CAIRO, Dec. 4 (AP)—An Allied aerial offensive is raging against the Axis in the Mediterranean. It has been going on for several days. Technically it is known as a "period of lull" in the war on the desert front.

During the present "lull" Allied aircraft, notably long-range bombers and long-range fighters, have been inflicting losses on Axis air strength and shipping so heavy that it may turn the balance in the second stage of the campaign to drive the enemy out of Africa and pursue him into Europe.

On Feb. 5, Student council President Tom Connelly announced that plays were underway for setting up a defense council. Then followed a rapid succession of defense council. Later, Crozier clarified the "ill health" statement by giving M.S.C. students a verbal chastising for poor co-operation and spirit in the program. On March 17, OSD council members elected Dick George, Eng. '43, as new head of OSD and CDC.

Two days is all that separates the Michigan State cage squad from its opening game with the University of Michigan Monday night in Ann Arbor. The Wolverines, led by their consistent pointmaker, Capt. Jim Mandler, will be in the favorite role—and one reason.
