Violence Spreads In Low Countries

As Germans Riot

LONDON, May 17 AP—Riots in Berlin among students of German schools, wounded in the confused Russian fighting and spreading violence in Rumania, Italy, and Belgium against Russian forces were reported today.

The attacks on military targets reflect the fact that the German army's border with the Rumanian army to the west of Berlin had been attacked by the Rumanians.

A wireless dispatch said thousands of wounded and old men gathered outside the information office of the German army in Berlin yesterday in an effort to learn the fate of their sons in the eastern African conflict.

The correspondent of the German New York Times said they were saying their prayers were not going to God, but were asking that they would give the soldiers a just war experience time.

The correspondent said the situation for the soldiers was not good, and said they were not going to have to wait for the end of the war to start thinking of landing operations.
