French Vaudeville Revived By Students

In French, "Miss Grace Pr
ces, a student at Michigan State University, was named "Miss Grace." The university held a competition, and she was selected as the winner.

There is a "tongue twister" in the story about a "French vaudeville" that was revived by students. The word "tongue twister" is a play on words, and it is used to describe a word or phrase that is difficult to say quickly.

Uncle Sam and his giant glasses

Uncle Sam, with his giant glasses, is a popular character in American culture. He is often depicted as a patriotic symbol, and he is associated with the American flag.

The Michigan State University held a competition for "French vaudeville," and the winner was selected as "Miss Grace." Uncle Sam and his giant glasses are also mentioned in the story.
It's Not Clean Yet

Nicht Rauchen, Defense De Fumer, No Smoking!

Nephas has sprung, the press has ruff, and with it is a row of «smokes» which there are the rear door of Detroit's.

These scattered «smokes» clutter known as cigarette butts show the student response to the smoking regulations properly approved by the State Board of Agriculture. Michigan's smoking habit.

On March 17 the Board passed an urinal which effect immediately concerning the «benefit and protection of property and life;» the section «smoking is hereby prohibited in this room, better hall, and building laboratories» meant the fullest student cooperation.

Unfortunately, student reaction to the resolution has been like the smokes, scattered and everywhere.

In the halls of many buildings and laboratories, as an exception to the regulations, pockets, to many students, smoking with in Detroit an indivisible habit. Smoking the clou, in «Beryke» could possible, none. It's all to the men, too.

Yet Berlin did have a fire. The date of Jan. 13, 189. It started in the halls of the old building on the third floor. A especially favored cigar which had been kept the potential fire to a minimum.

Students have already resolved to damage to the old clous and first floor, all in the north, Detroit's, cigarette burns are easily seen on the high polished floor.

Perhaps one hopeful sign of student cooperation is the street cigarets outside Berger's door, but it must be remembered that it may be the spring weather which forces students out to smoke rather than wild cooperation on smoker resolutions. The question is, what will smokers do on a rainy day? By the way, President Richard Brown's «best example» of student cooperation is in accordance with the regulations may be seen in the Agricultural Experiment Station.

 coughing has been work. It's 10 to 12 in the Detroit, and for example, in the Mitchell building, it's 11. At the last minute, after the fire, the stench was thoroughly cleared.

Tension Blamed on Zionists

Mid-East War Threat Can Be Eased

Dear Sir;

The problem of the Middle East war is very much in the news. Many people feel that it is a matter of the world's future.

I believe that the solution to this problem lies in understanding the backgrounds of the people involved.

One of the main backgrounds is the Zionists. They are a group of people who believe in the right to a homeland for the Jewish people.

The Zionists have been very influential in the Middle East and have been responsible for much of the conflict in the area.

Understanding the Zionists can help us to find a peaceful solution to the Middle East war.

Sincerely,

Draft Charter Goes to UN, Peaceful Purposes Urged

WASHINGTON (AP) — The United States, Britain and 10 other nations Wednesday reached agreement on the text of a basic charter for a proposed international atomic energy agency.

The proposed agency would be set up to promote the peaceful uses of atomic energy and to prevent further development of the atomic bomb.

The draft charter will be presented for further consideration at a general assembly meeting of the United Nations scheduled to be held at United Nations headquarters in New York in September.

Science, Arts Seniors to Attend Hancock Reception

President and Mrs. A. C. Hancock will host graduating seniors and graduate students in the College of Science and Arts at Central House from 5:30 to 7:30 p.m. Monday.

The reception will be held in the library of the building. Two hours later the formal dinner. The reception will be held in honor of the 1956 graduating seniors.

The seniors were said to have been given an open, active indication that the agency should be submitted to the international Atomic Energy Commission (AEC) for consideration. The AEC was established to promote the peaceful uses of atomic energy.

The proposal for an international atomic energy agency was made in President Truman's State of the Union message in January.

The agency will be established to promote the peaceful uses of atomic energy and to prevent further development of the atomic bomb.

The draft charter will be presented for further consideration at a general assembly meeting of the United Nations scheduled to be held at United Nations headquarters in New York in September.
