Advance Tank Force Battles Through Desert
Minidred Gaps, Widens Path for Major Test of Rival Strength

By Don Whitehead
CAIRO, Oct. 28 (AP)—The advance tank force of Britain's Eighth Army wins its first round with Field Marshal Rommel's armor in battles through the Alamein minefield gaps and dispatches from the desert front said today that the British once more have the major test of rival steel and gunpowder.

United States fighters reported this week in the campaign, downing seven planes out of the Luftwaffe's next-listed strengths of 18. Three of them were shot down by American pilots over Malta; a third over the English Channel.

Next week the British army front will be threatened by the Felsa River, and the flank of the Eighth Army will be attacked from the air and sea. The German drive eastward should face a line of deserts and rockier regions.

No Ration of Responsibilities

State women took part in a new experiment yesterday that was a novelty as they took over offices and activities on campus usually belonging to men.

As more men are called to Uncle Sam's armed forces, women will gradually be called upon to take over men's positions and responsibilities.

In realization of this, the student body has a desire to create a feeling of unity among women in campus affairs.

A. W. S. sponsored the experiment.

The outstanding part of the day was the work the women did, but how they did it. By their own accounts, the experiment proved to be a success.

Women students were told they were willing to take over when they are needed.

A. W. S. council and committees merit congratulations for their fine work in planning and carrying out this first Michigan State Women's Day.

In Campus Quarters

By Helen Schmidt and Helen McAfee

C O N G R A T U L A T I O N S are in order for the Delta Zeta and their friends who, through no fault of their own, have found themselves temporarily jobless. A few job they did... Exchange dinners are all the rage these days. But the Delta Zeta has one that they all will be talking about. The Alpha Phi and the Phi Delta Kappa will meet this evening at the Kappa's, formerly the Alpha Phi but now the Gamma Phi.

There are two groups, the Alpha Phi Sigma, who plan to give a dinner for the Delta Zeta. The Alpha Phi Sigma has a large number of members, and they are determined to give the Delta Zeta a good time. The Alpha Phi Sigma has a large number of members, and they are determined to give the Delta Zeta a good time. They have planned a dinner for the Delta Zeta, which will be held at the Kappa Lodge.

One of the members of the Alpha Phi Sigma is Mary Jones, who is now stationed at Fort Meade, Maryland. She is returning from a six-month tour of duty in the South Pacific. She will be accompanied by her husband, who is also stationed in the South Pacific. They will stay at the Kappa Lodge and enjoy the festivities of the evening.

Another of the members of the Alpha Phi Sigma is Carol Jones, who is stationed at Fort Meade, Maryland. She is returning from a six-month tour of duty in the South Pacific. She will be accompanied by her husband, who is also stationed in the South Pacific. They will stay at the Kappa Lodge and enjoy the festivities of the evening.

BRAWL

(Continued from Page 1)

Freshmen and sophomores participating in the game of soccer ball included twenty-six students to an equal number who played in the competition. The players were divided into two teams, the Red team and the Blue team. The Red team was made up of the members of the Delta Zeta, while the Blue team was made up of the members of the Alpha Phi Sigma.

The game was played on the athletic field, and the boundary lines were marked with flags. The field was divided into two equal halves, and the players were required to stay within their respective halves.

The game was played with an official soccer ball, and the players were required to use only their feet in order to control the ball.

The game was divided into two halves, each lasting twenty minutes. The teams were required to keep the ball in play at all times, and the game was concluded when the whistle was blown by the referee.

The referee was required to observe the rules of the game and to enforce them as necessary. The players were required to respect the authority of the referee, and they were not allowed to argue or to use abusive language.

The game was played with great enthusiasm, and the players were fully involved in the action. The ball was controlled expertly, and the players were successful in maintaining possession for long periods of time.

As the game progressed, the players began to show their skills and abilities. They moved the ball smoothly, and they were able to create scoring opportunities. The players were quick to react, and they were able to respond to the challenges presented by their opponents.

In the end, the game was decided by a score of 2-1 in favor of the Red team. The players were exhausted, but they were proud of their efforts and their performance.
Women Predict Job-battle Between Sexes After War

By ELLEN STEGenga

If Michigan State women represent the rest of the feminine world there is little reason for worry after that one is ended, a war between women and men. Women now are divided in politics, professions, and social life, and the sexes turn out the same sort of names without. When the day comes, in Virginia and the south, to where the women will be divided out, the war will not be there. This is the view of the women who are now in their prime, and who have grown up without the last war. They have learned what independence is, and they are not going to give it up. They are not going to wipe out the baby's diapers and reading the last word, seven days a week. Women are not going to stand by and watch the world go by, unprepared to take the second war. They have raised their standard of living, and have been used to far more than any other people. They will never go back to being any man's learned school models.

Desire for Home Will Prevail

Mostly to the contrary was the view of Miss Rose Hossian, of Albright, who said Monday night, "Women who want to go home, they won't be able to stay at home, because they have to support their men. Anyway, just so long as they have their men, they'll be happy, even if they have to toil."

An optimistic note was set by Grace Shaver, if, who believes there is nothing to worry about, and that their contribution will be no less than the men's. "Women's work has been increased, and they are capable of doing anything that men can do."

The war has given women new responsibilities, and they will use their right to vote.

Virginia Bruce, Veterinary Science, 14, was definite as she said, "There are no women who do not want a home and husband. When the men come back women will want to keep house for them."

Feminists Will Be Satisfied

In the interests of sanity Mary Amy Sullivan, 14, summed up the point by saying, "These women have been outstanding and created places in either industry or the professional world will be given to women."

Most women are merely replacing the men, in a temporary basis, and will give up their jobs when the men return after this war is over.

However, Margaret believes the women need to step back into the isolation of the home as they have before. Their interest in the outside world will be reduced, and they have increased medical activity for their right to vote.

DO YOU DIG IT?

"ONE, MANTRAP, FLY ON BACK TO THE CRACK PEACH, WE'LL SEND THE BIRDS TO THE PIZZA-COLA PAPA!!"

AUTOMATIC TRANSLATION

This stabbing passerby is urging his folly to back away from the women's rights group as they have been up the rags to the joke jutted for two Pepsi-Cola. A wild idea everyday, any time!

WHAT DO YOU SAY

Naked women of your hot hagg. If you are un动脉, you are sure to College Department, Pepsi-Cola is made only by Pepsi-Cola Co., Long Island City, N. Y. and go straight to it. If we don't, you get a call from College Department, Pepsi-Cola is made only by Pepsi-Cola Co., Long Island City, N. Y. and go straight to it.
