Military Head for Fall Term Visits School

A military head for the fall term visited the school today. The visit included a tour of the facilities and a meeting with faculty and administration.

1st Dance to End Social Activities of Summer Term

The first dance of the summer term was held last night. It was a great success and marked the end of the social activities of the summer term.

State Announces Total of 1,053 Degrees Awarded to Candidates by Michigan State During Current Year

Fifty-six students will be graduated when the summer session concludes next Friday, Enlow announced. This group, including 38 men and 56 women, brings the total number of degrees granted during this summer session to 1,053.

Parade to Honor Retirement of Commandant

A parade will be held to honor the retirement of the commandant. The parade will start at 2 p.m. and proceed through the town. The community is invited to attend.

Christmas Packages for Overseas Destinations Must Be Sent Soon

A recent announcement from the United States post office was presented in Washington. The announcement states that military personnel must begin the mailing of Christmas packages by November 15 and that any package sent after this date will not be delivered in time for Christmas.

GRAND THEATER
First Issue of New Paper Will Appear Next Sunday

The former of the still unnamed AST new paper will appear to all AST fraternity, housemen and residence halls in Friday.

The aim of the paper, under the pens of the public service department heads of the various student newspapers and correspondents, is to fill the need for a publication devoted to the interests of all AST on campus. The primary purpose is to furnish information concerning the activities of these men. We shall attempt to bring all AST men closer together and to develop within them a proper sense of their importance to the army and to the nation's welfare. Finally, this purpose can be served by giving the men a new paper in which they can take pride, and through which they can feel that they are being given the best possible expression.

Naturally the policy of the paper will be to hold good and loyal to My Home State, and to develop better understanding between student and student. We are not only students, we are soldiers who realize a responsibility upon them for student support. We believe in the-ultimate victory and we believe in the interdependence. This is primarily a government paper, but in a larger sense it is a student paper. It will be established to take interest in our work, and to our purpose in being at AST we will have done our part. If we can establish a better understanding and cooperation between My Home State and student, we will have done our share.

**Soldiers Threatened by Traffic**

According to the usual report of the Statistician during the past thirty days, the deaths of students and soldiers since the beginning of the fall semester at all AST have been eight. This is a record of unusual fire for a semester because of the great increase in the number of students and the great amount of traffic. But the increase of traffic has been accompanied by the increase of traffic regulations. The legs of the traffic regulations have been tightened so that the student traffic has increased as much as the traffic regulations have been tightened. The legs of the traffic have been tightened so that the student traffic has increased as much as the traffic regulations have been tightened. The legs of the traffic regulations have been tightened so that the student traffic has increased as much as the traffic regulations have been tightened.

Glen O. Stewart

Editor of "Herald"

Stewart, State Graduate, Directs Alumni Relations

Working with people has always played an important part in the life of Glen O. Stewart, director of alumni relations.

Understanding, activities, organization of T.I.U. units, and work as alumni secretary have given him the opportunity to express his ability in working with them.

Stewart developed a back ground for his present position while working in East Lambert's machinist shop before World War II. While there, he continued his studies and received his associate degree in mechanical engineering at Michigan State College.

While in college, he worked in the engineering department of the Michigan State Board of Agriculture, and was also employed by the International Shoe Co. and the Detroit Edison Co.

Now in his 10th year as Alumni Relations Secre-
