## Today's Campus

### ... Try Coffee

Arlene Predmore, Rochester, N. Y. sophomore, is a dyed-in-the-wool apple polisher. When her social science professor asked her if she had been enjoying the classroom session, since she had been laughing heartily all through it, she replied very diplomatically, "I have to stay awake somehow."

### ... Big Jobs

Miss Esther Everett, manager at Richards home practice house, failed to give Lynn Roselle, Detroit senior, a job. When Lynn raised her hand for some-thing to do, Miss Everett High took her aside explaining in great detail that the biggest job she could do would be to kill a fly that had been in the house for hours.

## Harold Westlake To Give Speech At Convention

Michigan Speech Correction association members will hold a meeting Saturday in the Spartan room of the Union. Members from Michigan and Canada will be present.

Dr. Harold Westlake, who is associated with the speech and hearing clinic at Northwestern university, will address the group at 10:30 a.m. on the topic "Trends in Hearing Conservation Programs."

In the afternoon Dr. Westlake will lead a panel discussion on the subject "How the Speech Correctionist Can Serve in a Hearing Conservation Program."

### Cline to Talk to Speech Students at Meeting

Students interested in debate or round table discussion are invited to attend a meeting tonight in room 149 College auditorium at 7:30.

Prof. Denzel Cline of the economics department, will talk to the group on the debate and discussion topic: "Resolved that the foreign policy of the United States should be directed toward the establishment of free trade among the nations of the world."

## RADIO ROUNDUP

WKAR — 870 kc

### THIS MORNING —

- 7:30—Dawn Salute (memory morning)
- 8:00—Early Morning News
- 8:15—Strings in the Morning
- 9:00—The Bookman (B. J. Knittle)
- 9:00—Leaders of Tomorrow (stories of youth)
- 10:45—Strike Up the Band

### THIS AFTERNOON —

- 1:15—The Novelty Bazaar
- 2:15—Geography in the News (E. C. Prophet)
- 2:45—Back to Peace
- 3:15—Stars Around the World (Karl Hujer)

- 4:00—Campus Vignettes (true MSC stories)
- 4:15—Yesterday's Rhythms
- 5:00—Know Your County Government

# Administration OKs Car Ban Revision

## Upperclasses To Pick Slates For Officers

Designating the Spartan room of the Union building as the meeting place for seniors, and room 130 Morrill hall to hold juniors, Bud Smith, Dearborn senior, announced at Student council meeting last night that nominations for both class primaries will be held today at 5 p.m.

Smith will direct the actions for the seniors and Dale Brown, Sebawaing junior, will be in charge of the junior nominations.

Council members voted to have a representative of the ex-servicemen students on campus as a regular member of the council, and Pres. Helen Fisher, Grand Haven senior, asked that the Red Cedar post of the American Legion select the man to represent veteran interests.

### Social Plans Listed

Three dates on the campus social calendar have been reserved by the council. The first, Feb. 1, to be used for the junior class J-Hop, which has not been held for the past two years, while Mar. 8 will be the date of the senior ball.

The Feb. 22 date has been selected by the council for the annual Mardi Gras. The band com-

See UPPERCLASSES, Page 3

## Swimming Honorary To Present Carnival, Crown Water Queen

Men of Porpoise fraternity, national swimming honorary, will hold their first water show since 1942 on Nov. 30, John McGrath, Pontiac sophomore and president of Porpoise, announced recently.

Entitled "Aquatic Victory Parade of 1945," the show will honor the state and national AAU champions and the central collegiate conference champion swimmers on the campus.

The high point of the show will be the crowning of a Porpoise queen, who it was specified by McGrath and Porpoisemen, "must be able to swim but need not be an exceptional swimmer."

A splash party for the candidates will be sponsored by Porpoise and Green Splash, women's honorary. A tea on Sunday, Nov. 24, also in honor of the prospective queens, will precede the final election.

## Concert Group To Play New Arrangements

The Cleveland orchestra, under the baton of Erich Leinsdorf, will present a concert Tuesday night at 8:15 in College auditorium, S. E. Crowe, director of the lecture-concert series, has announced.

This orchestra has taken 28 years ago with Nikolai Sokoloff as conductor. Since then only two other permanent conductors have held the position.

### Famous Name

Cleveland orchestra has taken its place among the five or six great musical institutions in the country. In 1941 a series of world broadcasts which included listeners in Canada, Central and South America, Europe, Africa, and the Pacific war front was added to its program.

### Touring Season

The orchestra is entering its 28th touring season. Each season includes 28 weeks during which as many as 150 concerts are presented. An average of more than five concerts are given a week. A special program is arranged for each appearance which demands four or five weekly rehearsals.

This season's tour includes concerts from Michigan to New York and from Massachusetts to South Carolina.

## Blood Donor Drive Gets APO Backing

Alpha Phi Omega, national service fraternity, will hold a blood donor campaign today through Tuesday for all persons on campus, according to Jesse Woodring, Lansing junior and APO president.

APO members will be on duty in the Union lobby all day today, tomorrow, Saturday, Monday and Tuesday to make appointments for those desiring to give a pint of blood to a worthy cause.

Appointments will be for today, tomorrow, Monday, and Tuesday. Applicants must be between the ages of 18 and 50, and those under 21 must have written consent from their parents.

Students will be able to make appointments in the morning, afternoon, or evening so that classes will not have to be cut. Transportation to and from the blood donor center in Lansing will be provided.

## \*New Ruling Removes Age Limiting; Other Modifications Arranged

Results of the student-faculty committee on the recent car ban issue were made public at the Student council meeting last night, following acceptance of the special committee's motions by the administration.

## Veteran Roster Will Top 1,000 Winter Term

More than 1,000 returned veterans are expected on campus winter term. Tom King, counselor for men, has reported. Veterans on campus now number 660, and at least 400 are expected next term, he said.

Mrs. Osa N. Barton, housing director for men, reports that no returned veterans will be turned away because of lack of housing facilities.

Four hundred trailers to be located on Harrison road will accommodate married men and their families, while single men will be assigned to rooms in private homes or at Wells hall.

Wells hall is now housing ASTRs plus about 80 civilian men. The entire dormitory will be turned over to civilians and returned veterans by the middle of January, King said.

He stresses the fact that veterans do not want special consideration so far as housing accommodations are concerned. "All our returned veterans want is an even break with the rest of the students," King stated.

## News in Brief

CAIRO, Nov. 7 (AP)—Seventy-four Jews and one Arab were killed in bloody anti-Jewish rioting the past three days in Tripolitania, but a curfew and stern shoot-to-kill orders to troops tonight had suppressed disorders in most of the Mediterranean colony.

WASHINGTON, Nov. 7 (AP)—The War Department tonight announced that enlisted men who have 50 or more discharge points and are now on furlough in this country will be released as they report back to the army this month.

The new ruling also applies to enlisted men now on temporary duty in the United States. They will be classed as surplus and discharged upon their return to a reception center.

## Keepers of the Keys

# Five Men Hold Access to College Doors

Like Bluebeards of a fairy tale, five men of the MSC building and utilities department are entrusted with more than 155 keys that give them access to any locked place, door or compartment on the campus and the farms.

Virgil Lewis, of the heat and ventilation section, checks thermostats at all hours of the day. He claims "It's quite a problem to satisfy different people. Some like it too warm, others too cool, and there are a few that change their tastes from day to day. But I try to keep them all happy."

### Worker 22 Years

With 22 years of service behind him, Pat Gorman is on the job oiling and lubricating fans and other heating mechanisms on the campus.

He is well-known to many coeds in the dorms and sorority houses. Remarking that thus far the women and housemothers have treated him well, he smilingly reasons that "They'll be good to me as long as they want to stay warm and comfortable."

Others with complete sets of keys are Don Hewes and Bud Roberts of the electrical section, and Albert Osborne of the carpenter shop. The campus police, of course, have a set, and one or two others are kept for emergencies.

### Locksmith

These five men, as well as everyone else on campus with a key depend upon H. E. "Robbie" Robinson, the college locksmith. In his office and workshop in the stores building he has dupli-

cates of all keys used on the campus, including a file of 8,000 keys compiled through the years.

"Carelessness of the faculty in letting out keys to students accounts in large measure for the thefts of examination papers, microscopes and other high value equipment," Robinson declared. "Keys are a responsibility as well as a convenience," he said.

### Regulations

College regulations prohibit the making of duplicates of campus keys other than through the locksmith's office. To replace a lost key or have a duplicate made, a service slip authorization must be had from one's dean or department head. Keys for just anyone cannot be made, Robinson asserted.

## TIME TABLE

TODAY —

## Former State Man Writes About Studies at Biarritz

Another letter has been received from an ex-student of Michigan State college, concerning the Biarritz American university. This letter comes from Cpl. Bill Adams, '43, former reporter on the State News.

"We have just arrived at Biarritz American university after an 850 mile trip by rail which began at the Hauptbahnhof in Munich. This institution is one of the army's two 'study while you wait' for the boat' centers over here.

"While being overjoyed at being selected to attend the school, we still can't believe it's true and are expecting to wake from this wonderful dream at any moment.

### Famous Resort

"Biarritz overlooks the azure Bay of Biscay and is 16 miles north of the Spanish border. In years past, as the famed winter resort of Europe's royalty, Biarritz played host to Queen Victoria and Edward VII of England, King Alfonso XIII of Spain and Leopold of Belgium. It was here that Napoleon III met Eugenie of Spain.

"As cosmopolitan of Paris, this picturesque town of 20,000 is a delightful blend of the old and

the new. The business section with its smart modern shops and cafes, might have been taken directly from the Place Vendome or Rue de la Paix, elsewhere.

School Divisions  
"The school is divided into eight sections which are: agriculture, commerce, education, engineering, journalism, liberal arts, fine arts, and science.

"The 'student body' of over 4,000 enlisted men, officers, WACs and nurses, is housed in the luxurious hotels and villas which line the shore. The classrooms are in many of these same buildings.

### Former Spartan

"I met Lt. Alex Dillingham of Grand Rapids, also MSC '44, yesterday afternoon down by the beach. So far he is the only ex-Spartan I have encountered. We strolled over to the colorful El Paton Cafe and there I overheard two ex-combat infantrymen talking. One said, 'Gee, this can't be the army!'

"Nope, it just couldn't happen to us" concurred the other retired doughboy — That conversation might well be said to be the 'general consensus' here. — That, and 'Boy, I hope that boat is ready for me at LeHarve after Dec. 22 (commencement)."

# State to Face Powerful Team On Saturday

Preparing for one of their toughest games of the year, the Spartans went through their paces yesterday in an effort to strengthen their defense against the powerful Bluejackets from Great Lakes.

Coach Charlie Bachman voiced the opinion that "We are up against our toughest team since we played Michigan, and we've got to set up a defense that will stop any kind of play."

**Slow Start**  
Starting out slowly in the season, the Great Lakes team has shown that extra spark in their past few games, and has given several teams a stiff fight. As this is the last season of football for the training station team, they are out to make it the best and run up a good record.

All of the men on the team have played college football before joining the navy, and are experienced. They will be led by Marion Motley, hard working back who has been the main post in the team so far this year.

**State Practices**  
Kicking practice was held yesterday in an effort to get more distance per punt from the boots. Although State has not suffered so far this year from blocked punts, tentative plans have been made to shift heavy tackle, Walt Vezmar, to the backfield on punts and put Contos in the line. This would give the punter a longer time to get his kick away, and make for better yardage.

This plan will not weaken the line on the kick as it is the job of the left tackle to speed down the field to cover the ball.

**Running Plays**  
From the punting practice, the Spartans moved to the defense work with the second team running Great Lakes' plays against them. State plays featuring Breslin, Reader, and Contos were given a going over, and the reverse with Contos carrying the ball was given special attention.

As yet there are no changes in the line-up, which has been the same starting eleven for the past three games. Bob Ludwig, returned back, was given an extra heavy workout, in case he is needed to replace Reader in Saturday's game.

**MSC Cross Countrymen To Meet Wayne Runners**  
Track Coach Karl Schlademan announced yesterday that all candidates for the indoor track team should meet with him tomorrow in room 226, Jenison Gymnasium immediately following the Wayne-State cross country meet. The meet starts tomorrow at 3:30 p.m.

Schlademan stated that a

## SPARTAN PLAYERS

By ART ROSS

### Ludwig, Contos Star in Backfield Offense, Defense Play Tactics

Since early in July, when summer football practice was in session, it has been apparent that there would be at least a few 17-year-old freshmen who would be capable of breaking into the line-up during the course of the regular season.

The two halfback spots present two of the most promising members of the yearling crop in Bob Ludwig and Steve Contos.

Ludwig is a husky 180-pounder, who stands 5' 11" tall and played football for Muskegon high school under Coach Leo Redmond. He was on the squad three years and last fall led his team to one of the top positions in high school circles.

#### Promising Passer

Despite his age, Bob is considered one of the most promising passers ever to play at MSC. In addition, he is a very good runner, mixing speed with deception to make him an ideal open field sprinter. On defense, Bob plays a nice brand of ball in the safety position.

Bob started the Michigan game and his accurate tosses were one of the few bright spots as far as Spartan performances were concerned that afternoon. However, he fractured his right thumb in this opening encounter and was forced to the sidelines until the Wayne game.

In this game he only came in to convert the extra point after one of State's touchdowns. However, last week he made his return appearance in the Missouri game, and evidently is once again ready for action.

#### In All Athletics

Bob is an all-around athlete and will doubtless play baseball and possibly basketball. To completely round out his athletic interests, he is taking a physical education course at Michigan State.

Little Steve Contos, from Toledo Waite high school, has definitely established himself as the regular right halfback in his first season of college football.

The play of this 5' 8", 180-pound grinder has been one of the highlights of this season's football activities at MSC. He has played practically every minute of every game and certainly has been one of the most prominent factors in the success of the Spartans to date.

Contos plays hard at all times, and more than once has been handicapped by injuries, but he always manages to give a good account of himself every Saturday.

#### Specialty

His specialty is deep reverses around end or off tackle, and he has been a consistent ground gainer on such plays all season. Steve is also used as the receiver on a good many pass plays.

These particular passes have clicked time and time again in very critical spots in the ball game.

He scored touchdowns in the Pittsburgh and Wayne games so far this year. Contos leaves nothing to be desired on defense either, and it is here that much of his value to the squad is overlooked.

At present Steve's draft status is somewhat uncertain, but he intends to study journalism when he gets the opportunity.

## UPPERCLASSES

(Continued from Page 1)

mittie with Bud Cline, Owosso junior, as chairman, is the only sub-committee to be announced for the ball. Seniors Marcy Gast, St. Joseph; Bob Butler, Trenton, and Marion Clarke, Birmingham, and junior Jayne Allmayer, Detroit, will work with him.

#### Further Activities Discussed

Council members discussed the questions of permitting fraternities and sororities to hold formal dinners and dances off campus at their discretion, and decided to hold the vote until their next regular meeting Wednesday while further information is collected.

Smith, chairman of the voting activities of the council, reminded men students on campus that ballots will be cast at the class primary elections to decide whether formal parties will be reinstated at Michigan State. The vote will be by men only, since the council held that the availability of male formal attire was the only problem.

College, Purdue, and the Universities of Illinois and Wisconsin have arrived to attend the Dairy Manufacturers' conference.

#### Dairy Manufacturers Hold Meeting at MSC

Beginning yesterday, the sessions will also be held today in the Music auditorium.

Postwar butter problems, quality buttermilk, improvement in ice cream, and sanitation are being discussed by prominent speakers.

Chairmanship of this sixth annual meeting rotates among six authorities, who assume their positions for one-half day.

# WOMEN'S SPORTS

By TONI HENNER

BEFORE the snow covers up the trails that wind around the campus, WAA has planned a cross country hike Sunday to foster coeds' outdoor interests. Participants will meet in front of the Women's gym at 2:30 p.m. and 25 WAA points will be awarded toward membership in the organization. Anyone interested must sign up in the gym by 5 p.m. tomorrow.

The main stem of activity seems to be centered around the volley ball courts as teams rally between triumphs and bitter defeats. Kappa Alpha Theta kept the crown of victory after last night's struggle with North hall by a score of 40 to 19, and in the same block South Campbell waved over Precinct 10, 41 to 21.

Mason Precinct 6 are winners after the contest with Concord by a 51 to 15 margin. Other scores are: Mason Precinct 16, 31, and Catherine Black house, 12; Sigma Kappa, 42, and East Mayo, 22; Lansing Zone 1, 24, and Precinct 8, 23; Alpha Gamma Delta, 37, and Ewing Benson house, 23; Alpha Phi, 36, and Alpha Xi Delta, 14; and North Campbell, 2, and Alice Cowles, 0.

Many more results have been posted from this week's series of matches, including: Robinson

house, 47, and Mason Nine, 45; Kappa Kappa Gamma, 43, and Taft house, 13; Pi Beta Phi, 41, and Precinct 14, 21; South Williams, 34, and Alpha Omicron Pi, 32; Chi Omega, 35, and Shaw house, 9; Precinct 7, 2, and Shaw house, 0.

Unable to determine a winner, Alpha Chi Omega and Precinct 13 ended in a tie with 28 points for each squad. In the game with Sanford house, Precinct 17 and 18 carried off the honors by 39 to 22 final tally. Precinct 13 defeated Precinct 4, 31 to 27, and the Gamma Phi Betas trampled on their Alpha Chi opponents, 37 to 26.

## CAR BAN

(Continued from Page 1)

mobile restriction need discussing. Announcement of the modifications was withheld until administrative acceptance was final, Breslin said.

Chief Rogers, former head of East Lansing and MSC campus police, commented that the special permits could be discussed with the department and would be considered at any time. The clause referred to such occasions as funerals or weddings or the need of transportation to Ann Arbor for athletic events.
