Japs Sink Two Destroyers at Guadalcanal

American Fliers Damage Nip Cruisers; Aerial Activity Heavy

By RICHARD L. TURNER

AFO Washington, Oct. 21 (AP)—The navy tonight an¬
ounced the loss of two destroyers—Purcell—first and Col¬
nel—the in the still—

of Pacific, but American airmen damaged a Japanese air¬
craft and captured a cruiser with a bomb hit.

Aerial activity yesterday and the day before resulted in the destruction of two enemy bombing
planes, nine Zero fighters, and a seaplane. A Japanese pilot
was captured, but the activity was confined to the islands of Guadalcanal itself.

Reds on Defensive In Stalingrad

MOSCOW. Thursday, Oct. 22 A2P) — The battle for the initiative in the blackened, sun-baked wastes of Stal¬

grad's northern industrial dis¬

trict yesterday and today, the Germans from a number of buildings in the nightlong, nightlong communiqué said today.

In other parts of the German front the Russians said to have "constant attacks" with the offensive front on the Red Army from the positions which it has deserted successively since the

today.

The Russians also took the initiative at several points north¬

of Stalingrad, but retrenchments of the operations were not dis¬

cussed.

On other sectors of this front there were engagements of local importance and exchanges of ar¬

tillery and mortar fire.

Ten Axis Ships Sunk in Mediterranean

CAIRO, Oct. 21 (AP) British and Italian air forces have sunk 16 Axis supply ships so far this week. In the Mediterranean, a recapitulation showed, in addition to successes scored on both land and sea in constant Allied air attacks with results in which American medium bombers have stepped up the tempo of operation on an increased scale.

An American communications covering Tuesday's operations and the medium bombers of the U. S. army desert air task force reported, in the zones of the sea, attacks "constantly directed on coastal targets, installations and port areas and destroying enemy merchant ships as they were about to take off.

East Lansingites To Be Canvassed for Tim Tomorrow

A complete marble drive to canvass for Tim tomorrow is being planned for East Lansing. According to Professor Smith, chairman of the East Lansing vote committee, his committee has already been canvassing the campus, starting at the freshman dormitories, and will start making house-to-house calls at 2 p.m. today. The canvassers will be on the lookout for people who have not yet registered to vote.

The goal of the canvass is to increase voter turnout in the upcoming elections. The committee is hoping to reach as many voters as possible and encourage them to participate in the democratic process. The canvassers will be equipped with information about the candidates and the issues at stake, and they will be available to answer any questions voters may have.

In addition to the door-to-door canvass, the committee is also planning to conduct a phone bank to reach out to voters who are not registered to vote or who may be struggling to find the time to vote. The phone bank will consist of trained volunteers who will make calls to encourage voters to register and vote.

The committee is working with local organizations to coordinate the canvass and ensure that all eligible voters are reached. They are also seeking assistance from local businesses and community leaders to help spread the word about the canvass and encourage local residents to participate.

The canvass is an important part of the democratic process, and the committee is committed to ensuring that all eligible voters have the opportunity to participate. They are grateful for the support of the community and look forward to working together to make a difference in the upcoming election.

MICHIGAN STATE NEWS Page Three

Ada Ciss Score in Last-Minute Defeat Delta-Sigs in Frat Loop

The hope of Michigan State's football fans was heightened Saturday when the news that Dick Kieppe, first string halfback, had returned to practice after an absence of six days came.

Kieppe donned a uniform and ran a few plays with Valery Pavlovsky in the first string. Help already has seen action in practice and should be able to render a satisfactory account of himself at the position where he won all-state honors in high school last fall.

Kieppe, the senior tailback player at 5 feet 11 inches, was a halfback player in prep school and was harrassed by injury in most of the early drills. The thought that this sophomore turner will be called upon to try to spread such stout defense as have been employed against Michigan State in the last installation of the season, is most likely that whenever state defense gets off the bat sufficiently, offense will show all over the Michigan field.

Most of the practice was devoted to passing, with Kieppe, Elbert Stark, and Korbin Orendorf, great perfecting of halfback. A few of the plays had plenty of razzle-dazzle, launched in the front the policy toward until a receiver slided loose.

**Axis Protests Allied Barbarisms**

NEW YORK, Oct. 21 (AP)—Germany and Japan appeared from their new broadcasts today to be trying to build up an air of alleged war talk that would justify reprisals against the United States and Britain, and the punishment of prisoners.

The Tokyo radio, which continued its broadcasts of threats to punish United States ships taken after raids on Japanese territory, named four airmen, it said were captured after the April 18 raid on Tokyo, and said they had confessed to information against the civilian population.

In Washington, the war department would make no immediate comment on the Japanese-German broadcasts.

To Release 4,000

As McNutt testified, Undersecretary of War Patterson announced 4,000 miners would be released from military service in an attempt to relieve a shortage of coal, lead, tin, tungsten and other critical materials holding back war production. Patterson and he said no new rules of furlothing other troops.

Legal interpretation such as McNutt outlined was termed undesirable at the present time in a report made to the house yesterday by the special committee on defense legislation.
