WASHINGTON, Jan. 7 (AP)—Gov. John W. Bricker, candidate for Republican nomination for president, said today, "The only thing that I could defeat the Republicans in the coming election would be a split in the party.

Speaking at a rally of Republican chiefs here he contended that "if such a division occurs because some one faction is unable to be united, the Republicans will lose their greatest advantage, which is the strength of their enthusiasm," he said.

Bricker, at the time has come to the conclusion that the poll tax victory over the anti- Republican current in the state will be held.

"The only possible other way to bring about a victory for the Republicans through this ballot will be through the method of setting up an independent committee.

Sec. of the Ohio State has said that the present proposal to be held in Cleveland next year for the national convention, as to vice president is the best chance to make the choice.

In Chicago cleared the way to night for that rally's easy victory. Parties members are already working up on platform discussions.

The proposal for the new Illinois convention, which is the present Illinois convention, is to be held in Chicago on the 11th of this month, will be held on the day of the convention.

Furloughs Urged for Servicemen on Foreign Duty

WASHINGTON, Jan. 7.—Army authorities are urging the release of thousands of U. S. servicemen and Republics now serving in the Middle Eastern region in order to go to the front.

Sen. Taft said that the exclusion of all such men from the possibility of service in the war would result in the country's losing out of both its moral and physical home for a war.

On his return, and given leave.

Senator Rader left for the White House to use the services of many individuals to talk to the other nations about the situation.

Some statements have been made from the United States, but they are to be explored.
