Letter to Students

To the students of MSC:

The difference between a smile and a frown is very little;却可能是一座大山。The smile doesn’t cost anything, but it’s worth every cent. The frown doesn’t cost anything, but it’s worth every cent.

The ethics that we are taught each year to participate in the culture of MSC have a strong foundation with our student body. They may be the ethical cornerstones that our community is built on, and a small frown here and there can change the view of the world they have in front of them.

The enthusiasm and spirit of the attending crowd is the only thing that can change the view of the world these students have in front of them. They may not be able to change the world, but they can make a difference in someone else’s.

Even though our school has recently changed to the name of the university, we must not lose that sense of community and pride in being a part of it. We must not lose that sense of community and pride in being a part of it.

Dear students of MSC, welcome to our community.

Stalin

Many of the people of Moscow gathered to the churches before Easter Sunday to cast their votes and pray for the recovery.

The people stood, too, in small groups by the latest news of the country's condition. Otherwise life in the capital went on normally.

Joseph V. Stein

The people had been relieved, the Council of Ministers and the Central Committee of the Communist Party had taken a decision. These were the close associates of Stalin and known as such, and comparatively few was being given a call in Paris to the Communist Party newspaper, for 'party of people' at this time.
