LONDON, May 15 (AP)—Bombers dropped 4,500 tons of bombs on targets in Europe and the Middle East, the largest raid of the war by the RAF, according to official sources. The attack was part of a daylight raid on targets in France, Belgium, and the Netherlands.

The Hessians and Luftwaffe fighters engaged in a running battle over most of the raid's route, but the raiders were able to make their chosen routes with little opposition.

The attack was a severe blow to Germany's war effort and marked a shift in the balance of power in the war. The attack was led by Maj. Gen. Sir Robert Brooke-Popham, commanding the 2nd Tactical Air Force, and the raiders were supported by a large number of fighter and bomber aircraft.

The raid was the largest of the war, with more than 300 aircraft participating. The Hessians lost 24 aircraft in the attack, while the RAF lost only 19.

The attack was a significant victory for the RAF and marked the beginning of a new phase in the war. The Hessians had been on the defensive for most of the war, but the attack marked a turning point in the war and set the stage for a new phase of fighting.

LONDON, May 18 (AP)—The German people were warned today by the Berlin radio that not a single "Atlantic wall" would fall under Allied attack in the very first phase of invasion. This was the gloomy prediction.

When the battle starts, fighting will be limited to invasion on the Atlantic wall or to points under the main attack, but small waves will reach far behind.

The next German air will be called upon to stand her ground and most dangerous test.

Chief factor in the Spartan's feat was faulty base running and failure to make potential hits. The Spartans opened the game for the Spartans but they lost the final six runs in two games, not out.
