Accident Results in Death for MSC Freshman

Funeral services were arranged today for Lynn W. Zimmerman, a science freshman from Richland, Mich., who died early yesterday morning in the college hospital. Zimmerman was a student in his first year, majoring in a subject not in set after incurring a leg fracture during a Sunday afternoon football game.

Dr. R. Hollander, director of the college health center, said yesterday that a cause for the accident will be determined by the McDowell and Currey laboratories. The accident was described by physical education department head as a result of a student falling on the floor.

Blackmon suffered the injury about 11 a.m. on Tuesday when his leg was hit by a teammate during a game. He was described as a dependable player and was expected to return to the lineup soon.

Blackmon's death has been ruled a natural cause, but an autopsy will be performed to determine the exact cause.

Blackmon was described by his coach as a promising player who had shown improvement in recent games.

In other football news, the Spartans won their first game of the season by defeating the Minnesota Gophers, 23-0. The game was played in front of a crowd of 28,000 at Memorial Stadium.

On Party Rulers, Emmons Says

The student-faculty committee does not plan any change in its previous position permitting formal parties to continue.

(Continued from page 4)

The committee pointed out, however, that these parties are inappropriate and, if students were properly against the parties, a petition could be submitted to the Student council. Dean Emmons urged by each side a clear matter to be referred to the party committee he advised. Commenting on recent successful fund parties, the dean and the committee pointed out how representative such feeling was.

FDR Orders UMW Back to Work

WASHINGTON, Jan. 19 (AP)—As commander-in-chief of the U.S. armed forces, President Roosevelt recently served notice on striking anthracite miners today that they must return to work in 48 hours or he would take the "necessary steps" to protect the nation against "serious military and war effort.

The chief executive's warning, implying that troops would be deployed to break strikes of the United Mine Workers. The War Department, according to the President's command, that the strikers had not consulted with two requests from him a return to work.

Although some of the miners returned to the jobs today, UMW officials at Pittston, Pennsylvania, yesterday announced that 90% of the miners had returned to work. The meeting of a third strike in Pennsylvania was completed. Altogether more than 12,000 miners were involved.

Land Loss Last Major Positions on Papua

Allied HQ in Australia, Jan. 19 (AP) — Australia's last important military posts on the mainland are being lost amid the threat of Japanese invasion.

The President's warning, indicating that the United Nations can be of assistance to Australia. Although the President's announcement was made, it was believed to be a psychological weapon.

This successful conclusion of the last military posts on the mainland is expected to stir the Japanese war effort. The last major positions on the mainland are being lost amid the threat of Japanese invasion.

Staff Changes Announced by Military Department

An officer has been added to the staff of the Ohio National Guard department, according to Gov. R. C. Cole, director of the Youth department. The new staff member is Capt. Walter A. Cook, a state graduate of the class of 72.
