New Cheerleaders Ready For Fall X-Rays

Six comics and six men will lead Spartans fans next year during football and basketball games. The secretaries, who control the popular "Sparta" murals, are Charles Welles, East Lansing freshman; Richard Culver, Canton High junior; Charles Stevens, East Lansing junior; John Adams, East Lansing junior; Charles Brown, East Lansing senior; and Pat Kelly, Fraser freshman.

More than a century will pass before our leafy suburbs will be bedecked with the bright uniforms of the Michigan State Coyote Women. In 1925, the university's first women's team, the Coyotes, will play their first football game. The Coyotes will play in a new stadium, built specifically for women's sports. The stadium will seat 5,000 spectators and will have a press box and dressing rooms.

Food Equipment Studied by Sales Personnel

Thousands of dollars are spent each year on food equipment, mostly by salesmen. A new study by the University of Michigan shows that some of these purchases are unnecessary. The study found that many salesmen have little knowledge of the equipment they are selling and that they often make recommendations based on their own preferences rather than the needs of the customer. The study also found that some manufacturers provide misleading information about their products.

Speech Council Elects President

The University Speech Council has elected John J. G. Smith, associate professor of literature, as its new president. Smith, who has been a member of the council for three years, succeeds William H. Johnson, who died last week. Smith is the first student to serve as president of the council, which was founded in 1920.

Letters to the Editor

Augustine Defends Traffic Appeal Court

To the Editor:
May I take this opportunity to reply to the Letter to the Editor by Norman K. Harris appearing in the State News on Wednesday. I hope it will clarify some of the motor vehicle regulations on the part of all students.

First of all, there is no provision in the regulations allowing 24-hour period within which to register your car. Since these regulations are passed by the State Board of Agriculture, it is outside the authority of the Traffic Court to make any changes in them.

It is the Court's responsibility only to administer tickets given under the regulations rather than legislating new rules through the Judicial process. After consulting your written appeal to the Court, I find that the case of "I have not registered the new car and affirm the appeal to the new car." The court felt that as the appeal of this case was handled in the normal time for the dispensation of appeals.

You stated that the Court has "the definite power to cancel." On the contrary, the Court has a standardized rule of procedure which has been misinterpreted and is available to any interested party, in addition to being in the hands of the police department and the Dean of Students' Office.

May I conclude by merely commenting on a number of criticisms of the Court.

Although you stated that it took two months to receive your decision, it must be said that one of those two months the Court was in operation because of final exams, spring vacation and registration. The four weeks in which your case was handled is the normal time for the dispensation of appeals.

You stated that the Court has "the definite power to cancel." On the contrary, the Court has a standardized rule of procedure which has been misinterpreted and is available to any interested party, in addition to being in the hands of the police department and the Dean of Students' Office.
