President Hannah Explains New Enlistment Plans

It has been the policy of the Army and Navy to require all freshmen students who have not completed two years of study to contract for the completion of the four years required in the Reserve Officer Training Corps (ROTC) program. These requirements have now been relaxed by the Army and Navy.

Men interested in the Army’s ROTC program are invited to enlist in the Army Enlisted Reserve Corps. This program is designed to provide trained men for the Army who can be used in times of national emergency. It is expected that these men will be called up to active duty in time of war and will be available for service in the reserve forces.

The Army Enlisted Reserve Corps is open to men who have completed two years of study and who are willing to serve in the Army for a period of four years. These men will be trained in military tactics and strategy and will be prepared to serve as officers in the Army.

The Navy has also relaxed its requirements for enlistment in the Reserve Officers’ Training Corps. Men who have completed two years of study and who are willing to serve in the Navy for a period of four years will be accepted for enlistment.

To enlist in either the Army or Navy Enlisted Reserve Corps, men should contact their respective recruiting offices. For Army, contact the nearest Army Recruiting Office; for Navy, contact the nearest Navy Recruiting Office.

The Michigan squad had just dropped a 20 point game for a three-pointer and with a very close score, 15 to 6, expected a second period encore.

Hitting the road the State-led coaches found that they could travel for almost five days and still put on their best performances. A trip with Temple and a less powerful Washington State all occurred in two weeks in which time the "W" footballers traveled from coast to coast.

Back in East Lansing, the Spartans celebrated with a 19 to 6 win over Purdue. This game, incidentally, was the first and only one in which the regular team was able to outscore almost half the contest.

Bugg St. Virginia, instead State added its fourth victory, dropping the Mountaineers 7 to 6. At last the Spartans were on their way—certainly by this point of the season the Mountaineers had been in injuries. Two others were badly injured and their place was greatly hampered.

Orphans Tour

When the opponents really needed the check it was found that the three opponents that held decisions over the Spartans had teams that rated with the best in the respective ghords. Both Michigan and Washington State went into the game with the best elevens in the country, while Marquette got the club on the field the like of which hadn’t been seen at Milwaukee in some time.

Dakar on Verge of Becoming Allied Anti-Submarine Base

LONDON, Dec. 1 (AP)—The Allied approach appeared to be on the verge of occurring as Dakar without bloodshed for use as an anti-Submarine war base and of taking a valuable part of the French fleet there on the barrier of West Africa, which once was considered a potential dagger pointed at Brazil.

The decision throwing Dakar open to Allied use was expected to come out of conferences among Allies among Pierre Boston, the one-legged premier-general of French West Africa, Admiral Jean Darlan, and the Allied army and navy commands in France.

Confering with Darlan, as head of the new imperial council set up to rule France, Africa, and Ruwenzori as a member, were:

Defiance to Allies

NEW YORK, Dec. 2 (AP)—Premier Mussolini's coughing and labored, breathing on the radio today supported recent reports that he is a sick man.

Just how ill the premier is was not of, course, ascertained but obviously he made his long speech with effort.

Coughing and putting defiance through the 13-minute speech in answer to Prime Minister Churchill's threat to bomb Italy out of the war, Mussoni's attempted to look calm today that Italy had been forced into the conflict by "the aggressors," but assured the people that they now would fight on to the end.

"I have a vague impression that the Italian people want to hear me," he said.

Then he told them that the Germans "have broken the Roman Legionaries," that "victory cannot fail to come to the Axis" and that he "was not surprised by the (Allied) invasion of North Africa."
