We know it's a tough time of year. The symptoms include:

1. The year's end seems to be too many events to fit in the last months, and they blend together.
2. The year seems to have been too much to think about. Life would be simple if we could just turn the pages of the calendar.
3. The year seems to have been too much, too. We must be careful not to overstep our bounds.
