The dinner is served in a modern way, with the food being brought to the table and the guests served by waiters. The entertainment is provided by the guests themselves, and is designed to be a pleasant and enjoyable experience.

Theres a crowd on the lines
It's always a big crowd in these war drives. But the long distance operator keeps
the calls moving quickly unless there are just too many for the circuits. If she
says the circuits are busy, you can help by canceling your call if it isn't really
important. But if you can't cancel, the operator will request — "Please limit
your call to 5 minutes." It's the work of war they are trying to speed
