Weekly Letter to Men in the Service

This week's letter to men in the service is a weekly feature of the Michigan State News, describing the outstanding events of the week and useful advice for the service.

DIARY

This week marks the beginning of the spring season in Michigan. The weather has been quite pleasant, with temperatures reaching the high 70s during the day. I hope to take advantage of the warm weather to explore some of the nature trails around East Lansing.

A letter to a friend in the service in Canada described the natural beauty of the area, with its rolling hills and abundant wildlife. I wonder if I will ever have the opportunity to visit such a place.

Japanese Thrust in India Threatens Burma Front Supply Line

WILM. March 31—Japanese forces blazed a front 100 miles wide and 70 miles deep into Burma, and were said by Allied war observers to have crossed the Irrawaddy River into the heart of the country.

The Japanese offensive, which began immediately after the Allied surrender at Shanghai on Wednesday night, was not confined to the Burma front, it was said.

The new thrust was aimed at the Allied line at Ledo, near the Chinese border at the foot of the Arakan Yoma mountains.

The Japanese also advanced westward into lower Burma, where they were said to have captured the city of Moulmein.

Russian Forces in India Invade Thailand

Russian forces have begun to attack Japanese positions in southern Thailand, according to reports received here today.

The Soviet forces, which have been operating in the area for several weeks, are believed to have encountered heavy resistance from Japanese troops.

These reports came as the Allied forces in the region continued their offensive against the Japanese.

Forced Evacuation

Evacuations of Allied troops and civilians from the area have begun, as the Japanese advance threatens to cut off the Allied supply lines.

The evacuation is expected to continue for several days, as the Japanese forces advance.
