Weekly Letter to Men in the Service

To Men in the Service:

The recent victory in the battle of the Bulge is a weekly reminder to all of us of the continuing need on the part of the United States armed forces for volunteer recruits. It is a time of national crisis, and every man is needed to help ensure the success of our military efforts.

The problems of the war are serious and complex. It is necessary for all of us to be aware of the need for coordination and cooperation in order to achieve our objectives. Each of us must take an active role in the defense of our country.

The United States is fighting for the freedom of democracy, and every man must be prepared to contribute his share. The war is a test of our national character, and we must be ready to meet the challenge.

Sincerely,
