collegiate World

Several years have elapsed, but the story is a good one. A Cornell university undergraduate, fascinated by the epic proportions of the feat, determined to pay his university bill of \$245.50 entirely in pennies.

Investigation at a local bank revealed that 24,550 pennies could be prepared in exchange for bills. The resultant sack of paper coins was hauled to the treasurer's office and stacked before the proper window, whereupon an informed treasurer informed the paying student that pennies in that sum were not legal tender and could not be accepted.

Undaunted, our hero returned to the bank, planning to deposit his pennies and get the cash to pay his bill. It seems, however, that the banks had an unfortunate rule to the effect that pennies could not be accepted for deposit unless wrapped in paper.

Accused with the necessary cash a much chastened student returned again to the treasurer's office, facing much relief at the prospect of ending an unhappy episode, only to find that an additional five or \$2.50 had been slipped against his account for late payment of fees.

Finally, the manner in which the student had been handling his money had caused a riot among the White House staff. The riot would have been more serious for persons all to own.

At all this, up to the fact that the student had been handling his money had caused a riot among the White House staff. The riot would have been more serious for persons all to own.

# Seniors Present "A Study in Color" SENIOR BALL WITH LARRY CLINTON

April 13, 3.00 Compl. \$7.95

# SPARTAN SPORTFOLIO

By DON ANDERSON

Unless Old Man Winter soon relents and admits that spring is really here, Michigan State athletes are due to make good use of the spacious confines of Jenison fieldhouse, only recently opened to them.

We took our first good look at the new athletic plant yesterday and left with the feeling that we hadn't seen half the sights, which of course was the case. The latest word in design and improvement have gone into the building with the result that it will be a long time before it is bettered or even equaled.

The gymnasium proper took our eye at the very outset. Large enough to accommodate four basketball courts, it looks to be almost as big as the fieldhouse itself. The floor is of the new suspension type, huge springs beneath the plating absorbing the pounding and bouncing every year that inevitably gets.

The swimming pool is also a thing to see. At first glance it appears smaller than the old one, due to the fact that it is of regulation size while the old college pool was not. It is wider than the gym pool but not as long. Permanent seats in the hot only angle spectators of more comfort at attending meets than in the past. The pool is really dressed in its best when the natatorium is decked and the underwater fights are on.

## New Pool to Help Swimmers

The new pool will bring many benefits to Spartan swimmers. Jake Daubert is looking for better results in meets away from home. We have been at a decided handicap in other college pools because most of them were of regulation size while ours wasn't. Jake said, "Our boys weren't used to the regulation distance and it threw them off. Now that we have a pool of official size our self, we should be better in out of town meets."

Daubert is not the only one pleased with the new layout. All the coaches have offices and quarters which would rival those of any of the top New York office dwellers. It's a pleasure just to wander through the corridors, replete with diffused lighting and white plaster. Tiring of this, one can sink into leather divans in the lobby and admire the rows of slow cases which hold the trophies marking past athletic conquests.

All in all, the new gymnasium is quite a place. One has the feeling that it would be very simple to become lost in the maze of corridors and rooms and floors. If you haven't treated yourself already, stroll over that way soon.

## Gym Courts Open

Handball and squash courts are expected to become as popular as basketball at Michigan State's new athletic plant.

# State Nine Beats South Carolina

## Spartans Win Out In 12 Innings

By George Owen

Michigan State's touring baseball team faces South Carolina today in the second contest of a two game series, after beating the southerners, 14-12 in a knockdown dragnet slugfest yesterday.

Twenty-two baschits rolled off Spartan bats as the Koban men chalked up their third victory in five starts as against one defeat and one tie. The South Carolina made only 10 hits, but was guilty of five bobbles in the fight. State made three errors.

The Spartans were forced to go 12 innings to achieve yesterday's triumph. They blew a seven run lead in the late stages of the game, when South Carolina rallied to tie the score, in the eighth.

George Monroe started on the mound for the Spartans, followed by MacArthur and Mikulas. Leo Walkover was behind the plate. Oregon and Henson batted on the mound for the Carolinas, with Patrons and Hatcher sharing the catching. Norm Duncan led both teams at the plate with four solid base hits, while three other Spartans, Bill Morrison, Cussy Klewick and Bob Fitzsimmons each had three safeties.

After today's game State will start the homeward trek stopping off in Kentucky Saturday for a set with Eastern Kentucky Teachers. To date, the Spartans have beaten Georgia, 5-2, Princeton School of South Carolina, 11-5, and South Carolina, 14-12. They have lost to Georgia, 5-4, and have been tied by Clemson, 3-3.

## 'Double Trouble'

Coaches are seeing double at Michigan State college these days. There are three sets of identical twins reporting for Spartan teams.

Last fall Coach Charley Bachman had the Davis twins, Wynno and Wilford, on his football squad. They are from Dundee, Mich. Bachman was major letters and Wynno was a star left halfback. The Jennings boys, Merle and Berle, are members of the freshman wrestling squad and are regarded as two of the best looking and prospects. Coach Fendley Collins has even seen them. They hail from Tulsa, Oklahoma, where they won state championships before coming to college. The Coody boys, Morris and Manus, from Coral, Mich., will try to make the grade with the Spartan baseball team as outfielders this year.

# Collegiates Call Four Swimmers

## State Tankmen Entered In Three Events

NEW YORK, March 27.—Four Michigan State college swimmers and their coach, Russell (Jake) Daubert, were spending a few hours here today before enrouteing for New Haven, Conn., where they will see action in the National Collegiate meet Friday.

Capt. Don Ladd, Don Farmer, Dale Hanson, and Huntley Johnson are the quartet which will represent the Spartan tank team in the Yale-sponsored meet. The five tankmen are slated to get in a workout in New Haven tonight in preparation for Friday's qualifying events. Daubert and his charges left East Lansing Wednesday afternoon.

Ladd and Farmer are slated to swim in the 220 yard free style event, while Hanson is to compete in the 50 yard free style sprint. All four are entered in the 300 yard sprint relay. The National Collegiate will last throughout Friday and Saturday.

Receipts from a basketball game between a William and Mary brother fraternity and a faculty quint will be turned over to the Finnish relief fund.

University of Omaha students recently voted six to one in favor of continuing intercollegiate football.

Sixty athletic engagements are on the Spring calendar of the University of Vermont.

# Fieldhouse Is Spring Grid Stronghold

## Transfer of Athletic Headquarters to Jenison Fieldhouse and Gymnasium

Transfer of athletic headquarters to more luxurious quarters in Jenison fieldhouse and gymnasium and a visit to Panu Maki, former world's champion Finnish distance runner, and Taisto Maki, his successor, were the highlights in an otherwise uneventful spring vacation for Michigan trackmen.

With snow still covering the outdoor track, Coach Young is having the team practice today on the clay of the fieldhouse, which now bears the stamp of approval of both Maki and Maki. The first of their meet is with Purdue April 13.

Expulsion of an eleven-foot 14 man team in the A. A. U. relay in Ann Arbor Saturday night proved a blue ribbon failure for the Spartans. Best State performance was perhaps Al Mangon who, with his two workouts, stepped off a second place in the mile walk behind William Mikula, Hamtramck Boys' club star who was twice named for cross-country last season. Mikula's 7:13 was a new fieldhouse and M. A. A. U. record for the event.

Boy Fehr held an early lead in the mile event and placed fourth behind Holterman of Purdue, and Foster and Barrett of Michigan. Holterman, state high school record holder from Escanaba, sprinted ahead in a new M. A. A. U. and fieldhouse record in 9:17.

Wall Arrington cleared six feet in the high jump but was unplaced and Dick Fehr came in a late third in the featured two mile event, in which Captain Schwanbeck of Michigan outdistanced Maki in the last lap to finish in 9:09. Handler tied for fourth in the 35 pound weight throw for height and the mile relay team of Cooley, Martin, Smith and Rosenbaum trailed the Michigan Harvard quartet.
