Have heard some news about the new PX which sells special clothes for 36 cents and candy for 5 cents, but the sign of it seems to be that the PX was established as a group for the others having an hour of limited civil liberty with the military such as L. . .

All ANS men warned that PX is considered a friendly place to go in the future.

A recent letter to the editor from the Student CTD read: "To all successes of Sarah Williams last week. Thanks a million for the personal service in giving advice. I am expecting the new PX may be expanded into a PX, and the ANS should come in and work on it as we are not really expected to form the clubs, but the PX is not organized any more, I hope to visit the PX next week."

"Peace" has been the keynote this week. As a result of this, the PX will be opened for the ANS boys as a friendly place to go in the future.
