Student Hurt In Scuffle At Serenade
Delta Chi Member Tackled at Ohio

William Frank, 22-year-old Grand Haven junior, was taken by ambulance to Ohio State Hospital at 11 p.m. last night after he was clubbed in the face in front of the Delta Chi house at 102 E. Broad St. by one of several men who were reported to have been thrown off the roof of the fraternity house.
Approval at Last

To the Editor:

Just who paid for the new church, the building and all the equipment, the piano, the organ, all the expenses? And what about the maintenance of the building and its equipment.

Is there a church building in the state today that has not been paid for by someone, and is there any church that is surviving today without the aid of someone who is giving something of himself.

Is there anything left that is for the benefit of all, and where can they be found today, and where can they be found where they are not on the payroll of a church.

A few of the attitudes of New Englanders stated below:

'The people here can't understand how a man can be so mean and so selfish without the benefit of life insurance.'

We've been made to believe that the man from the East, with his pronunciation, his mannerisms, and his accent, is not a cultured person. But such is not the case. In most instances, when you meet a person from the East, you will find him to be a cultured person, a person with a good education, and one who knows how to conduct himself in society.

The church has left a few who are not as much an advantage to future generations as the church has been to society. But the church has left a few who are not as much an advantage to society as the church has been to society.

The church has left a few who are not as much an advantage to society as the church has been to society.

The church has left a few who are not as much an advantage to society as the church has been to society.
