Breslau Outflanked in New Offensive Reds Shut Off Exit for Nazis In Pomerania

LONDON, Feb. 9 (AP)—Russian troops drove to within 29 miles of Berlin's Baltic port of Stettin today and surrounded the East Prussian city of Elbing, while the Germans announced a great new army southern offensive that outflanked Breslau by 100 miles west of that Silesian city on the upper Oder.

The Berlin front the Russians were disclosed by the Germans to have crossed the Oder and established a bridgehead at least 100 miles east of the Reich capital, cutting the direct north-south communications between Berlin, Frankfurt and Kues-trin, and the frontiers barring the way to Berlin.

German dispatches said Marshal G. Zhukov's first army was laying out the heaviest artillery concentration of the war on German frontiers between the Oder and Berlin.

The communiqué, however, did not mention this sector. The Germans say the Russians have multiple bridgeheads over 30 to 43 miles wide.

German dispatches said a tremendous battle was waged immediately west of Kues-trin, where the Germans were fighting desperately to keep the Russians from capturing that stronghold 16 miles south of Frankfurt. Communiqué has far have kept the corridor to Kues-trin, however.

Arrow indicates generally the path Russian are reported taking toward Berlin following German reports of the Oder river line having been pierced. Heavy lines the front according to the latest Moscow reports.

'Personal Appearance' Set for Mar. 2, 3

Dates for the winter term play, "Personal Appearance," have been set for Friday evening Mar. 2 and Saturday afternoon and evening Mar. 3 in Fairchild theater.

Marjorie Rice, Saginaw senior, is cast in the leading role as Elizabeth Arden, actress. The plot revolves around the Broadway actress whose car breaks down in the country, and she is befriended by kind country folks. This sets the scene for the hilarious comedy which ensues.

WASHINGTON, Feb. 9 (AP)—Capitol Republicans concluded today that Gov. Thomas E. Dewey is busting his suspenders to run for president again.

That was the consensus that grew out of Dewey's first post-Campaign speech in a last night and subsequent night room conferences, he held with party leaders.

Some of those who talked with the New York governor said they came away with the idea that Dewey is concentrating most of his efforts now on changing up the party machinery in New York state in preparation for a race for reelection as governor in 1948.

He lost New York in the November presidential contest partly because of objections in the ordinarily strong GOP upstate sector.

If he wins reelection as governor, said party politicians here, Dewey will be in the pitching for the 1948 presidential nomination. He will be backed up by experience gained in the last campaign.

Some of that experience already has cropped out in his dealings with members of congress.

In a pleasant, modernistic room on the second floor of the music building is the music library, ruled over by librarian Lucile Price, instructor of music and by six student librarians. Containing in June, 1944, about 1,000 titles, circulation among its many records, books and musical scores is great.

All books, scores, and records, except reference and reserve books, are available for circulation; books for two weeks and records for one.

Records May Be Circulated

Among the 579 albums and 346 single records are both classical and semi-classical works. The most popular records of the great composers such as Brahms, Beethoven, Mozart, and Jerome Kern are available for circulation outside the library, while the use of the others is restricted to the listening rooms.

Opera scores, hymn books, chamber music, orchestra scores, and collections of old music help to make up the 1,049 scores.

Complete Selection

The collection of 1,074 books offers a wide variety of information—Musical dictionaries, encyclopedias, and books on music appreciation, operas, and music education reveal only a few of the possibilities. Prominent among the books are those on the lives of famous composers—Mozart, Bach, Chopin, Tchaikovsky, and many others.

The library is open to all students and they are urged to take advantage of the opportunity. The hours are from 10 to 12 a.m. and 2 to 5 and 7 to 10 p.m. Monday through Friday. It is open Saturday from 10 to 12 a.m. and 2 to 5 p.m. Sunday hours are from 2 to 5 p.m. It is, however, closed during fall music concerts.

MANILA, Feb. 10 (AP)—Fierce fighting is in progress in south Manila, where the 37th and 11th airborne divisions are mopping up the remains of Manila's defending garrison, Gen. Douglas MacArthur reported today.

"The fighting is of the fiercest," MacArthur said in his Saturday communique.

To the south, two Japanese counterattacks near Tagaytay, where the 11th airborne paratroopers landed to begin their lightning drive into south Manila, were "bloodily repulsed," Moron Taken by Yanks.

In bitter fighting on Balara, 33rd division troops reached the town of Moron in a drive to advance from the captured Obispo naval base on Subic Bay.

Sixth division Yank moved on the upper Pampanga river at Rizal and Bonifacio in clearing the enemy from the upper section of the central Luzon plan.

An American airplane made two bread runs, dropping the China coast and landing in Formosa again. Many lives and explosions were set off at the 17th and one on Formosa.

MacArthur and his staff action was particularly heavy.

House Fights in Progress

The 37th and 11th divisions are engaged in house to house and street fighting, he reported.

The 11th airborne Yank were last reported in the vicinity of Nichols field on the south slope of the Philippine capital. Prime objective of the 37th division, which crossed the Pangasinan river triumphantly today, was the south Manila street area.

President Truman's declaration which still authorized the support of the city government, economic state, abolition of buildings, and the destruction of the city's persistence in destruction would be held out.

AAF Hits Jets

LONDON, Feb. 9 (AP)—A mighty force of 1,300 American heavy bombers—guided by almost 900 fighters—faced the greatest challenge of German jet planes today and engaged with a loss of 19 bombers and three fighters.

The Germans, using new tactics to forestall the American aerial blows, sent up jet-propelled Messerschmitt 262s which flashed in and out of the bomber formations, literally flying rings around the heavy craft.

Baffled gamblers aboard the Flying Fortresses and Liberators failed to shoot down any of the attackers, flying at a speed of 19 miles a minute, but escorting Mustang pilots knocked down five of the jets.

Eighteen ordinary-type Messerschmitt and Focke Wulf fighters also were blasted from the sky and 41 German planes were destroyed on the ground.

Mid-term examinations have strange things to students. The strangest to date is the case of Betty Marshall, good-looking Lansing junior, who, tricked before class to her nerves, astounded her around her by knitting with a pencil, while enviously on her knitting needles.

The Sigma Kappas for one, will be glad when the opening night for the La Cofradia play rolls around, for having four members in it is a little trying on the nerves of innocent bystanders. Doing their best to segregate the Spanish Sarah Bernhardt from the rest for a little peace and quiet, they thought that it would be a good idea to have a Spanish table at meal-time where the quartet would have a little of their heart's content. But that didn't seem to stem the onslaught much and now the rest have resigned themselves to Spanish, in Five Easy Lessons.

Weekly Letter to Men in the Service

Feb. 3, 1945

DEAREST JOHNNY,
We've had a musical week with instructor Julius Stalberg trying a violin recital Tuesday night and the famous Westminster choir appearing Thursday. I was in a choir once, but nothing we ever did could compare to the performance the Westminster group gave. I don't know though, maybe it's better since I left.

The biggest thrill of the week came when the basketball team won a surprise game over Kentucky, 66 to 50. The Spartans really turned on the steam for this one and were ahead all the way. Kentucky is rated as one of the country's best teams, but we had it all over them Monday night.

Midterms are over at last and I'm quite a relief. All I have to do now is write three or four term papers and study for finals. It is nice of you to offer to write that term paper for me last term but I just received it yesterday which might be a little late for me to get a mark. Correspondence courses are fine, but the mails are too dependable for me to count on you. I am counting on you though, to remember that Valentine's day is Wednesday. I expect you got that last I sent you of things which would be most gratefully received.

The social setup looks pretty good for tonight. Several sorority and fraternity parties will be held, and Student club has thought of a new idea in entertainment. Its members are planning a Valentine box social complete with auctioning of the bunches too. Proceeds from the auction will go to the World Student Service fund. The fund as you've probably heard, is sponsoring a drive to benefit war prisoners, refugees, and foreign students.

Sixty new students, high school graduates, enrolled in school this week for a short term. They're certainly not letting any grass grow under their feet about continuing their education and besides their brains don't get as rusty as mine did after a summer's laziness. Still, summer laziness is fun. I could use some right now.

With an enormous yawn,
PEG

LETTERS To The Editor

TO the Editor:
I am writing in regard to a letter to the editor which was printed in Tuesday's State News. I would like to know what has happened to the women at MSC. I'm not going to ask if they know that there is a war on, for I'm sure they do, but I would like to know whether they know that we can assist in the war effort.

Our main trouble is lack of coal. I wonder whether they understand that it is almost impossible to buy coal and that in some cities you have to prove that you have no coal at all to purchase some. The coal that we could formerly get is now used for defense. All of the light and heat in our dorm comes from coal.

Are we being fair in asking for more heat and light after the hours already designated by the college? We were given 11:30 lights out for several reasons, the first being the above mentioned.

If this is a low percentage, and I don't think it is, then we should be proud of it. The boys at school are training for a job, which will help protect us and our country. Are we doing enough, just to give them a bed in the hospital when they are ill?

I wonder how many of those six coeds have brothers and sweethearts overseas. Do we ever hear of the boys overseas complaining because they are asked to do something? They do not question what is laid out before them.

Are we big enough to give up having the coal being used up unnecessarily and keeping coeds with colds and nervous breakdowns out of the hospital, to help the war effort? What has happened to the patriotism of MSC women?

C. P.

TO the Editor:
Just a few lines to straighten out your facts about State's title team. It is composed of 10 men divided into two groups of five each. Only five names were mentioned in your recent article, and I think it's only fair to complete the list.

Champion, Hill, Moore, Young, and Medley are the "ignored" members of the squad. Also, the able coach of the team happens to be Sgt. R. M. Crutchfield who has spent much of his time wrapping the team into shape and certainly deserves a share of any credit given said team.

Next time, let's get the facts straight before trying to put them on paper. Doing so would prevent much unnecessary friction.

'Big Three' Prepare for Sudden Reich Collapse

LONDON, Feb. 9 (AP) — The Big Three, realizing the possibility of a sudden collapse of military and civilian resistance in huge areas of Germany under pressure of the joint Allied offensive, are believed whipping plans into shape for occupying the Reich at a moment's notice.

Well-organized quarters here suggested today that the "three" possibly are preparing two occupation plans, under the first of which specialized forces are being alerted now for emergency duty. The second plan would provide forces for long-term assignment.

Canadian Army Tanks Smash 14 Towns in Five-Mile Gain Toward Ruhr Valley Corner

Canadian, British Meet Light Resistance

PARIS, Feb. 9.—Troops and tanks of the Canadian first army, flattening 14 towns in a gain of nearly five miles in their big new offensive, drove today to within four miles of bomb-wrecked Klevy, a northern fortress of western Germany's defenses.

Twenty-seven miles ahead of Gen. H. D. G. Crerar's forces lay Wesel, at the north-west corner of the Ruhr industrial valley—last great source of the enemy's war potential.

Field Marshal Montgomery, throwing reinforcements into the mounting battle, broadened the front to almost ten miles in an elbow between the Rhine and the Maas against still relatively light resistance.

First Canadian Offensive

Canadian and British troops under Canadian command pressed on past flaming houses, trees and vehicles set afire by the tremendous barrage that Thursday mauled a veteran German division and announced to the enemy that the Canadians' first offensive against the Reich itself was on.

The power of Allied blows from the west was rising on a 200-mile front, where five armies are either inside Germany or close to its borders.

Eighty-five miles south of the Canadian first army, the U. S. first army closed to within less than a mile of Schwammenauel dam, controlling the flood waters of the Roer and balking a direct smash into the Ruhr from British and American forces east of Aachen.

Resistance Wiped Out in Alsace

Farther south, the U. S. third army drove to within three-fourths of a mile of the Eifel mountain stronghold of Pruem, and threatened to outflank it with a push across the Pruen river at two points farther north that carried the doughboys eight miles into Germany.

In southern Alsace, all enemy resistance was wiped out, an official announcement said. The U. S. seventh army was lashing out with local attacks in northern Alsace.

A front dispatch timed at 5 p.m., reporting the broadening of the assault lines, said the prisoner count had risen to 1,800.

RED CROSS

Plans were announced for resumption of the home nursing course, spring term. The class will be offered one night a week for two hours, and will be limited in membership to 10 students. The Lansing chapter will furnish equipment for the class.

Campus Librarian Buys Rare Books

Arriving on campus with six rare books as the result of his trip, Jackson Towne, college librarian, returned recently from New York City.

An autographed edition of Joseph Conrad served as a nucleus for the MSC Conrad group, a collection of some of the author's lesser works, to which Towne added a first edition of "Youth."

For the price of an ordinary book, Towne purchased a "forged" edition of Thomas Wise's earlier forgery of George Eliot's sonnets, secretly issued by Wise and then denounced as a forgery in the hope of bolstering the reputation for authenticity of the original forgery.
