THE MOTORCYCLE, THAT putt-put-

ing pest, may be here to stay. Anyone who has had one of them swoop at him

from behind a tree in a small-town speed

trap has been able to recancile himself to

getting along without them. It is said that

some persons have tried to drive between motorcycles at night, only to find they

were a truck. Such persons probably have

WELL, it's only the beginning, folks-

only the beginning. You're going to have the little jobs in your hair-some day-

if a San Francisco inventor has his way. He wants to develop a flying motorcycle.

He has designed one that would work like a helicopter so cops could swoop down from behind a fleecy cloud.

THERE'S REALLY nothing wrong with

motorcycles. They're all right for those

that like them but they do help complicate

life. Have you ever spotted a nice empty parking place half a block down the street.

cut through trucks, buses, and pedestrians

to reach it, only to find a motorcycle park-

THINK IT'S going too far to allow the

putt-putts to wander around loose in the

upper air. It would be disconcerting when you get your harp and wings to be tuning

up and have one sputter by out of a handy

THEY'RE HARMLESS, OF COURSE,

and you can admire their riders. You can

admire even more the brave chicks who balance precariously somewhere over the

back and hang on for dear life, over hill,

over dale, and over the hill to the hospital if they're not careful.

MAYBE THIS war restriction of manufacturing isn't so bad after all. It's much

more comforting to know that that wrench

that just bounced off your head came out of a Curtis-Wright P-40 instead of an

overgrown scooter run amok in the sub-
