young and handsome American dental student
was carving out a reputation for himself in
the field of medicine.

Put yourself in his shoes tonight

He put in many hours in the classroom here each day. Millions of others like him spend long hours each day in the field.

Then comes evening, and he has a chance to telephone home. But his call might not get through if all the Long Distance circuits are busy.

So, if you want to give him a break, try not to use Long Distance during the evening, unless your call is extremely urgent. It's the kind of sportsmanship for which college men and women are known.
