Post War Education Appears Bright

SEVERAL weeks ago the President of the United States made a statement in which he pointed out that a committee was studying post-war plans for education of men returning to civilian life.

The statement was interpreted by some observers to mean that the post-war era will produce a new, concrete freedom—equality of educational opportunity.

There is reason to hope that out of the war will come a revitalized educational system, one in which the selection of students will be based upon ability rather than economic privilege.

It is pertinent to observe that college students who are going into the armed forces—as well as those who have hopes of attaining college some later date—a concrete freedom for which to fight.

The last war failed to produce such a concrete freedom. True, many rehabilitation of dislocated veterans went into civilians, but they were highly inadequate. A "vocational rehabilitation" bill, known as the Smith, Houghton bill, is now in Congress, which would return to their jobs were provided full-time college or vocational opportunities to be paid into a mouth or more—both for a maximum of four years.

This time, however, we have something more to anticipate, that is, a reorganized system of the educational system—a college education for all those persons whose capabilities of ability to pay for it.

Even without official announcement of the details concerning this program, we can be sure of two things at this time; the war on every day, and every enrollment during the years immediately following this war will be double that of pre-war days; and post-war educational opportunity will carry greater promise, than that enjoyed by the veterans of the last war.

PERHAPS you've noticed the ever-growing popularity and influence of Greek organizations. Greek life has always been a part of the life of the college, but it is growing rapidly. Many students who are not members of a Greek organization are beginning to look upon the Greek system with a great deal of curiosity.

Students are learning that the Greek system is not for the few, but for the many. It offers an opportunity for real fellowship and an opportunity to grow in leadership and maturity.

There is no shortage of popular Greek organizations, and there are many to choose from. The Delta Phi, Alpha Phi, Kappa, and Lambda are just a few of the many organizations that are available.

The Greeks are exchanging dinners and dances with their fellow students. They are enjoying each other's company and having a good time. They are learning to work together and to help each other.

One of the newest organizations on campus is the Alpha Phi Omega. They have been very active since their establishment and are always looking for new members.

The Alpha Phi Omega is a national fraternity that was established in 1897. They are interested in leadership and the development of young men and women.

The fraternity is open to both men and women, and they have a lot to offer. They offer opportunities for leadership, service, and personal growth.

The Alpha Phi Omega is a dynamic organization that is always looking for new members. They are interested in meeting new people and establishing new relationships.

If you are interested in learning more about the Alpha Phi Omega, please contact the fraternity on campus. They are always willing to answer any questions you may have and to show you what they have to offer.

Back Injury Puts DeColf out of Schedule; Indians Basketball Game Cancelled

The Michigan State cage squad suffered its first setback yesterday when word was released that Roy DeColf may be lost to the team for the first few games of the season. DeColf, one of the five returning lettermen, was counted on heavily to fill the gap left by high-scoring center Joe Girard. A recurrence of an old foot injury sustained in high school will force the star to drop the pre-collisions from the sidelines. Along with the injury of DeColf's
DAIRLAN TAKES CONTROL AS CHIEF OF STATE IN FRENCH AFRICA

OPA to Check Gas Ration Complaints; First Day of Rationing Goes Smoothly

DETROIT, Dec. 1 (AP)—Attention is being focused today on the Office of Price Administration here that starting Monday there would be a check made on the fairness of preferred mileage allowances given by rationing boards.

Many complaints have been registered with OPA here to the effect that too much gasoline has been allowed by boards in some cases and too little in others, according to a statement made to-day by Edward T. Broadwell, state gasoline rationing officer.

Meanwhile, citizens of two big原文 industry centers, Detroit and Flint, are taking the gasoline rationing in good humor. Little difficulty was experienced by public commuters in transporting war workers to their jobs in Detroit this morning.

One plant reported a large number of workers to be 15 minutes late in starting work.

MANHATTAN

SHIRTS, PAJAMAS, HANDKERCHIEFS, NECKWEAR, SPORTS WEAR, MANSCO UNDERWEAR

ADVICE TO A LADY

FROM S. CLAUS

You couldn't do better by Father, Brother, or That Man than to follow the O.D. Boy himself, Wam! His pack has brimmed with fine Manhattan gifts for nigh 80 years ... and not a "mistake" in a sleightful.

A pair of shirts and ties, that go together, might top your package. Then sateen pajamas for out-and-out sleep luxury... and water-sports-wear just for fun. Handkerchiefs with minute rolled hems. And if you want to bring out the pride in his masculine hole... Manseq shorts in stripes or solid colors.

Prices you'll approve for the things he'll approve ... appropriately boxed and wrapped. Give them and watch them prove the hit of the house on Christmas morning.

You can't get better advice than from S. Claus, who knows what's good for men. He's been here for over 80 years, and his pack is brimmed with the best Manhattan has to offer. Prices you can't find elsewhere! Enjoy!_
