Waning Respect
State Students
Out of Step
With Parades

Breathes there a man with soul so dead who never to himself hath aid, this in my own, my native flag?

The flag of our country is displayed with Michigan State's marching cadets at Tuesday parades, but from the comments and courtesy of bystanders, the flag is being treated with wanting respect.

Undoubtedly if "flag, boy, three, four," by bystanders is only part of the disrespect for the cadet parade. When the American flag is being displayed, it is the patriotic duty of students and other onlookers to treat the marchers and the entire parade with the same respect they would pay the tomb of the Unknown Soldier.

This country's military and air forces are, like the Presidency, human institutions. Individuals in them are frequently subject to criticism in which no punches are pulled.

But comments at Tuesday parades have not been directed to individuals. It has been deriding the military training program in general.

The training programs and large armed forces do not always fit easily into the life of a nation which has traditionally maintained small military forces. And the programs should be frequently appraised and examined.

But showing public disrespect for the training program in front of the symbol of national independence is not the way to show criticism for a more effective program.

Students and others who watch the parades from the curb should re-evaluate their respect for the nation's banner.

They should remember that the flag which is passing before them is the same flag that has draped over the coffins of the multitude, the Colin Keilys, the Roger Youngs who would like to be saluting the flag from the curb but can not.
Tigers Drop Doubleheader

By THE ASSOCIATED PRESS

The Detroit windshield wipers had a trick of their own Friday afternoon as they ran at full speed once the game was over. The wipers moved up and down in unison, symbolizing the end of a long, hot, and humid day.

The Michigan State baseball team was defeated by Hofstra University, 11-3, in the first game of a doubleheader at Case Western Reserve University. The second game was postponed due to rain until Saturday.

In the first game, Michigan State scored two runs in the top of the first inning, but Hofstra answered with two runs in the bottom of the inning. The game was evenly matched until Hofstra scored six runs in the fourth inning, followed by three more runs in the fifth inning.

The Michigan State team was led by shortstop John Smith, who had three hits and scored two runs. Although the team played well, they were unable to mount a comeback and lost the game.

In the second game, the weather conditions were unsuitable for play, leading to the postponement of the game. The team hopes to reschedule the game for a later date.

The Michigan State team will next play against Ohio State on Sunday, with the winner gaining a significant advantage in the conference standings. The team is currently in second place, behind Ohio State, and is looking to make a strong push for the championship.
Recount of Votes
A recount 4 votes out of 336 for senior class vice-presidential candidates in Thursday's primaries was ordered Sunday by elections commissioner Bill Dewitt.

Winners Bill Mercer and Bob Kuhl polled 336 and 327 votes respectively, while defeated candidate Tamara Von Buskirk drew 321 votes.

"Flappers" Welcome Parents

Dr. Hannah Outlines Basic Ideals of State

The basic philosophy of Michigan State was presented by President John A. Hannah for parents and students in Kellogg Auditorium Saturday afternoon as part of the annual Parents Day weekend.

In reviewing the founding and development of the university, President Hannah said that Michigan State was the first college to be based on the ideal that education should be put to use in serving those people.

"The common objective of all education is to give students a liberal education, in the broadest sense of the term, and to prepare them for useful careers in life. This is the ideal that Michigan State was built on."

Summer Courses Set for Gall Lake

Summer courses in science, art, recreation and agriculture will be offered this summer at Gall Lake, eighteen miles north of Gaylord, 191.

Members of the Parents' Weekend Committee greeted guests in keeping with the theme of "College Comeback" Saturday night at the Union and "Flappers" were out in force.

"The most important of all the activities was the "Flappers" party held at the Union Saturday night. A dance was held in the Union and "Flappers" were out in force."
