

Active Duty Forced on NG

Army Reveals Revision Of Training Program

WASHINGTON (AP)—The Army announced Monday a major revision of the military service and training program that will require all new National Guardsmen to take six months active duty training.

The announcement brought an immediate protest from the National Guard Assn. which threatened to carry the fight to Congress.

The Army decision, described as based on a directive from Secretary of Defense Wilson, will automatically reduce the military service obligation of all except career soldiers and will provide a way for most youths to escape draft duty altogether.

The National Guard said the six months compulsory training provision, which is effective April 1, will downgrade the Guard's importance "if not, destroy it." Under the 1955 Reserve

Act, new Guard recruits could volunteer for the training.

Army officers who sought to explain the new order signed by Secretary Brucker said the reduction in military service obligations for all Reservists will be retroactive to the start of their service.

Under the new order, they said, three years of training and service in the ready reserve will be cut from the military obligation of pre-draft age men who volunteer to take six months of active duty training.

Young men who entered the reserves through this option will hereafter serve 4½ instead of 7½ years in a ready reserve unit, after completing training, and then have three years in the standby reserve. This latter duty requires no regular training or organized military effort.

The new order also reduces from two to one year the required service in the ready reserve for draftees and others who spend two years on active duty.

Men who spend three years of voluntary active duty with the Army will hereafter have one year instead of two years in the ready reserve and will then be transferred to the standby reserve.

The Army said the new program will offer one new choice for young men. This permits men between 18½ and 23 years of age to escape the draft altogether if they, like pre-draft age youths, volunteer for six months training. Men who take this option will spend 3½ years in the ready reserve, less nearly four months waiting period before they start their six months training.

The Army said the Defense Department directive, dated last Nov. 26, ordered the Military Services to provide training of "sufficient duration" so that Reservists may "qualify as basically trained for duties assigned."

An Army spokesman said the directive also set a "minimum level" of four months of basic training for all Reservists and set a ceiling of 1,446,000 ready Reservists for the Army.

The spokesman said the decision to require six months active training for all types of Reservists was recommended by the Chief of Staff, Gen. Maxwell D. Taylor, after he had discarded various other proposals.

Republican Leader William F. Knowland of California talks to newsmen in Washington Jan. 7 as he announced he will not be a candidate for re-election to the Senate in 1958. He said his principal reason for not seeking another term is he wants to spend more time with his family. Knowland, who called the news conference after a talk with President Eisenhower at the White House, would not comment on whether he might be a candidate for governor of California in 1958. Suggested by Ike

Zwicker Included On Promotion List

WASHINGTON (AP)—President Eisenhower Monday recommended Brig. Gen. Ralph W. Zwicker, a central figure in the Army-McCarthy row, for promotion to major general.

Zwicker, whom Sen. McCarthy (R-Wis.) once called unfit to wear a general's uniform, is now Assistant Chief of Staff for Personnel of the 8th Army in the Far East.

His name showed, up on a long list of military officers which Eisenhower sent to the Senate for approval of promotions.

Another was Col. Carey A. Randall, Secretary of Defense Wilson's military assistant. Wilson personally interceded to propose that Randall, 44-year-old marine with a brilliant World War II combat record in the Pacific, be advanced to brigadier general.

McCarthy's sharp attack on Zwicker lit one of the fuses that set off the Senator's explosive controversy with the Army in 1954.

Zwicker figured in the case of Maj. Irving Peress, an Army Major who had refused to answer McCarthy's questions about possible Communist connections. Peress was stationed at Camp Kilmer, N.J., when Zwicker commanded the post, and was promoted and discharged at the time McCarthy was demanding he be court-martialed.

Music Majors Visit Museum

Members of the MSU Music Department have been invited to attend "The Printed Note," a music printing exhibition at the Toledo Museum of Art, now to February 24.

The exhibition will be one of the most comprehensive of its kind ever held in this country, covering 500 years of music printing and engraving. "The Printed Note" climaxes three years of preparation by the

Toledo Museum of Art toward tracing for the public, in one exhibition, all of the mechanical methods of printing music from the middle of the 15th Century to the present.

It also offers the public an opportunity of seeing a priceless collection of from 150 to 170 of the rarest music books, leaves from books and engravings, available from the U.S. and Europe.

More Winter Hits Nation

By THE ASSOCIATED PRESS

Another weather haymaker bore down Monday on the Eastern half of the nation which already is in the grip of an old-fashioned winter.

A new cold front whipped into the ice-crustured northern plains and fanned south and eastward. Snow flurries accompanied the new blast.

The new front didn't make much of a temperature dent in a region already plagued by subzero cold. But it stirred up strong northerly winds and re-energized the Arlie cold covering the area.

Temperatures early Monday ranged from an unofficial -50 degrees in the Adirondacks to -42 in Iowa and no relief was in sight.

The weatherman forecast that low overnight readings today would range from 20 to -40 in parts of New York state to New England and from 10 to -20 in the northern plains.

The mercury stayed below the zero mark all day Monday from the upper Mississippi Valley into Iowa and portions of the Great Lakes region, and from interior New York to northern New England.

A storm left a blanket of snow one to three inches deep in many sections of the mid-Atlantic region. Blizzard conditions were considered likely overnight in some lower lake areas. Heavy snow warnings called for up to 15 inches for portions of western New York State.

How do you check out here?

ENGINEERS...PHYSICISTS...

Here are brief descriptions of the important work performed in the five separate divisions of the Hughes Field Engineering Department. Each of the engineers engaged in these activities holds a degree in electrical engineering or physics. All divisions form a highly trained organization to support the armed services and others using Hughes fire control systems and guided missiles.

Check one or more divisions for which you qualify by education and experience . . .

ENGINEERING WRITING—Engineers in this division work with research and development engineers during formation stages of new equipment to produce clear, concise technical manuals, for use in maintenance and training, as well as specialized handbooks for USAF aircrews.

TECHNICAL TRAINING—A completely equipped and staffed school is operated to train qualified military and company personnel in classroom and laboratory programs on advanced systems work in the fields of radar fire control, electronic computers, guided missiles. Instructors are graduate engineers or physicists with backgrounds in development work or university instruction.

FIELD ENGINEERS—Hughes technical advisers are required in the field wherever operational bases are located. They

serve military agencies employing Hughes highly complex radar fire control systems for all-weather interceptor aircraft, at home and abroad.

AIRCRAFT MANUFACTURER LIAISON—Engineers are assigned to all-weather interceptor manufacturers whose aircraft employ Hughes fire control systems, and are responsible for pre-installation testing of the systems. They work with airframe designers in cases where their operational knowledge bears on equipment installation problems.

FIELD MODIFICATION—Hughes policy is not only to get reliable equipment into the field promptly and in sufficient amount, but to modify and develop this as soon as field information and test data become available. Engineers correlate information from the field and indicate changes to the Research and Development Divisions. Write . . .

Roundtable Debate MSU Expansion

The building program at Michigan State was the main topic of discussion at the Spartan Roundtable's first meeting of the term Monday night.
 The discussion group, composed of student living unit and organization heads and university staff members meets monthly and is presided over by President John A. Hannah.
 The opening of the Student Services building was discussed and Dr. Thomas H. Hamilton, vice president for academic affairs, talked about space utilization in classrooms and offices.
 Dr. Hamilton also discussed pre-registration and pre-enrollment and the new Honors College.
 Other topics discussed were the proposed fraternity and sorority row and student parking.

Taylor to Accept Position at MSU

Dr. Clair L. Taylor, State Superintendent of Public Instruction, is retiring from politics July 1 to take an administrative post at Michigan State.
 He announced Wednesday that instead of running for reelection, he would accept what he termed "a once in a lifetime opportunity."

ALSOP to speak Wednesday

Alsop to Talk At Fairchild

Stewart Alsop, reporter, columnist and author, will speak on the subject, "Looking Forward," Wednesday night at 8:15 in Fairchild Theatre.
 "Matter of Fact," the newspaper column co-authored by Stewart Alsop and his brother Joseph Alsop, is syndicated in more than 200 newspapers in the U.S. and abroad. The most authoritative and best-informed in the country, and the Alsop brothers are known as indefatigable reporters.
 Both brothers travel abroad frequently, covering foreign and defense matters as well as domestic politics.
 They received the Overseas Press Club awards for the "Best Interpretation of Foreign News" in 1949 and 1951, and for "Best Consistent Reporting from Abroad" in 1953.
 Stewart Alsop, contributing frequently to magazines, has been awarded the Lauterback Award for "a substantial contribution in the field of civil liberties" and the Benjamin Franklin Magazine Award for "the most distinguished magazine writing."

Court Repeals Death Sentence Claim Negro's Confessions At Trial 'Not Voluntary'

WASHINGTON (AP)—The Supreme Court, dividing 6-3, Monday struck down the conviction and death sentence of an Alabama Negro on the ground confessions used in his trial were "not voluntary."
 The ruling was in the case of William Earl Fikes, 27, who received the death penalty on a charge of burglary with intent to rape.
 "The totality of the circumstances that preceded the confessions in this case goes beyond the allowable limits," Chief Justice Warren said in the majority opinion. "The use of the confessions secured in this setting was a denial of due process of law as provided by the 14th Amendment."
 Justice Harlan said in a dissenting opinion that setting aside the conviction "oversteps the boundary between this court's function under the 14th Amendment and that of the State Courts in the administration of justice."
 Harlan said he did not think Alabama authorities violated "Constitutional due process" in obtaining two confessions from Fikes.
 The majority decision means Fikes may face trial again, and at Camden, Ala., Circuit Solicitor Blanchard McLeod said that "definitely," we are able to use the disputed confessions as evidence.
 The Supreme Court also granted a hearing to another Alabama Negro under death sentence for the rape of a white woman.
 It was the second time the court intervened in the case of Jeremiah Reeves, Jr. an earlier conviction was set aside on the grounds an illegally obtained confession was used in his trial.
 The second trial also resulted in conviction and a death penalty.
 In his second appeal, Reeves contended Negroes were systematically excluded from juries in Montgomery County, where he was tried. Atty. Gen. John Patterson denied this.
 Fikes was convicted of breaking into the home of Mrs. Jean Heinz Rockwell at Selma, Ala. the night of April 24, 1953. Mrs. Rockwell, daughter of the mayor of Selma, awoke to find a burglar sitting on her bed, holding a knife to her throat. In a struggle Mrs. Rockwell seized the knife and the intruder fled.
 Warren said Mrs. Rockwell did not identify Fikes as her attacker, but that two other women testified to similar house-breaking, one of which resulted in rape, and each identified him as the burglar.
 Warren said Fikes was questioned for several hours at a time over the course of five days preceding his first confession and again was questioned at length before a written confession was obtained.
 In three separate orders Monday, the court agreed to review legality of laws directed against obscene literature. All three appeals raised the Constitutional issue of freedom of speech and press.
 In one case, Samuel Roth, New York publisher, contended the Federal Obscenity Law violates guarantees of the First Amendment. He was convicted in New York of sending obscene literature through the mails.
 In another case, David S. Alberts contended a California law banning advertising and keeping for sale obscene books violated the First Amendment. Alberts was convicted in Municipal Court in Beverly Hills.

ENGINEERS:

when your career is concerned...

one wise move deserves another

Your decision to work for an engineering degree was a wise one. You are about to graduate to a professional level which is an exclusive prize that few are qualified to achieve. You have chosen a profession which is providing leadership for the most dramatic advancements of our age. Time now for another decision. Where can you invest your education so it will bring you maximum returns in satisfaction and success? Where can you serve with credit to your profession and society? If these are your goals, we'd like to suggest your next move. Associate yourself with other engineers whose aims are the same as yours. Choose an organization with a reputation for engineering excellence and an abundance of modern equipment and advanced projects. You can find these surroundings at

Chance Vought, and you may obtain firsthand advance information about any feature of Chance Vought engineering from our campus representative. Ask your placement office to arrange an appointment for you. Meanwhile, for interesting facts about Chance Vought opportunities, check your library's engineering job directories, or write directly to: Engineering Personnel, Chance Vought Aircraft, Inc., P. O. Box 5907, Dallas, Texas. Note especially our history of fighter aircraft development; our most recent additions to this history, the F8U-1 CRUSADER Navy fighter and REGULUS guided missile, and our current projects in jet fighter aircraft and surface-to-surface missile development. Find out how Chance Vought can help you make your next career move as wise as your first.

CHANCE VUGHT AIRCRAFT

Talks With Farmers, Ranchers

Ike Visits Drought Regions

EN ROUTE WITH EISENHOWER (P)—President Eisenhower, traveling swiftly through drought-scorched regions...

And, talking as one farmer to others, he asked scores of knowledge questions, got technical answers he understood...

'I'm delighted to see you keeping your chins up.' Out of bed at 6 a.m., the President started his tour of badly damaged drought areas...

At all stops on the ground inspection trips and at airport conferences with state and local officials, Eisenhower got plenty of advice on how the federal government could provide additional relief...

He may set forth his own views when he concludes his two-day, six-state tour late today at a conference in Wichita, Kan. Representatives from all the drought-stricken states...

Monday, the President drew extensively on his own farm-life background in chatting with landowners and sharecroppers all along the route...

And he had a smile and a cheery greeting for the wives of the men he visited. There was, for example, Mrs. Carl Peoples, whose husband farms some 640 acres near Woodward, Okla.

In San Angelo, Eisenhower wore a tan topcoat and a brown wool muffler as protection against the mid-thirties temperature...

Nowhere was there any sign of the rain so much wanted in the southwest where eroding winds whip away the precious topsoil.

At San Angelo, the President's official host was Gov. Allan Shivers, who was spending his last day in office. At Woodward, Oklahoma Gov. Raymond Gary headed the welcoming delegation...

At Clovis, Republican Gov. Edwin Mechem, the first man in New Mexico history to win a third term as Governor, met the President.

Also on the two-day tour are two Eisenhower cabinet officers

Secretary of Agriculture Benson and Secretary of the Interior Seaton. Before the San Angelo tour the President conferred at breakfast with Texas bankers, businessmen and representatives of agriculture organizations.

They submitted proposals for more liberal federal loans to farmers and ranchers, for continuation of the government's emergency feed grain and hay programs, and for a time extension in the program of 50 per cent reduction in railroad freight rates for shipment of hay.

The Texans also outlined longer range steps based on conservation and development of water resources.

In Oklahoma, Gov. Gary put the emphasis on long range measures. He said in a statement: 'Never before have drought conditions in Oklahoma been so widespread and so severe.'

Emergency assistance programs on hay and feed grains, plus reduced freight rates on hay, have

helped keep farmers and livestock men in business.

'Our crying need, however, is a long-time program of soil and water conservation and land and water use, to combat future droughts.'

At Clovis, N. M., the President got his first good look at soil eroding wind, whipping at the land. In San Angelo and Woodward there had been little wind.

From Clovis, the President took off at 3:10 p.m. (EST) for Tucson, Ariz., to spend the night at Davis-Monthan Air Force Base.

The Texans also outlined longer range steps based on conservation and development of water resources.

In Oklahoma, Gov. Gary put the emphasis on long range measures. He said in a statement: 'Never before have drought conditions in Oklahoma been so widespread and so severe.'

Emergency assistance programs on hay and feed grains, plus reduced freight rates on hay, have

Kansas, Kentucky Suffer Defeats In Major Upsets

By THE ASSOCIATED PRESS

Kansas and Kentucky, the No. 1 and No. 3 teams respectively in the nation, were upset Monday night in college basketball action.

Kansas was edged by Iowa State, 39-37, on a last second punch shot by Don Medsker, while Kentucky was completely outclassed by an unheralded Tulane team, 68-60.

Wilt Chamberlain, Kansas' seven-foot giant and the country's leader in every worthwhile statistic, was held to 17 points by the fine defensive work of Medsker. Chamberlain didn't manage to sink a field goal until two minutes had elapsed in the second half.

Campy, Erskine Accept Pay Cuts

BROOKLYN (AP) — Roy Campanella and Carl Erskine, two veteran Brooklyn Dodgers, took salary cuts Monday when they came to terms for this season.

Although club officials released no financial details, it was reported that Campanella was sliced from \$42,000 to \$37,500 and Erskine from \$25,000 to \$22,000. Campanella returned the signed contract and Erskine agreed in a phone conversation.

Agelos Pilitsis (left); Michigan State right halfback, won a second team berth on the Associated Press All-American soccer team. Pilitsis, Al Sarria (center) and co-captain Ray Burdett (right) were voted to the All-Midwest first team.

Three on Midwest Team Pilitsis Makes Soccer All-America 2nd Team

By LARRY GUSTIN
State News Night Editor

Agelos Pilitsis, Michigan State right halfback, was named to the second team in the National Soccer Coaches Assn. All-American ratings last week.

In addition, Pilitsis, inside right forward Al Sarria, and co-captain Ray Burdett were named to the All-Midwest first team by the Midwestern division of the association.

Pilitsis, a Californian who originally came from Athens, Greece, impressed those voting with his aggressive play. Nicknamed "The Greek" by his teammates, Pilitsis was a new-comer to the team last season.

Sarria and Burdett, who played center half, have been with the team since before it became a member of the varsity program last fall.

Sarria, who also sports a formidable nickname, "The Phantom," is the Spartan booter, top scorer, with 12 goals last fall. He is the captain-elect of the squad, replacing Burdett and Art Southern. The Popayan, Colombia junior, is considered a top ball-handler, and usually has two members of the opposing team assigned to guarding him, an almost impossible task.

Burdett, who was sole captain last spring when the boosters were under the Spartan Soccer Club, is a leader on the field and a versatile defenseman. He was born in Detroit but spent most of his life in England before returning to this country in 1950.

In the latest edition of the association's newspaper Michigan State and Chicago's Navy Pier were rated the top mid-western teams percentage-wise. The Spartans rate highest, however, because they had one tie while Navy Pier was deadlocked twice.

One of those was a 2-2 game with MSU while the other was a freakish 7-7 draw with Purdue State beat the Boiler-makers, however, to seemingly clinch the mythical crown for this area.

The individual player voting is done by coaches and officials who saw the players in action.

Spartan coach Gene Kenny said he "couldn't understand" why Sarria hadn't at least drawn honorable mention in the All-American ratings.

Kenny also announced his schedule for next season, in contrast to the just completed season, which featured only one home game, Michigan, and five on the road, next fall there will be six home contests and only two away.

Elliott Rumored As California's New Grid Coach

BERKELEY, CALIF. (AP) — The University of California is due to name its new football coach tonight with the finger of speculation pointing at Pete Elliott of the University of Nebraska.

Some newsmen stated flatly that the 32-year-old Elliott was the man, but California officials remained silent.

Two things were certain. Meetings of the two groups to rule finally on the selection were being arranged for tonight — and Elliott hasn't denied the reports.

Elliott's name popped into prominence last weekend as the likely successor to Lavin O. "Pappy" Waldorf, who relinquished his \$11,000-a-year job last fall after 10 seasons.

Earlier the former University of Michigan grizzer drew mention as a choice to succeed Darrell Royal at Washington, like California a member of the tumultuous Pacific Coast Conference.

The association does not rate teams except percentage-wise.

Bucks Stay on Top In Conference Play

Illinois, Purdue, Michigan Also Win Big 10 Contests

By THE ASSOCIATED PRESS

Ohio State, led by Frank Howard's 31 points, remained the only undefeated team in Big 10 competition Monday night by downing Minnesota, 85-73.

In other Big 10 action, Illinois set a host of school records by outscoring Indiana, 112-91; Purdue emptied its bench while lambasting Northwestern, 77-57, and Michigan coasted to its third straight conference victory over a cold Wisconsin five, 71-62.

Forward Ken Sicel dumped in five consecutive field goals in the opening moments of the second half to pave the way for Ohio State's third consecutive Big 10 win and keep the Bucks in first place in the conference.

More than 12,000 fans watched the Bucks increase their six-point halftime lead into a 19-point margin with only five minutes having elapsed in the second half. Minnesota was never able to catch up.

Illinois shot 500 from the field in running up the highest point total in the school's history. The combined total of 293 points set a new Big 10 record.

Three Illini hit for 20 points or better. Don Ohl and Harvey Schmidt each netted 25 while center George BanSalle scored 20 before fouling out midway in the second half. Indiana's big gun, center Archie Dees, was the game's high man with 26 points.

Purdue went on a scoring spree against Northwestern in the second half, after leading by only three at intermission. The Boiler-maker attack was led by

sophomore Harvey Austin with 18 points.

Michigan never trailed in its game with the cellar-dwelling Badgers. Jim Shearon and M. C. Burton tied for scoring honors with 16 points, all of Shearon's points coming in the second half on long jump shots.

SOME MORE LITTLE STORIES WITH BIG MORALS

First Little Story

Once upon a time there was an Indian brave named Running Bear who had a squaw named Giggling Water. Giggling Water was sort of a mess, but she sure could make beaded moccasins. Every day she shipped up a brand-new pair of beaded moccasins for Running Bear which were so gorgeous that all the Indian maids on the reservation gawped with admiration.

Well sir, Giggling Water got livid about all the girls making goo-goo eyes at Running Bear, and one night she told him so. Then he got livid too, and they had a terrible tumble, and he slapped her on the wrist, and she started crying like crazy and moved out of the wigwam and went home to her mother and never came back.

"Good riddance!" said Running Bear, but he soon found out how wrong he was, for the Indian maids were not really interested in him, only in his moccasins, and when he stopped showing up with a new pair every day, they quickly gave him the yo-heave-ho, and today he is a broken man, sitting all alone in his teepee and muttering ancient Ute curses.

MORAL: Don't fight the hand that beads you.

Second Little Story

Once upon a time there was a sweet old gentleman named Nathan who ran a tobacco counter at a large American university. All of the students loved him dearly, and they used to come over whenever they could to buy Philip Morris Cigarettes and chat with Nathan, both of which were highly satisfactory pursuits. The Philip Morrises were highly satisfactory because they are full of natural goodness that is friendly and humane and soothing and no small consolation in this strife-ridden world of ours. Nathan, like Philip Morris, was also full of natural goodness that was friendly and humane and all like that.

Well sir, the students smoked Philip Morris and yucked with Nathan, and everything was lovely. Then one day the university decided to fire Nathan and put in a cigarette vending machine instead.

Well sir, the students did not take that lying down, you may be sure! They organized a monster rally and went over to prexy's house and made fiery speeches about good old Nathan and how they loved him.

Well sir, prexy was no fool, and when he saw how heartbroken the students would be if Nathan went, he decided that the wisest course was to keep Nathan and cancel the cigarette vending machine. This he did, and they all lived happily ever after.

MORAL: Better Nate than lever.

Third Little Story

Once there was a lion, which was a very quiet lion. In fact, the only time it ever made a sound was when it had a toothache.

MORAL: When it pains, it roars.

Win-Seeking Cagers To Meet Notre Dame

Anderegg And Green Get Start

Smyth, Hawkins
Lead Irish Attack

By JOE HOFFMAN
Michigan State's basketball team steps out of the conference for the last time tonight to meet the University of Notre Dame at South Bend. Game time is 9 p.m. (EST) and will be broadcast locally over WKAR-FM.

In an attempt to bolster his scoring punch and also to give some of his sophomores game experience, Coach Fordy Anderson will start Capt. George Ferguson, Chuck Benice, John Green, Bob Anderegg and Jack Quiggle.

Green and Anderegg are new to the starting lineup, replacing Pat Wilson and Larry Hedden. Green played his first game against Michigan last Monday night and scored nine points. Anderegg has played in all Spartan games and posts slightly under a nine-point average.

Senior guard Harry Luy sprained an ankle in practice Sunday and will only be available for limited action.

The Spartans will be out to even their season record of 4-5 last season against the Irish. State won in overtime, 82-78.

The Irish have been a hot-cold team so far, winning seven and losing five. Victories have come against St. Joseph (Pa.), Wisconsin, Valparaiso, New York University, Brigham Young, Northwestern and Loyola of Chicago.

The Irish have lost to Northwestern (the teams have met twice), Purdue, Louisville, Manhattan and Butler. The Spartans also lost to Butler and Purdue and beat Brigham Young.

Leading the Notre Dame attack are center John Smyth and forward Tom Hawkins. Both men have 19-point averages. The rest of the starting lineup includes Bob Devine, Joe Morelli and either Tom Sullivan or Ed Gleason. The Irish are coached by Johnny Jordan.

State doesn't return to conference action until Saturday when they journey to Columbus to meet Ohio State. Next home action is Jan. 28 against the same Buckeyes.

Eagles Sign Ace Of Sooner Team

PHILADELPHIA, Pa. (AP) — The Philadelphia Eagles Monday signed Oklahoma's Tommy McDonald, the breakaway back they hope will lead them to the top of National Football League. McDonald, two-time All-American choice (1955 and 1956), is the third of eight drafted members of the 1956 AP first eleven to come to terms with an NFL team.

Center Jerry Tubbs, one of McDonald's Oklahoma teammates, has come to terms with the Chicago Cardinals.

Spartan Rifle Team Takes Close Decision

Michigan State's rifle team scored a close 2743-2728 win over Indiana University at Bloomington Saturday.

Double exposure shows Wilt (The Still) Chamberlain, University of Kansas high scoring sensation, executing a layup in practice.

Presents 4-Point Plan

NCAA Football Session Proposes Rule Changes

NEW ORLEANS (AP) — A four-point program touching on the handling of the ball by the center to an expansion of the substitution rule dominated the opening session of the National Collegiate Athletic Assn. Football Rules Committee Monday.

H. O. Fritz, Crisler, Athletic Director at the University of Michigan and chairman of the committee, said the 25-man group spent the first session wading through reports of the various sub-committees. But the recommendations made by the American Football Coaches Assn. dominated the meeting.

Crisler said Lou Little, retiring coach at Columbia University, represented the coaches.

Little's report said the coaches were concerned with the rule that permits the center to tilt the ball 45 degrees. Little said the rule was being violated and in some cases as much as 90 degrees, decreasing the neutral zone at the line of scrimmage from the length of the ball to the width of the ball.

The coaches' recommendations also asked that the substitution rule be extended to permit any player to return to the game once during any quarter.

Icers Seek Big Win Over Wolverines

By JUNE TURNER

Spartan icers can tie Michigan for fourth place in the Western Intercollegiate Hockey League with a win over the third place Wolverines in Ann Arbor tonight.

In the first meeting of the season between these two squads last Tuesday, Michigan edged State in a close 4-3 game.

Unlike the first meeting, Michigan Lorne Howes will be in the nets having recovered from an injured foot.

Facing him in the Spartan nets will be Joe Selinger who has been enjoying a two-game rest while reserve goalie Aldo Atobelli served against the Ontario Aggies this weekend.

Coach Arno Besone will skate sophomore Joe Polano with veterans Ross Parke and Gene Grazia. Polano's play during the Aggie series qualified him for first line duty.

The Spartans hope to break the Wolverine jinx over them by scoring their first victory since 1928. Michigan will be out for a win to put them close to second place in the WIHL.

In league action this week-end Michigan defeated Michigan Tech 1-0, then tied the Huskies

3-5. Colorado took two from Denver while North Dakota was beating Minnesota twice.

Spartan defenseman Eddie Pollesel is second in penalties in the WIHL with seven penalties for 20 minutes. Bob Schiller is on top of the league with 32 penalty minutes.

IM Hi-Lights

The free throw event will take place January 21. Those wishing to enter should sign up as soon as possible at the IM office.

Entries for the all-university table tennis tournament January 22-24, will be now accepted by the IM office.

Those interested in the Friday night co-recreational program should contact the IM office for information.

Special Announcement: Because of limited bowling facilities those limited bowlers that forfeit games will be dropped from the league.

NL to Play 256 Night Tilts

CINCINNATI (AP) — The National League will play a record-breaking 256 night games in the 1957 season and one of them will be a season-opening contest.

The schedule, announced Monday at National League headquarters, showed that in one of the opening games on April 16 Brooklyn's defending league champions will be at

Philadelphia for a night contest. Dave Grote, league service director, said that as far as he could learn it will be the first time one of the "first" openers has been played at night.

The schedule also showed that the Dodgers will increase their playing dates in Jersey City from last year's seven games to eight.

What's doing...
at Pratt & Whitney Aircraft

P & W's J-57 turbojet... first engine in aviation history to achieve official power rating in the 10,000-pound thrust class. Its pace-setting performance blazed the way for this grueling mission that set awesome flight records.

The Wasp Major... P & W's R-4360 whose power (3,800 hp) and performance have never been equalled in the piston engine field.

Mission accomplished... top-of-the-world and back — non-stop

Eight global bombers, powered by mighty turbojets, recently set non-stop records in 16,000- to 17,000-mile flights described as a "routine training mission to demonstrate the capability of the B-52 and the men who fly it". Flying continuously for as long as 32½ hours, the mammoth aircraft — each powered by eight Pratt & Whitney Aircraft J-57 turbojets — winged northward from air bases in California and Maine, over Thule, Greenland, continued to the North Pole, then returned by way of Anchorage, Alaska, to land in San Francisco, Baltimore, or Limestone, Maine.

During this spectacular top-of-the-world mission, temperatures as low as 65 degrees below zero were encountered, speeds approached 700 miles per hour, altitudes in excess of 35,000 feet were maintained, and each Boeing B-52 was refueled in mid-air several times. Powering the KC-97 Stratofighters that accomplished the task of in-flight refueling were the mightiest piston engines ever built — P & W A's R-4360 Wasp Majors.

"Mission accomplished" ... a brief but all-encompassing tribute — to the Stratofortress flight crews, to the Air Force's Strategic Air Command, and to the gigantic team of engineers in the aviation industry whose years of research and accomplishment represent thousands upon thousands of engineering man-hours that were required to make these record-breaking flights a reality.

W. Shaw 2 Wins IM Opener

By JERRY WRIGHT

West Shaw 2 beat West-Shaw 4, 46-27, in a high scoring game. Leading by only four points at halftime, precinct 2 increased their lead to 19 points by the end of the game. Lee Acker and Ben Klinginger were the high scorers for precinct 2 with 12 points each.

The high scorers for precinct 4 were Charles Young and Tom Kadak with eight points each. Precinct 4 scored only nine points in the second half while precinct 2 scored 27 points in the same span.

West Shaw 6 beat West Shaw 8, 28-29, in a game that changed

from a rout in the first half to a close game in the second half. After scoring only two points in the first half, precinct 6 scored 18 points in the second to move within eight points of the lead.

Walter Beluts was the high scorer for precinct 6 with 13 points while Gus Henning was second with six points. Russ Arcnd was high scorer for precinct 8 with eight points. Dale Matyile was second high scorer with six points. Arcnd made a basket from mid court just as the game ended.

West Shaw 3, W. Shaw 1, 76 West Shaw 3 defeated West Shaw 4, 41-26, in a hard fought game. Larry Sierra of precinct 3 was high scorer for both teams with 11 points.

The scoring on precinct 1 was well divided among the players. Dale Kietzmann was high scorer with six points. Tied for second were Jim Kenston, Doug Jewell, Paul Zolotz and Dennis Henry with four points each.

Precinct 1 didn't score their first basket until the middle of the first half.

Sierra played a brilliant defensive game and assisted on many scores.

Precinct 3's man to man defense kept precinct 1 from causing any real threat.

Kansas, Kentucky Suffer Defeats In Major Upsets

By THE ASSOCIATED PRESS
 Kansas and Kentucky, the No. 1 and No. 3 teams respectively in the nation, were upset Monday night in college basketball action.

Kansas was edged by Iowa State, 39-37, on a last second point shot by Don Medaker, while Kentucky was completely outclassed by an unheralded Tulane team, 68-60.

Wilt Chamberlain, Kansas' seven-foot giant and the country's leader in every worthwhile statistic, was held to 17 points by the fine defensive work of Medaker. Chamberlain didn't manage to sink a field goal until two minutes had elapsed in the second half.

Campy, Erskine Accept Pay Cuts

BROOKLYN (CP)—Roy Campanella and Carl Erskine, two veteran Brooklyn Dodgers, took salary cuts Monday when they came to terms for this season.

Although club officials released no financial details, it was reported that Campanella was sliced from \$47,000 to \$37,500 and Erskine from \$25,000 to \$22,000. Campanella returned the signed contract and Erskine agreed in a phone conversation.

Agelos Pilitsis (left), Michigan State right halfback, won a second team berth on the Associated Press All-American soccer team. Pilitsis, Al Sarría (center) and co-captain Ray Burdett (right) were voted to the All-Midwest first team.

Three on Midwest Team Pilitsis Makes Soccer All-America 2nd Team

By LARRY GUSTIN
 State News Night Editor

Agelos Pilitsis, Michigan State right halfback, was named to the second team in the National Soccer Coaches Assn. All-American ratings last week.

In addition, Pilitsis, inside right forward Al Sarría and co-captain Ray Burdett were named to the All-Midwest first team by the Midwestern division of the association.

Pilitsis, a Californian who originally came from Athens, Greece, impressed those voting with his aggressive play. Nicknamed "The Greek" by his teammates, Pilitsis was a new-comer to the team last season.

Sarría and Burdett, who play center half, have been with the team since before it became a member of the varsity program last fall.

Sarría, who also sports a formidable nickname, "The Plondom," is the Spartan booter. Top scorer with 12 goals last fall. He is the captain-elect of the squad, replacing Burdett and Art Southern. The Epsom, Columbia junior, is considered a top ball handler, and usually has two members of the opposing team assigned to guarding him, an almost impossible task.

Burdett, who was sole captain last spring when the booters were named the Spartan Soccer Club, is a leader on the field and a versatile defenseman. He was born in Detroit but spent most of his life in England before returning to this country in 1950.

In the latest edition of the association's newspaper, Michigan State and Chicago's Navy Pier were rated the top mid-western teams percentage-wise. The Spartans rate highest, however, because they had one tie while Navy Pier was deadlocked twice.

One of those was a 2-2 game with NISL while the other was a freakish 2-1 draw with Purdue State beat the Bootmakers, however, to seemingly clinch the mythical crown for this area.

The association does not rate teams except percentage-wise.

The individual player voting is done by coaches and officials who saw the players in action.

Spartan coach Gene Kenny said he "couldn't understand" why Sarría hadn't at least drawn honorable mention in the All-American ratings.

Kenny also announced his schedule for next season. In contrast to the just completed season, which featured only one home game, Michigan, and five on the road, next fall there will be six home contests and only two away.

Elliott Rumored As California's New Grid Coach

BERKELEY, CALIF. (AP)—The University of California is due to name its new football coach. Longtime athletic director of speculation, pointing at Pete Elliott of the University of Nebraska.

Some newsmen stated flatly the 42-year-old Elliott was the man, but California officials remained silent.

Two things were certain. Meetings of the two groups to rule finally on the selection were being arranged for tonight and Elliott hadn't denied the reports.

Elliott's name popped into prominence last weekend as the likely successor to Leta Stetter "Pappy" Waldorf, who relinquished his \$12,000-a-year job last fall after 10 seasons.

Earlier the former University of Michigan gridder drew attention as a choice to succeed Darrell Royal at Washington, like California a member of the tumultuous Pacific Coast Conference.

Elliott, a former assistant coach at Oklahoma, uses Bud Wilkinson's version of the split-T offense. He took over as head coach at Nebraska last season at \$12,000 and was given a 2,500 raise after it ended.

Bucks Stay on Top In Conference Play

Illinois, Purdue, Michigan Also Win Big 10 Contests

By THE ASSOCIATED PRESS

Ohio State, led by Frank Howard's 31 points, remained the only undefeated team in Big 10 competition Monday night by downing Minnesota, 85-73.

In other Big 10 action, Illinois set a host of school records by outscoring Indiana, 112-91, Purdue emptied its bench while lambasting Northwestern, 77-57, and Michigan coasted to its third straight conference victory over a cold Wisconsin five, 71-62.

Forward Ken Sicile dumped in five consecutive field goals in the opening moments of the second half to pave the way for Ohio State's third consecutive Big 10 win and keep The Bucks in first place in the conference.

More than 12,000 fans watched the Bucks increase their six-point halftime lead into a 19-point margin with only five minutes having elapsed in the second half. Minnesota was never able to catch up.

Illinois shot 500 from the field in running up the highest point total in the school's history. The combined total of 293 points set a new Big 10 record.

Three Illini hit for 20 points or better. Don Oll and Harvey Schmidt each netted 25 while center George BanSalle scored 20 before fouling out midway in the second half. Indiana's big gun, center Archie Drees, was the game's high man with 26 points.

Purdue went on a scoring spree against Northwestern in the second half, after leading by only three at intermission. The Boilermaker attack was led by

sophomore Harvey Austin with 18 points.

Michigan never trailed in its game with the cellar-dwelling Badgers. Jim Shearon and M. C. Burton tied for scoring honors with 16 points, all of Shearon's points coming in the second half on long jump shots.

Smyth, Hawkins
Lead Irish Attack

BY JOE HOFFMAN
Michigan State's basketball team steps out of the conference for the last time tonight to meet the University of Notre Dame at South Bend. Game time is 9 p.m. (EST) and will be broadcast locally over WKAR-FM.

In an attempt to bolster his scoring punch and also to give some of his sophomores game experience, Coach Furdy Anderson will start Capt. George Ferguson, Chuck Benic, John Green, Bob Anderegg and Jack Quigley.

Green and Anderegg are new to the starting lineup, replacing Pat Wilson and Larry Hedden. Green played his first game against Michigan last Monday night and scored nine points. Anderegg has played in all Spartan games and posts slightly under a nine-point average.

Senior guard Harry Lux sprained an ankle in practice Sunday and will only be available for limited action.

The Spartans will be out to even their season record of 4-3. Last season against the Irish, State won in overtime 82-78.

The Irish have been a hot-cold team so far, winning seven and losing five. Victories have come against St. Joseph (Pa.), Wisconsin, Valparaiso, New York University, Brigham Young, Northwestern and Loyola of Chicago.

The Irish have lost to Northwestern (the teams have met twice), Purdue, Louisville, Manhattan and Butler. The Spartans also lost to Butler and Purdue and beat Brigham Young.

Leading the Notre Dame attack are center John Smyth and forward Tom Hawkins. Both men have 19-point averages. The rest of the starting lineup includes Bob Devine, Joe Morelli and either Tom Sullivan or Ed Gleason. The Irish are coached by Johnny Jordan.

State doesn't return to conference action until Saturday when they journey to Columbus to meet Ohio State. Next home action is Jan. 28 against the same Buckeyes.

Eagles Sign Ace Of Sooner Team

PHILADELPHIA, Pa. (AP)—The Philadelphia Eagles Monday signed Oklahoma's Tommy McDonald, the breakaway back they hope will lead them to the top of National Football League. McDonald, two-time All-America choice (1955 and 1956), is the third of eight drafted members of the 1956 AP first eleven to come to terms with an NFL team.

Center Jerry Tubbs, one of McDonald's Oklahoma teammates, has come to terms with the Chicago Cardinals.

Spartan Rifle Team Takes Close Decision

Michigan State's rifle team scored a close 2743-2728 win over Indiana University at Bloomington Saturday.

Double exposure shows Will (The Still) Chamberlain, University of Kansas high scoring sensation, executing a layup in practice.

Presents 4-Point Plan

NCAA Football Session Proposes Rule Changes

NEW ORLEANS (AP)—A four-point program touching on the handling of the ball by the center to an expansion of the substitution rule dominated the opening session of the National Collegiate Athletic Assn. Football Rules Committee Monday.

H. O. Fritz, Crisler, Athlet Director at the University of Michigan and chairman of the committee, said the 25-man group spent the first session reading through reports of the various sub-committees. But the recommendations made by the American Football Coaches Assn. dominated the meeting.

Crisler said Lou Little, retiring coach at Columbia University, represented the coaches.

Little's report said the coaches were concerned with the rule that permits the center to tilt the ball 45 degrees. Little said the rule was being violated and in some cases as much as 90 degrees, decreasing the neutral zone at the line of scrimmage from the length of the ball to the width of the ball.

The coaches' recommendations also asked that the substitution rule be extended to permit any player to return to the game once during any quarter.

The rule now, Crisler said, permits only members of the starting team to return to action once during any quarter. Substitutes as well as starters would be permitted to return once during any period under the coaches' plan.

Little's report also asked that any ball, leather or rubber, could be used by the offensive team. The rule now gives the home team the privilege of selecting any leather ball that meets specifications with the offensive team having the prerogative of using a rubber ball by mutual consent.

The fourth point offered in Little's report asked that the responsibility of legality of substitution be lifted from the coaches.

Icers Seek Big Win Over Wolverines

By JUNE TURNER

Spartan icers can tie Michigan for fourth place in the Western Intercollegiate Hockey League with a win over the third place Wolverines in Ann Arbor tonight.

In the first meeting of the season between these two squads last Tuesday, Michigan edged State in a close 4-3 game.

Unlike the first meeting, Michigan Lorne Howes will be in the nets having recovered from an injured foot.

Facing him in the Spartan nets will be Joe Selinger who has been enjoying a two-game rest while reserve goalie Aldo Altobelli served against the Ontario Aggies this weekend.

Coach Arno Bessone will skate sophomore Joe Polano with veterans Ross Parke and Gene Grazia. Polano's play during the Aggie series qualified him for first line duty.

The Spartans hope to break the Wolverine jinx over them by scoring their first victory since 1928. Michigan will be out for a win to put them close to second place in the WIHL.

In league action this weekend Michigan defeated Michigan Tech 1-0, then tied the Huskies

5-5. Colorado took two from Denver while North Dakota was beating Minnesota twice.

Spartan defenseman Eddie Pollesel is second in penalties in the WIHL with seven penalties for 29 minutes. Bob Schiller is on top of the league with 32 penalty minutes.

IM Hi-Lights

The free throw event will take place January 21. Those wishing to enter should sign on as soon as possible at the IM office.

Entrants for the all-university table tennis tournament, January 22-24, will be now accepted by the IM office.

Those interested in the Friday night recreational program should contact the IM office for information.

Special Announcement: Because of limited seating facilities these dance teams that forfeit games will be dropped from the league.

NL to Play 256 Night Tilts

CINCINNATI (AP)—The National League will play a record-breaking 256 night games in the 1957 season and one of them will be a season-opening contest.

The schedule, announced Monday at National League headquarters, showed that in one of the opening games on April 16 Brooklyn's defending league champions will be at

Philadelphia for a night contest. Dave Grote, league service director, said that as far as he could learn it will be the first time one of the "first" openers has been played at night.

The schedule also showed that the Dodgers will increase their playing dates in Jersey City from last year's seven games to eight.

What's doing . . .
at Pratt & Whitney Aircraft

P & W's J-57 turbojet . . . first engine in aviation history to achieve official power rating in the 10,000 pound-thrust class. Its pace-setting performance blazed the way for this grueling mission that set awesome flight records.

The Wasp Major . . . P & W's R-4360 whose power (3,800 hp) and performance have never been equaled in the piston engine field.

Mission accomplished . . .
top-of-the-world and back — non-stop

Eight global bombers, powered by mighty turbojets, recently set non-stop records in 16,000- to 17,000-mile flights described as a "routine training mission to demonstrate the capability of the B-52 and the men who fly it". Flying continuously for as long as 32½ hours, the mammoth aircraft — each powered by eight Pratt & Whitney Aircraft J-57 turbojets — winged northward from air bases in California and Maine, over Thule, Greenland, continued to the North Pole, then returned by way of Anchorage, Alaska, to land in San Francisco, Baltimore, or Limestone, Maine.

During this spectacular top-of-the-world mission, temperatures as low as 65 degrees below zero were encountered, speeds approached 700 miles per hour, altitudes in excess of 35,000 feet were maintained, and each Boeing B-52 was refueled in mid-air several times. Powering the KC-97 Stratofreighters that accomplished the task of in-flight refueling were the mightiest piston engines ever built — P & W's R-4360 Wasp Majors.

"Mission accomplished" . . . a brief but all-encompassing tribute — to the Stratofortress flight crews, to the Air Force's Strategic Air Command, and to the gigantic team of engineers in the aviation industry whose years of research and accomplishment represent thousands upon thousands of engineering man-hours that were required to make these record-breaking flights a reality.

Missiles

(Continued from Page 13) -vict Union be limited to 25 million each and those of Britain and France to 750,000 each, if the nations can agree on a progressive system. This would include President Eisenhower's plan for aerial inspections and Premier Bulganin's proposal for ground inspection at key points.

4. That tests of all space missiles, including earth satellites and space platforms, be put under international control to make certain their future development is limited to peaceful purposes.

5. That an international inspection and control system be installed progressively to guard against surprise attacks. This would be supervised by an international agency to be established currently with the beginning of the program.

Agreement stated adoption of the Soviet proposal made Nov. 17, 1956. The main points included:

1. The reduction of the Armed Forces of the Soviet Union and the United States and China during the first year to 2.5 million men each and those of Britain and France to 700,000 men each. This agreed with the U.S. idea, except that the United States did not mention Chinese forces. Khrushchev went further to propose a reduction in the second year to 1.5 million men for the Soviet Union, United States and China, and 600,000 for Britain and France, and that all other states shall not have armies exceeding 100,000 men and men.

2. The banning within two years of nuclear weapons, with the discontinuation of their production, bombing of their use and the complete destruction of the stockpiles of atomic and hydrogen bombs.

As a first step in this program, he said tests of nuclear weapons should be discontinued at once. Khrushchev presented a resolution calling for an immediate halt to test explosions.

He renewed the Soviet offer to consider aerial photographs in Europe to a depth of 500 miles west and east of the demarcation line between the principal Armed Forces of NATO and those of the Warsaw Treaty Countries.

He also suggested that the UN Disarmament Commission and its subcommittee should be expanded. The commission should include all of the countries on the UN Security Council, plus Canada. The subcommittee is made up of the United States, Britain, France, Soviet Union and Canada.

The Political Committee called off its afternoon session for the lack of speakers and will continue the debate today at 10:30 a.m.

Grace's Baby To Receive Gun Salute

MONTE CARLO, Monaco, (AP) — The palace told Monaco's Monday how they will be able to tell when Princess Grace has given birth to her baby.

1. If it's a boy there will be a 101-gun salute from palace cannons (only 21 if it's a girl).

2. All the church bells in the country will ring.

3. Prince Rainier will announce the blessed event over radio. Monte Carlo (He's the father).

The best guess on when all this will happen is anytime between now and Jan. 25. The birth of an heir, or heiress, to the throne will be a matter of rejoicing for Monacans because it will save them from French income taxes and from the French draft.

State Park Users Willing to Pay

A vast majority of those who use state parks in Michigan would be willing to help foot the bill for the facilities through direct users' fees, according to a survey made by the MSU Bureau of Business Research.

Of the 4,700 visitors queried in the parks last summer, only one in 12 opposed charging fees to park users, the study indicated.

Against Israel Saudi Arabi Asks UN Aid For Gulf Port

UNITED NATIONS, N.Y. (AP) — Saudi Arabia called on the United Nations Monday night to intervene in what it called an illegal Israeli aggression in the Gulf of Arabia.

In a letter to Secretary General Dag Hammarskjöld and the Security Council, Saudi Arabia, denouncing Israel's attack on the Saudi Arabian mainland in the past three days.

The incident said three Israeli planes, one on Saudi coastal defenses at Shakh Hameed Jan. 17 and two days later, two Israeli torpedo boats, one on Saudi coastal defenses and one on Saudi attacks in the same area.

Israel has accused Saudi Arabia of firing an Israeli naval vessel in this area Jan. 11. It also raised an Arab blockade of the Red Sea port of Aden in its October 1956 campaign to drive Egyptian forces from positions in the vicinity of the Gulf.

More than 20,000 cases in California are believed to still require treatment. Another 22,000 patients have permits to retail alcoholic beverages.

Has Big Paring Job

Williams Faces Budget Cuts

How to pare down budgetary requests totaling a record 500 million dollars was the problem that confronted Gov. Williams today as a parade of citizens and agency heads crowded into his office for the first of a series of budget hearings.

Each told the Governor a tale of rising costs in various departments and state agencies.

Williams told each in turn that their requests likely had merit, but that some "bloodletting" was necessary if state spending was to be brought within manageable proportions—closer within the range of this year's \$30 million dollar budget.

State educators will have their day with Williams today. Representatives of colleges and universities will present their budget requests in the morning, those of elementary and secondary schools and junior colleges in the afternoon.

State Police Commissioner Joseph A. Childs asked for \$12,437,000 in legislative appropriations for the department during the 1957-58 fiscal year, an increase of \$2,945,000 over current expenditures.

Gov. Harrison, Director of the State Corrections Department, which runs Michigan's penal

system, asked for \$23,773,037 for the coming year. This year's budget is \$16,758,565.

There were the largest requests made at Monday's hearings, but other officials asked increases larger in proportion to the size of their operations.

Representatives of the State Civil Defense Organization, the Fair Employment Practices Commission and the Liquor Control Commission were among others who made appearances before the Governor today.

Morning and afternoon sessions are scheduled through Thursday. After that, the Governor will prepare his own budget and submit it to the legislature later this month.

Childs said most of the additional money he requested would be spent for the start of construction of a new State Po-

lice Administration Building at East Lansing and for salaries of a proposed 110 new troopers and 51 additional civilian personnel.

Harrison estimated it would take \$16,211,779 to run the corrections department next year as compared with \$14,320,897 this year, a reflection on the steady increase in the number of prison inmates. He said prison population has grown to 10,129 from about 8,000 ten years ago.

He also requested \$3,300,000 to complete construction of the 600-man medium security institution at Ionia and money for planning a 1,700-bed medical facility to provide reception, diagnosis and treatment service for inmates at various institutions.

A Campus-to-Career Case History

Claire Hruska (left) discusses progress of a new telephone building with the contractor.

What's a civil engineer's job in the telephone company?

Claire Hruska graduated in 1953 from the University of Washington with a B.S. in Civil Engineering. Today he's with The Pacific Telephone and Telegraph Company.

"I supervise construction at every stage," Claire says. "Every telephone building is designed around the equipment that will be in it. When a building is needed, I work closely with the architect to make sure his plans fit the needs. Then I check the contractor's bids. When the contract is let, it's my responsibility to see that the builder sticks to the plans in detail."

"Right now I'm handling the construction of several telephone exchanges, a large office building in downtown Seattle, and additions to other buildings. It's satisfying work, because I'm on my own a lot, and getting the jobs done is up to me."

"I've got a career that offers big assignments and responsibilities, and real opportunities to get ahead in a business that's growing rapidly. That's what I was looking for."

Claire Hruska is typical of the many young men who are finding rewarding careers in the Bell Telephone System. For more information on career opportunities in the Bell Telephone Companies, Bell Telephone Laboratories, Western Electric and Sandia Corporation, see your placement officer.
