LETTERS
To the Editor

The Editor:

I want to ask the woman readers this: Why are we so lenient to the army and the women in the armed forces? A woman is just as good as a man in the navy or the army, and is often more so. Why are women not given equal rights with men in the armed forces? Why are army personnel not given equal pay with women personnel? Why are women not given equal rank with the men? Why are women not given equal training with the men? I believe that women should be given the same rights as men in the armed forces.

Sincerely,
