Britain Asks Slow Use Of Sanctions

LAKE SUCCESS — (AP) — The United Nations general assembly yesterday found Communist China guilty of aggression in Korea by a one-to-one vote of 45 to 44. Britain warned the U.N. to take united action against the aggression. The resolution, passed by a voice vote, was made at a peaceful settlement. The assembly was adjourned until the U.N. will take the immediate action. India opposed the resolution. Pakistan, China's support, voted for the resolution. It is predicted the U.S. will take the immediate action to stop the aggression. China's support, voted for the resolution. Mobilization Hits Hard At Nation's College Youth

(This appeal for rational thought on the part of the average college students appeared in the Iowa State Daily recently.)

The News is here. We hear it on the sidewalks, over coffee and in our rooms. It's the talk of the day because most students' lives are directly affected. Mobilization means frights, and frights mean disillusionment.

It's human nature to want to plan ahead. This is what makes it difficult. It's a matter of determining for ourselves whether our course of action is right or wrong, whether or not our move is justified. And what about the future? Where will we be in one year, in three years, in ten years? Who could possibly know? All we can do is plow our furrow as best we can.

For the world is very much changed, and it is usually changing at this rate....

Stokes United States Assumes Strange Role

President Harry S. Truman, Washington, D.C.: In this time of world crisis, the United States has been called upon to play a strange role. The President and his advisers are forced to consider not only the immediate needs of the nation, but also the long-range implications of our actions.

Western Europe Needs Reassurance From U.S.

By William Morris

LONDON: Western Europe is experiencing a feeling of uncertainty and insecurity in the wake of recent events. The United States has been called upon to provide reassurance to its allies in the region. The President's speech in Washington last week was seen as an attempt to calm fears and reassure Europe of America's commitment.

The "We" Feeling

By Tom Nicholson

There has been some discussion recently on adding the "We" feeling to the mobilization practices of college and extracurricular activities. The feeling is aimed at engaging students in activities and creating a sense of community. The "We" feeling is often conveyed through group projects, team sports, and extracurricular activities. These activities help students feel more connected to each other and the university, which can enhance their overall college experience.

As West Shaw
Men Shiver

There was a small cash flow among West Shaw dormitory residents. Ed Keating, forehead-wet director of the dorm and a part of overwork, said that students did not spend as much as they did last year. For this reason, the dorm is heavily populated, and a great amount of time is spent in the hallways.

Discussions Aired
By Student-Faculty

Discussions with teachers were frequent. Sally Brown, a junior, stated that she was interested in discussion with her teacher. She was also interested in discussing her own ideas with others in the class.
