They are expected to attend the meeting, which is sponsored by the Progressive Democratic Party and the American Party.

The Fliers were black, their arms outstretched, and they were singing "The Star-Spangled Banner." The people, who had been singing the British hymn just a hour before, changed from singing to shouting and singing again. The crowd then sang "The Star-Spangled Banner" over again for the American Party.

Twice the number of black people sang "The Star-Spangled Banner." They sang it twice.

Red S. Dunlap, president of the Office of Safety and Health, commented on the high accident total.

"These people died from an accident that wasn't their fault," he said. "We might call it the "368 Man Fund" for the people who lost their lives in car accidents.

Toy Convo to Aid Santa's Work

Although many people are still waiting for snow to come, news agencies are already reporting the Christmas season.

"We're already planning for the Christmas season," an official of the Toy Convoy told the Lansing State Journal. "We've already scheduled the Toy Convoy for early December, and we're very interested in the Toy Convoy.

Deadline Extended

The deadline for submitting the Toy Convoy list is extended to Dec. 10.
The fact that nearly 20,000 Spartans have to live with the already messy should be enough to spur the AUSG and most especially the president to action.

Unless immediate action is taken to get rid of the postcard campaign, it may be too late.

It would be conceivable that a group of irate Spartans may take action without consulting congress. Already the air is filled with mutterings that "these damn things should be burned."

Another aspect of the present election attraction that needs attention is the matter of the disqualification issue.

The easiest way to fix up an election if the candidates have no real issues is to get your opponent disqualified.

It doesn't stick very often since the Judiciary, when the case gets far, generally sees what is going on and tries to clean things up, but the wasted time and effort is detrimental.

There are a number of clauses in the present set of rules that contribute to this type of action, but the most gross is improper or illegal campaigning. This is a pretty minor charge and the idea of it is very undesirable.

If the candidates can't find any issues to talk about, it would seem that they are rather bland, and such people have no business trying to represent a club.

If they have issues they should be allowed to present them, but their failure to do so may allow the entire club to evaluate them and vote accordingly.

There are a number of the weak points in the present election code. There are many more.

Campaign finances, voting practices and other phases deserve close consideration.

Usage in elections just might result from apathy among campus leaders. "Clean up these election laws, Mr. President."

The court also ruled that the city of Memphis had no authority to prevent the

state from providing educational services to the city's black children.

The Supreme Court unanimously upheld the city's decision to maintain its own school system.

The decision of the Supreme Court is expected to have far-reaching implications throughout the country, as it marks a significant victory for the civil rights movement.

The Supreme Court's decision was based on the 14th Amendment to the Constitution, which prohibits states from denying any person the equal protection of the laws.

The court's ruling was welcomed by civil rights leaders, who called it a major step forward in the struggle for racial equality.

The decision also sparked widespread reactions from other groups, with some praising it as a victory for justice, and others expressing concerns about its potential impact on local autonomy.

The Supreme Court's decision in the case of Brown v. Board of Education has been hailed as a landmark ruling in the fight against racial segregation and discrimination.

In a unanimous decision, the court ruled that the segregation of public schools was unconstitutional, effectively striking down the "separate but equal" doctrine that had been used to justify segregation.

The decision was a major victory for the civil rights movement and a turning point in American history.
