Senate Voices, Approval for Subsidy Ban
Bill Laid for President's Desk After Expected House Passage
WASHINGTON, Feb. 11—AP—

The Senate yesterday approved a $15 million subsidy for the Saturday evening radio program. The bill will be sent to the House today, where it is expected to pass without amendment.

The Senate bill is an outgrowth of a proposal made by Mr. Roosevelt during his campaign for the presidency. Mr. Roosevelt said that the measure will be included in the national budget for the fiscal year ending June 30.

The bill was sent to the Senate by Mr. Roosevelt on April 15, when he was still in office. The Senate approved the measure by a vote of 75 to 14.

The bill provides for a subsidy of $15 million to the Saturday evening radio program, which is broadcast from the White House. It is the most ambitious of a series of proposals made by Mr. Roosevelt during his campaign for the presidency.

The bill provides for the subsidy to be used in the promotion of American exports, and the measure is expected to be passed by the House without amendment.

Pacific Fleet Centers Attack on Wake Island Area Again

Japanese Plan Losses Mounting Rapidly

H. K. CHESLEY, FLEET HQ, Pearl Harbor, Feb. 11 (AP) -- Catalina bombers sank Wake island for the second time of the Pacific fleet and army planes continued their relentless pounding of Japanese-held islands. Adm. Chester W. Nimitz announced today.

It was the 15th time Wake had been attacked since the Japanese captured it from a heroic little band of Americans more than two years ago.

It was the 16th consecutive day in which the supreme commander in the central Pacific had announced that units of the Pacific fleet and army at the forward line had destroyed enemy positions. The announcement said the bombardment did not bring out any return fire from the defenders.

Heavy Liberators claimed 15 lives, 15 bombs falling in the target area, the Japanese planes dropped 152 tons of bombs on other targets in the Marshalls.

Japanese planes had dropped 1,237 bombs on the enemy's positions and 433 bombs on their territory.

According to official indications, Wake is safe today, but all the Allied forces in the islands are alerted. In other matters it was made clear that the Allied command seeks to force the enemy to keep his ships out of the area and ultimately to exploit it.
