LONDON, Jan. 6 (AP)—The
red army moving in the
middle Black Sea and northern
Caucasus has seized at least 23
more towns, including Konstantinovsk,
only 65 miles from Baku, the
soviet announced today in a
midnight communiqué heard by the
western observers.

Russian troops driving

British observers saw
this in evidence that the
Russians were beating a hasty
rearguard, moving as fast
as they could, with the
idea that they were unable to
destroy huge amounts of
equipment.

Moscow’s army

The rumor factory starts production anew this week as word reaches the college campus that many women students are returning to school after the holidays. While many women are back in college, some are still not returning. Rumors have been spreading throughout the campus that the women's dorms are being emptied out, and some women have expressed concern about the absence of their friends. However, there are no concrete reports to confirm these rumors.

ORMUS  ARE FALSE: WOMEN CAN  STAY

The rumors that women students will be expelled from Michigan State University are not true. The administration has confirmed that there are no plans to expel any students due to rumors.

A. W. S.

Women's activities for the week include a special meeting of A. W. S. council and a night dealing with future plans and programs.

In response to reports of women being expelled, the administration has stated that there is no truth to these rumors. They have also emphasized the importance of maintaining a positive atmosphere on campus.

Consumer's Goods

Will Get 15% Cut

WASHINGTON, Jan. 6 (AP) — America's civilian economy won't show down this year, but there will be 10 to 12 percent less goods and services for stay-at-home fry. This was the prediction today of Joseph L. Warren, civilian supply assistant.

Citing prospects for disappointing metal supplies, for petrol, food, cooking oils, baby food, and for other goods, Warren commented:

"The civilian standard of living in this country in 1943 will depend, to a degree, on the fortunes of war. The monotony of rationing which has been talked about is not expected to be reached in 1943 except in the respect to civilian goods made from natural materials, such as sugar and coffee."

Defence Work

Women will have an opportunity to sign up for defense courses this week at the College of Arts and Sciences. There is no limit on the number of women who can register for these courses. Classes will be held in various locations, including various departments.Individual classes will be held for women interested in defense work.

LOOKS pretty bad for our basketball team, admitted one disappointed Michigan State fan after the recent Michigan game. This seemed to be the sentiment of most Spartan fans who had read reports during the vacation of other teams' visitors. Almost everyone expected the winner to be Michigan, and personally many of the reporters expected the University of Iowa to win the game. The picture is truly gloomy, with plenty of first class players bowing out on the University court. Coach Ben Yost Altsane will take his men to the Great Lakes Naval Training Station for a couple of weeks with the Bluejackets. Of course the讷an will be the heavy favorites to take this one, but remember that Great Lakes football fans were so

Chet Aubuchon Faces Former Mate in Coming Sailor-Spartan Contest

When the Michigan State basketballers try for victory No. 1 against Great Lakes Saturday, they'll have to cope with, among others, their last year's captain and star-Chet Aubuchon. The little Algerian hasn't seen too much action with the Sailors so far, but he's expected to be in there plenty for the Spartan affair.

Aubuchon is remembered of the vast who came to State on one of the original Gary Jones staff, all American in his junior year and then was forced out of action for the 1940-41 season with a broken arm, which caused the loss of his career.

He will be at his best, and has a keen desire to meet his old friend Chet. Aubuchon.

Ford Donates Canning Plant to College

Michigan State college will have in operation within a few weeks a complete canning plant and fruit juice bottling works, but not for commercial purposes. The equipment, a gift by Henry Ford to the Michigan State board of agriculture, recently is to be set up in the old short-course barracks. Pres. John A. Hannah announced recently.

The plant was obtained through the efforts of President Hannah. Organization and operation of the newest MSC addition will be under the direction of Sec. Karl McDowell and Dean C. G. Wilke. It was obtained as a further step in the "self-sufficiency" policy of the college.

Ford presented the plant as an outright gift to the college. It formerly was located in Davenport and never was used for commercial production. Ford used it for experimental work until he became interested in soy beans, Hannah said. When the equipment is installed and the plant under operation, it will be entirely of Michigan and the Union with canned goods. Canned products will be those grown on Michigan State college farms. Ford also gave the college a large number of tin cans, thus eliminating for the present a "bottleneck" that undoubtedly will arise in the future.

"Adventure Series" Lists Action Films for Winter Term

By AL BERGLUND

The Michigan State college drama and entertainment series begins its winter term program today with Eugene Franklin's "The Quiet Man." UA will screen the film at 7:45 P.M. Thursday. The rest of the term program is equally interesting and offers variety in appeal.

Remaining on the program in the original Don Corrall setting, directed by Severn Joffe, which will appear Wednesday, Jan. 30, "The Man Without a Country," is scheduled for a "talk on "Romance Now and After the War.""

Margaret Webster will speak about the "Adventure of Actors" Thursday, Feb. 25. Final event of the term will be a war commentary Tuesday, Feb. 16. Persons who haven't heard of Calvert will have heard about his play "To Be or Not to Be.""
