First Policy Meeting Since Illness
Ike Dulles to Confer Today

DENVER. (AP) - Secretary of State stalling charges against Secretary of Defense John M. Foster were leveled Saturday in the Capitol, where Dulles took over the duties of the late Robert S. McNamara, who resigned last week to become a private citizen.

President Eisenhower today said that Dulles would attend the opening of the new Senate session this week.

A group of 3,000 persons gathered in Stettin's Waterland and was later admitted all at a table at a Press dinner in the city as persons of war. Refugees were first arrivals of 4,000 German war refugees whose forced deportations from Germany were ordered by the Nazi government under Hitler.

Elding the crest of an impressive 24-1 win over Stani-

Ming, Michigan State's football
team vaulted into front rank of the national spotlight today in the Associated Press poll.

The victory over the University of Michigan, the nation's college football, thrust the U of M in the third place among polls of the Associated Press.

bers of the college football press, and the results were
announced in town by U of M President Gordon Vanderbeck.

That drop marked the first time the U of M has been
among the top eight teams since 1952.

The town was hopeful that the U of M could be
ranked among the top eight teams in the national
polls.

Block Looks Good

'S' Equals Success

Good attendance plus good direction added up to a fine Block 8 performance at Saturday's football game.

Making their first appearance of the year, the members of Block 8 twirled their flagpoles with speed and precision. Spectry color effects and embarassing time changes during the formation of the designs were kept to a minimum.

Credit for the performance must be shared between the arrangers, who worked hard to develop and perfect the stunt, and the members, whose local appearance in the show was a success.

Book 8 will have a chance to show the rest of the nation what it can do at next Saturday's game, which will be televised on a coast-to-coast network.
