NOT MUCH CHANGE

The weather will be cloudy and cooler today with possible scattered showers tonight. High today should reach 65.

Britons Accept Egypt's Terms

Eight Conservatives Quit As Protest to 'Surrender'

LONDON (AP)—Prime Minister Macmillan Monday grudgingly acknowledged President Nasser as boss for the moment of the Suez Canal and told British ships to resume sailing through it on Egypt's terms.

Israel May Make Use Of Canal

JERUSALEM, Israeli Sec. of (AP)—The Israeli government said Monday it now feels free to send a test ship through the Suez Canal and is discussing the plan with French officials in Paris.

A foreign ministry spokesman said a news conference, however, that no date has been fixed for a trial of strength with Egyptian authority over the canal. He said that would depend on both political and economic factors.

The spokesman, Moshe Lesheim, was commenting on the occasion in London last week of the Suez Canal Users' Assn. (SCUA) to allow its members to use the waterway.

"We now feel free to send our boats through the Suez Canal at the proper time," he said. Israel is not a member of SCUA. Lesheim said Israel was in liaison with the French on the test ship project, but unwillingly turned aside a reporter's suggestion of "collusion" between the two states.

Israeli ships have been barred from using the canal ever since the formation of the Jewish state. Egypt still insists a "state of belligerency" exists between the two countries.

Lesheim said Israel is "keeping in touch" with the French government on Suez and pointed out the French did not join in the Association's decision to allow member ships to use the canal.

"We are prone to take into account the French view but we are not bound by it," Lesheim said.

3 State Schools Join in Protest To Legislature

MSU officials, in a Monday night joint conference with U of M and Wayne State University representatives at Kelllogg Center, signed another protest concerning the State Legislature's educational appropriations.

The protest was in the form of a letter to convey . . . the grave concern over the inadequacy of the appropriations for higher education."

The letter was addressed to Governor G. Mennen Williams, Lieutenant Governor Philip Hart, House Speaker George Van Dusen (R-Zeeland), and the House and Senate Appropriation committee heads.

Michigan State Celebrates 100th Birthday of Classes

The first day of classes at MSU began 100 years ago today. Some 63 young men launched a program that is now followed by more than 18,000 coeds and college boys.

The Michigan Agricultural College students began classes at 8:30 a.m. May 16.

They were put to work clearing away scraps of lumber and pieces of plaster left by workmen who had erected the three buildings.

The next day they underwent crude entrance examinations. On the third day, May 13, dedication services were held in the chapel of College Hall.

President Joseph R. Williams gave the major address before an audience which included Michigan Gov. Kingsley S. Bingham.

Eight conservative members of Parliament immediately quit the government early as a protest against what they regarded as a surrender to Nasser. They said appeasement of any kind "leads only to disaster."

The eight sent separate letters to the chief government whip stressing that they will regard themselves as independent Conservatives. They said, however, they will not vote with the opposition Labour Party concerning any motion of confidence. Even if they did, the government still has a majority big enough to see it through.

Macmillan announced his revised position on Suez in the House of Commons, which was crowded but quiet.

"This is by no means the end of the story," he said. "It is not a settlement, not an agree-

PRESIDENT NASSER . . . still boss . . .

ment. That is why it is unsatisfactory. What we have to face is the actual situation."

At the same time Macmillan set out to put British relations with Egypt back on a business-like basis. He announced slight easements of Britain's financial squeeze on Egypt and disclosed the two countries soon will begin discussing a dollars-and-cents accounting.

The British-Egyptian talks will open in Rome May 23. Macmillan did not define their scope. Other British officials, however, said they will range over the entire field of financial claims and counterclaims arising out of the Suez crisis.

Macmillan's government advised British ships early last month to steer clear of the canal, opened by a UN salvage fleet after more than three months of work. Only two or three ships flying British colors had disregarded the advice.

Emrys Hughes, a left wing Laborite, drew some cheers by labeling Macmillan's remarks Monday as the "greatest spectacular retreat from Egypt since the time of Moses." But this was taken as a political quip. Laborite legislators back the general policy.

Removal or modification of existing restrictions must naturally depend on satisfactory arrangements covering all financial claims against Egypt," Macmillan said. "Discussion will be held on this basis in a neutral center."

The Honduras ruling military Junta quickly ordered its representative in Washington to the Organization of American States which arranged the truce over the weekend.

Both Nicaraguan and Honduran troops Monday began withdrawal from the disputed Mosquito Coast border area each country claims.

Argentina's representative on the OAS team in Argentina said in Managua he knew nothing of the alleged violation. He said an investigation was under way from that end.

Today is the last day to officially withdraw from school. Withdrawals will receive half their fees and will be given "N" grades if passing.

After today there will be no refunds for withdrawals and "I" grades will be given for passing work.

Gen. Gustavo Rojas Pinilla (left), recently ousted as president of Colombia, is greeted by Howard Hohb, manager of swank Castle Harbour Hotel, after his arrival in Bermuda.

Senate Passes Bill Without 58 Million

WASHINGTON (AP)—The Senate late Monday passed a \$3,884,927,000 treasury-post office money bill after rejecting floor efforts to cut it by 112 million dollars.

The Senate voted in the Bill exactly the same amounts allowed by the House; in the past it frequently has restored a part of the House cuts.

No moves were made on the floor to put back any of the 58 million dollars cut by the House from the postoffice departments.

Postmaster General Summerfield has told Congress he must have all of the 58 million restored, plus about 70 to 90 million above the amount he originally requested for the year ahead.

Unless he gets this, he said, he will have to make cuts in service starting on the first day of the new fiscal year, July 1.

Several senators said a supplemental bill will have to be passed containing many additional millions for the postal agency unless drastic service curtailments go into effect.

These senators said the extra funds to be voted later for the Postoffice Department may well wipe out the 80 millions in reductions for both the postoffice and treasury in the regular bill.

The treasury-post office measure was the first fiscal 1958 appropriations bill to pass the Senate. Final passage was by voice vote, with only Sen. Douglas (D-Ill.) opposed.

Infantry Units Sent to Border By Honduras

TEGUCIGALPA, Honduras, (AP)—Honduras moved infantry and air force units back toward the Nicaraguan border Monday night after charging that Nicaragua broke the truce.

Foreign ministers of neighboring Central American countries went into urgent conference to try to head off new border fighting.

The Honduran Foreign Ministry charged a Nicaraguan patrol moved into Viasa Village after it was evacuated by Honduras troops.

The Honduran ruling military Junta quickly ordered its representative in Washington to the Organization of American States which arranged the truce over the weekend.

Both Nicaraguan and Honduran troops Monday began withdrawal from the disputed Mosquito Coast border area each country claims.

Argentina's representative on the OAS team in Argentina said in Managua he knew nothing of the alleged violation. He said an investigation was under way from that end.

Today Last Day For Withdrawals

Today is the last day to officially withdraw from school. Withdrawals will receive half their fees and will be given "N" grades if passing.

After today there will be no refunds for withdrawals and "I" grades will be given for passing work.

Johnson Criticizes Federal Spending

Colombia Returns to Normalcy

Promised Support Of New Regime

BOGOTA, Colombia (AP)—Colombians got back to work Monday, heartened by the overthrow of Gen. Gustavo Rojas Pinilla and looking to a brighter political future.

Banks, commercial houses and industries did business as usual on a nearly normal footing. Universities, emptied for days by a student strike against the dictator president's machinations to win a new four-year term, are to reopen today.

The decision of leaders of the nation's various parties to support the new government set up by the military junta, which ousted Rojas Friday, gave the people new confidence.

For the first time since 1939 liberals now have a share in running the country. The conservatives had been at the helm. The new cabinet, named Saturday night, includes five liberals, five conservatives and three military men.

The cabinet has promised a new president will be chosen in free elections next year. A free press is again guaranteed.

The arrest of Guillermo Leon Valencia, an anti-Rojas conservative presidential candidate,

GEN. PINILLA . . . resting in Spain . . .

touched off the strikes and riots that led to the downfall of Rojas, now in exile in Spain.

Valencia was arrested late last month for political activity in Cali, Colombia's fourth largest city and a major communications center.

Call was hardest hit in the bloodshed that attended the crisis. It counted 89 dead in last week's disorders. Sixty were students and others who fought the Rojas' troops and police. The rest, most of them lynched by mobs, were described as thugs hired by the Rojas regime.

Field Marshal Viscount Montgomery looks down the muzzle of an old Civil War cannon on the Gettysburg battlefield as he and President Eisenhower (looking on) toured the historical site. This was part of the Field Marshal's U. S. visit as guest of the President.

A workman drills on the fourth floor of Berkeley Hall as 50 new offices are being put in. The continuous noise of the workmen have forced many classes to be let out early.

30 Percent Banned Russian Secrecy Protested by U. S.

WASHINGTON (AP)—The United States prodded Russia again Monday to lift the veil of secrecy which bars 30 percent of the Soviet Union from travel by foreigners.

The gesture was made in a formal note of protest handed the Soviet Foreign Ministry in Moscow by the U.S. Embassy there.

The note complained that "road blocks and other forms of police action" interfered with travel by Americans in areas officially stamped as open by the Soviet government.

Since last July 1, the U.S. note said, American officials in Russia have been blocked in open zones on more than 36 occasions.

The note said this was done by declaring open areas temporarily closed, by denying travel facilities or restricting auto travel to a particular route, or by other means. The note contrasted this treatment with what the United States has been doing toward Russians in America.

It said that only twice have open areas in the United States been temporarily closed since last July 1. (No curbs on travel facilities and no special auto roadings have been imposed in the United States, it said.)

In 1953 the Russians placed "off limits" signs on 30 percent of their territory.

Two years later the State Department declared 27 percent of the United States out of bounds to Russians. The restricted area included parts of 39 states, mostly along the Mexican and Canadian borders.

The note pledged "the most stringent safety precautions." It said the tests will be held "without increasing world radiation to more than a small fraction of the level that could be considered biologically or medically harmful to the people of the world."

The Atomic Energy Commission meanwhile reported that the Nevada tests will produce less fallout than any previous tests.

Japan Considers Atom Tests Ban

UNITED NATIONS, N.Y. (AP)—Ambassador Koto Matsuzawa said Monday Japan is considering a proposal for a ban on nuclear weapons tests.

Matsuzawa, Japan's new permanent delegate to the UN, presented his credentials to Secretary General Dag Hammarskjöld and then talked briefly with reporters.

He indicated nothing concrete has been decided on Japan's nuclear ban strategy in the UN. Any proposal likely would be presented to the General Assembly next September.

Asks Ike For More Economy

Budget Speech Set for Tonight

WASHINGTON (AP)—Senate Democratic leader Lyndon B. Johnson of Texas said Monday the Republican administration has adopted a "revolving door philosophy" about government spending. He asked President Eisenhower to put a stop to it.

Johnson told the Senate that Eisenhower's continuing policies since 1953 have done little to reduce the federal deficit. He said the budget tonight at 8 o'clock will be a "budget of desperation."

Johnson is going to have to decide, Johnson said, whether he wants an economy administration or a spending administration.

The Democratic leader said that from the record of what he called conflicting statements by administration officials, "the conclusion has now been completely demonstrated."

Johnson said Secretary of the Treasury Humphreys was for cuts in the President's \$71,800,000,000 spending budget, and Vice President Nixon was not. He quoted the President as saying on Jan. 24 that Congress has "the duty to cut the budget," and on April 3 that no substantial reductions could be made.

Subsequently, Johnson went on, Presidential Assistant Secretary Adams had said the budget could stand reductions of up to two billion dollars. Republican Senator Knowland of California said Johnson had urged cuts of three billion dollars or more. All except Johnson's test, but Johnson's "evolution" had had a new twist.

Earlier Knowland had said reports he didn't regard Adams' statements as indicating there was any "basic change in White House policy on the budget," Johnson suggested, however, that perhaps Adams was "forecasting the shape of the President's speech."

"It is understandable why even the members of the President's official family are somewhat confused."

Johnson said he recognized that times and business strategy and I am not going to criticize an administration because it missed by nearly 12 billion dollars a goal that was set four years ago."

Johnson said Congress will listen to the President's address in the hope that it will settle once and for all just exactly what the administration is recommending.

Beck's Friends Implicated

Toy Deals Yield Profit From Union

Counsel Kennedy Makes Assertion

Washington, (AP) — The Senate Rackets Committee received evidence Monday that Dave Beck's relatives and friends made a profit of \$180,000 selling toy trucks and other merchandise to the Teamsters Union.

There was also testimony from Roy Fruehauf, a Detroit trailer manufacturer, that his company provided an automobile and chauffeur to Beck's niece and three girl friends around Europe last summer.

The committee was told that Beck, millionaire president of the Teamsters Union, got a \$200,000 loan from Detroit industrialists at a time when he needed money to cover alleged withdrawals from the Union treasury.

This assertion came from Robert F. Kennedy, committee counsel, who said the loan was negotiated in 1954 when Beck was being pressed by federal income tax investigators for an explanation of what he had done with money missing from the treasury of the Western Conference of Teamsters.

Caroline Bellino, the committee's accountant-investigator, said these men had an interest in the company:

Ray Beck Jr., Norman Gesser, a relative of the elder Beck, Nathan Shefferman, a Chicago labor adviser to employers and a friend of Beck, and Shefferman's son, Shelton.

Beck's data into the committee's record, Bellino said the men made a profit of \$24,000 selling the toy trucks to Teamsters locals all over the country at from \$15 to \$30 apiece. The rest of the profit, he said, was made selling furniture to the Union for its lavish new headquarters building here.

Bellino said none of the men set up any money for the toy truck deal. He reported Associated Transport, Inc., of New York and the Brown Equipment Co., a subsidiary, furnished \$15,000 to get the toys manufactured.

Bert M. Seymour, president of Associated Transport, testified during the hearing that he had been under the impression the toy trucks were to be given away free as a stunt to publicize the use of Union labels and popularize the use of trucks in interstate freight traffic.

Now that he has discovered the firm's money was used to make a profit for Beck's relatives and friends, Seymour said, he is having attorneys look into the situation to see whether legal action can be taken for recovery of the \$15,000.

Kennedy called Fruehauf, president of the Fruehauf Trailers Co. to testify about the 1954 loan to Beck.

Fruehauf said his firm "indirectly" loaned \$175,000 to Beck, and that an additional \$25,000 was loaned to the Union president by the Brown Equipment Co.

On Budget and Taxes State Legislatures Keep Giving Advice

WASHINGTON (AP)—And still the advice to Congress rolls in.

Each mail brings a fresh batch of suggestions from constituents who know how the government should be run.

State legislatures, apparently having the local situations well in hand, graciously pass on tips so that congressmen also can get the job done. Almost every cog of the Congressional Record has several pages of advice to Congress.

Many of the suggestions deal with what appears to be two top questions of the day. How can the federal government save money? And can taxes be cut?

The Missouri Senate, for example, deals with both questions. It wants the federal government to cut down on its spending, right now, and it wants a cut in federal income, estate and gift taxes.

The Delaware Senate is again asking for a cut in federal income, estate and gift taxes. But, like many a less official adviser, this Senate also has a pet project it is pushing. It joined with the Delaware House to ask Congress to put up enough money to make "the Delaware River and the Chesapeake & Delaware Canal safe passage-ways for all ships."

Hawaii wants to be cut in on federal aid for its defense highways. Oklahoma wants all help possible given to the coal industry. Oregon wants immediate authorization and federal construction of Bully Creek Dam and Reservoir.

But not all these memorials to Congress directly involve money. Nebraska wants Alaska and Hawaii admitted into the union — this year, too.

Florida wants "the President and the Congress of the United States to declare the United States Supreme Court decisions usurping the powers reserved to the states and relating to education, labor, criminal procedure, treason and subversion to be null, void and of no effect, etc."

North Dakota has an unusual complaint in telling Congress to be wary of Federal aid to education.

Its State Senate says that because South Dakota has fought Federal aid "national groups have intentionally and knowingly issued reports containing absolutely false misstatements and discolored facts and truth concerning this state's educational facilities and program in an insidious attempt to discredit, embarrass and belittle it and its citizens before the Congress of the United States and the people of this country."

Hagerty Comments On Speech

Press Secretary Interviewed on TV

WASHINGTON (AP)—White House Press Secretary James C. Hagerty said Monday night President Eisenhower's television and radio address on the budget will be "an attempt to straighten out" what Hagerty called "a bit of misinformation kicking around."

Commenting on the President's nationwide address scheduled for tonight, Hagerty said: "He (the President) would expect he would get support from everyone in this country — including members of Congress."

Hagerty said the President has no plans to travel "to take his program to the people." He said he could not say for sure whether the President would in the future ask for television and radio time to discuss administration proposals in addition to the scheduled speeches on the budget and foreign aid.

Hagerty was interviewed on a television program (ABC Press Conference).

The Press Secretary said that "an old newspaper man, I think the Secretary of State is perfectly correct in his judgment" on banning the entry of American newsmen into Communist China. He said the whole policy on newsmen going to Red China is under review by the President and the Secretary of State.

Hagerty said there was no truth in reports that he was planning to accept a position with a trade association.

Hagerty said he had a hunch the President's legislative program will come out "pretty well" in Congress, "but we'll wait till the end of the session to fix up the budget averages."

Dick DuBois of the Bronx, N.Y., and Charlene James of Santa Monica, Calif., were chosen the nation's most perfect physical specimens at the Mr. and Miss U.S.A. contest at Los Angeles. A panel of judges, led by actor Jacques Bergerac, made the selections.

General Dain Reveals: French Guided Missile Used By Israel in Sinai Campaign

BRIDGES, France, (AP) — A new French guided missile was tested in battle against Soviet-built tanks by Israel in the Sinai campaign last fall, it was disclosed Monday.

Gen. Noel Dain of the French Air Force declared the missile showed slow, heavy tanks are useless because now they cannot be destroyed.

The 12-pound conventional charge in this missile can destroy any tank or armored car, he told reporters inspecting the Sid Aviation Plant here. It has a range of 50 percent of hits.

The actual firing of the weapon, known as the S-S 10, was done by the Israeli army, informed sources said. The weapons, with instructors, had been supplied by the French.

The General admitted the missiles had been supplied to the Israelis but he declined to confirm they were used.

British Warn Soviet Fleet Growing Big

500 Submarines Now Completed

LONDON (AP) — The British government warned Monday that Russia now has the largest submarine fleet the world has ever known.

Christopher Soames, parliamentary secretary to the admiralty, told the House of Commons the Soviet Navy has 500 submarines in commission, over half of them built for long-range operations.

"This is the biggest submarine fleet the world has ever known and their production program is still in full swing," declared Soames. Sir Winston Churchill's son-in-law.

At a session May 10, 1956, the world's largest regular cruise ship, the *USS Alaska*, was launched in the Atlantic.

Soames said, however, it was not likely that NATO has every intention of mastering the Atlantic sea lanes.

A backbone of NATO would be the main elements of the Royal Navy which are committed to NATO in the event of global war, he said.

Soames spoke in debate on Navy estimates which provide for a fleet of mobile task groups relying on nuclear weapon-carrying aircraft for their punch.

The new state Navy will be a sharp and tempered weapon with fewer ships than the pre-war fleet but with more formidable fighting power, he said.

Four Die As Levee Collapses

LAMPASAS, Tex. (AP) — Shocked residents counted four dead and five million dollars' damage Monday from a 10-foot wall of water that crashed through a broken levee into this Central Texas town Sunday night.

Five persons still were unaccounted for and searchers probed debris fearing there may be more bodies.

The wall of water destroyed the business section of 15 establishments, damaged 150 homes, sweeping some of them away, and paralyzed this town of 4,689 persons 130 miles southwest of Fort Worth.

An estimated 750 persons were driven from their homes, more than 20 were hospitalized. Cars and houses stacked up on obstructions as the flood carried them down stream.

Rescue parties carrying food, water, coats, blankets, milk, and medicines streamed into Lampasas Monday. The city water supply was contaminated.

The water went down swiftly and skies cleared by noon.

Military from nearby air bases and F-1 Hood patrolled streets and helped in rescue.

State police and local officers provided organization, communications and help for refugees.

Editor Reports Russians Fear Prospect of War

STOCKHOLM, (AP) — Turner Colledge, managing editor of The New York Times, said Monday the Russian public is infused with a feeling of fear.

Even 10 and 12-year-olds are frightened of the prospect of war, Colledge observed.

A reporter asked whom the man-on-the-street seems to fear most Colledge said he imagined from his contacts that the people are afraid of the Americans and the Germans.

You get the impression that it is the Germans they are afraid of most," he commented.

Colledge has just left Russia, where he interviewed Nikita Khrushchev, Communist party boss.

Dressen Gains Office Job

WASHINGTON (AP)—Charles Dressen packed away his baseball uniform Monday in favor of a front office business suit. He accepted a job as assistant to the President of the Washington Senators.

Six days after he was named as field manager, Dressen took up the challenge of searching out new and improved talent for the club that hasn't finished in the American League first division since 1946.

Meeting one of Dressen's conditions, the club gave him a contract running through 1959. He said it will take that long to revitalize the back-batter Senators.

Dressen's salary in the newly created player-hunting post was not disclosed. He was drawing a reported \$15,000 a year as manager.

"I am satisfied," Dressen said.

"I think the contract is a very good one. I only hope I can give the club a push," Dressen said. "I think I can do them a lot of good."

Calvin Griffith, the Senators' President, handed out a statement saying Dressen will scour the country for ball players with special emphasis on the major league teams and minor league teams in the higher classification.

Dressen's work also will entail "negotiating for players through purchases, trades and other available means," the statement said.

Kennedy's Trouble Discovered

One of the mysteries of the year at Michigan State has been the collapse athletically of Henry Kennedy, a great distance runner who for the last several months has been just a shadow of his old self performance.

For example, he won the Big 10 team-mile championship in the spring of 1956, but in the month of last winter he finished 19th in a mile of 1:17. He also took home NCAA and Big 10 cross-country championships in last winter's season, the NCAA 5-mile and 10-mile titles.

But when the Kansas State meet early in the winter season he had been a bust. He failed to win a single point in the Big 10 indoor championships.

Now the reason has been discovered. A physical examination at the Olin Memorial Health Center this week disclosed that he has been suffering from an attack of infectious mononucleosis, a blood disturbance which greatly weakens a person. Usually it hits with sufficient severity to put people in bed with high fever and great weakness. But in Kennedy's case it was mild enough never to flatten him, but severe enough to keep him far sub-par physically.

The treatment, says Dr. Ferguson, is lots of rest, passage of time and heavy dosage of antibiotics.

Allowed 8

Roberts Leads NL Home Run Hurlers

NEW YORK (AP)—Robin Roberts of the Philadelphia Phillies, the Majors' perennial gopher ball leader, again has taken the National League lead in this baseball category. He has yielded eight home runs in 48 innings pitched.

Figures compiled by the Associated Press also revealed that Dave Sisler, Boston Red Sox' right-hander, has given up eight circuit clouts to pace the American League. Sisler has appeared in five games and worked 25 innings while compiling a 3-1 won-loss record.

Roberts set a big league record last year by permitting 46 gophers. It broke his own mark of 41 established in 1955. He also topped the major in 1954 with 33.

The 30-year-old right-hander has won two games and dropped four this year. He has been tagged for two homers by Hank Sauer of the New York Giants and one each by Ossie Virgil of the Giants, Gil Hodges, Gino Cimoli and Don Zimmer of Brooklyn. Dale Long of the Chicago Cubs and Lee Foydy of Pittsburgh.

Sisler's gophers were given up to Bill Skowron of the New York Yankees, 2 and Billy Martin, Enos Slaughter and Gil McDougald of the Yankees, Gus Zerebo and Harry Simpson of Kansas City and Eddie Yost of Washington, 1 apiece.

Right behind Roberts in the National League competition with six home-runners off come Bob Rush of Chicago, Don Newcombe of Brooklyn, Herman Wehner of St. Louis, Brooks Lawrence of Cincinnati, Bob Friend of Pittsburgh and Warren Spahn of Milwaukee.

Director Brown of Baltimore and Early Wynn of Cleveland are runners-up to Sisler in the American League, also with six. The records include Sunday's games.

Washington's Camillo Pascual, who put a new American League mark in the books last year by yielding 24 homers, has permitted only one in 1957. He was tagged by Ray Moore, Baltimore pitcher, on April 26.

The Cincinnati Redlegs' pitchers have allowed the most homers in the National League, 30.

Detroit Moves East for Boston Series

DETROIT (AP)—The Detroit Tigers left Monday night for their first long eastern trip with their roster pared to 26 players.

The actual roster maximum is 25 but the Tigers get an extra player for a month until Frank Bowling's service time expires. A player can be carried free for one year after returning from military duty.

Before leaving for Boston Manager Jack Tighe said he would bench Charlie Maxwell for the Red Sox series to give him a rest. Tighe said the Paw Paw slugger, batting only .257, has remained in a weakened condition after his siege with boils.

Jim Small and Karl Olson will alternate in Maxwell's left field spot.

Tighe also said he planned to revise his batting order, moving Reno Bertoia up from his No. 8 position. Bertoia is the league's third leading hitter with a .372 average.

Tighe didn't disclose just how his revised batting order will read, but Bertoia may find himself batting fifth behind Al Kaline.

Duke Maas will pitch the first of the three games in Boston, probably against big Frank Sullivan.

Pittsburgh follows with 23 and Milwaukee with 22.

Kansas City roundsmen top the American League in gopher balls with 22. Then comes Detroit with 20, Boston 19 and the Washington Senators 17.

A total of 207 homers have been hit in the Major Leagues this season—173 in the National and 134 in the American.

Wolverines Shut Out Tennis Team, 9-0

By BUCK JERZY

Michigan State's tennis team takes on Notre Dame today at 2 p.m. on the varsity courts after being shut out by Michigan Monday, 9-0.

The Wolverines, bidding for their third Big 10 crown, had little trouble in taking their 41st consecutive dual match. Michigan State was the last team to beat Michigan, and that was in 1954 with the Spartans winning, 8-1.

Big Barry MacKay took the No. 1 singles match but only after State's ace, Bill Bisard, put up a battle. MacKay, a member of the preliminary Davis Cup squad, defeated Bisard in the first set, 6-3.

MacKay let up a little in the second set and before he knew it, Bisard had a 6-1 victory. However, the Michigan ace came back strong in the third set to win, 6-1.

Utilizing his booming service and good net play, MacKay showed his true form that gave him the Big 10 singles title last year.

Michigan's Mark Jaffee took No. 2 singles from Capt. George Stepanovic in two straight sets. Jaffee, last year's No. 2 singles champion in the Western Conference, won 6-2, 6-2.

State's Mike Zarembo put on his best performance of the year, yet he still lost No. 3 singles to Capt. Don Potter of the Wolverines. Zarembo played well in taking the first set, 6-4, from Potter, who normally is Michigan's No. 2 man.

Potter, former Michigan Class A high school champ and No. 2 singles winner in the 1956 Big 10 meet, rallied to win the next two sets from Zarembo, 6-2, 6-2.

Jon Erickson, promising Michigan sophomore, took the No. 3 singles match from State's Ron Messall. Erickson won both sets, 6-1, 6-1.

In No. 5 singles, it was all Michigan again as little John Hatria blasted his way past Luis Vela, 6-1, 6-3.

Harris, the fourth Michigan netter to win a singles title in the Big 10 meet last year, will be one of two returning left-men to the Michigan squad next season. The other is Erickson. State, on the other hand, will only lose Stepanovic.

State's last hope for a singles victory was in the No. 6 position. After losing the first set, 7-5,

Wolverines Shut Out Tennis Team, 9-0

to Michigan's Dale Jensen, Foster Hoffman turned the tables on Jensen and won the second set, 6-4.

The third set developed into a seesaw battle, but the Michigan senior finally outlasted Hoffman, 8-6, to give the Wolverines a clean sweep in singles.

In doubles, Michigan took all three matches. MacKay and Potter defeated Bisard and Zarembo in straight sets, 6-2, 6-4.

Bisard pulled a back muscle in the second set and will undergo treatment. He should be ready for today's match with Notre Dame.

Michigan's Jaffee and Erickson beat Stepanovic and Vela, 6-2, 8-6, to win No. 2 doubles.

Jensen and Harris made it 9-0 for Michigan with a 6-4, 6-1 win over State's No. 3 doubles team of Messall and Hoffman.

Against Notre Dame, the Spartans will be facing a team that also got beat by the Wolverines. However, the Irish managed to win No. 4 singles and No. 1 doubles from Michigan.

The Spartans now have a 3-3 dual meet record and are 1-3 in Big 10 play. Besides, Notre Dame, Michigan State has matches scheduled with Detroit, Iowa and Wisconsin before the Western Conference championships May 23-25 in Evanston, Illinois.

MIKE ZAREMBA

Wakulsky Led Way

Golfers Come Through, Beat U of M, 26 1/2-9 1/2

The Spartan golfing team came through in a big test Monday to defeat the highly touted Michigan Wolverines, 26 1/2-9 1/2.

George Wakulsky led the Spartans to victory with a fine 2 under par 70-72, 142 score over the Lansing Country Club course.

Otto Schubel scored a 73-74 for 147. Ken Rodewald had 71-77 for 148. Jim Sullivan hit 75-75 for 148. Bob Nodus had 75-74 for 149 and Arlin Dell hit 73-77 for 150. So far this season it was the best showing by the squad.

For Michigan Steve Uzelar led with a 72-76-168 score. Stan Kwashiborski was next with 71-76-150. Fred Michelow 73-74 for 151. Pat Keefe 80-75-153. Skip MacMichael 77-80-157, and John Law 81-80-161.

Capt. Ben Van Alstyne was very pleased with the triumph and stated, "The boys are beginning to jell in their game. In handling the Wolves this defeat the team can now prepare for a re-match meeting between the two teams at Detroit-Grosse Pointe Country Club this Saturday with Detroit making it a triangular meet."

Winning the match with Michigan placed the Spartans at an overall seasonal record of 6-6.

With one more meet, that being at Detroit Saturday, the golfers have risen out of their slump they have been in over the past two weeks.

Remembering the Michigan coach's remark at Ann Arbor before the quadrangular meet, the Spartans were out to prove they were not an easy opponent in the Big 10.

The coach stated, "It remains to be seen if MSU is up to playing in Big 10 competition. The match today will tell."

In that early meeting the Spartans played bad and loose but Monday's action was a reverse in form.

Michigan State's gymnastics coach, George Szypula, was selected Temple University's outstanding athlete in 1943 for his performance on the gymnastic team.

Has .411 Average

Power Challenging Williams For Lead in Batting Race

NEW YORK (AP)—Vic Power of Kansas City, who was hit on the head by a thrown ball in spring training and missed the first 10 days of the season, has come back with a bang and is challenging Ted Williams for the lead in the American League Batting race.

Power, 25-year-old first baseman, collected 15 hits in 32 times at bat in last week's games (a .469 pace) to boost his average to .411. He's in second place, nine points behind Williams. The Boston Red Sox' slugger had seven safeties in 18 trips and dropped 11 points to 420.

In the National League, Cincinnati's Frank Robinson, last season's rookie-of-the-year, moved into the lead with a .396 mark. Robinson, in fifth place a week ago, climbed 39 points with an 11-for-21 performance (.524).

Don Hoak, another member of the streaking Redlegs, moved up to the runnerup position at .382. He's followed by Hank Aaron of Milwaukee with .378. Stan Musial of St. Louis with .370 and Dick Groat of Pittsburgh, .365.

Aaron dropped 35 points last week with 9-for-31 while Musial, the circuit's six-time batting king, fell 36 points with 6-for-22.

Power was struck on the head by a thrown ball April 12 in an exhibition game against Brooklyn.

The 6-foot, 190 pound native of Puerto Rico is in his fourth big league season. He's a former New York Yankees farmhand who came to the Athletics in an 11-player deal Dec. 16, 1953. Power batted .309 in 127 games in 1956 and shows a lifetime big league mark of .297.

Irish Top Kobsmen, 3-1

Warner Collects 1 RBI, 2 Hits

Buchnowski Wins On Eight Safeties

By MARY HUFF

Notre Dame hurler Tom Buchnowski held the Spartans to eight scattered hits as the Irish defeated MSU, 3-1, at Old College Field Monday.

The game saw some spectacular hitting plays on the part of both teams, as real electric catches related two batters of home runs. In the top of the fifth, State's Dean Moore leaned over backwards into the four-foot high snow fence that runs left hand to pull down Bob Senecal's long fly.

Then in MSU's half of the frame, Ted Kearly was robbed of a well-hit single as Bob Giarrantano made a brilliant running catch of the ball in right field. Giarrantano was in the spotlight again in the final inning as he leaped to the top of the high right field fence to grab Moore's river-bound fly ball.

Again it was lack of hitting in the clutch, plus some second base running, as termed by Coach John Kobs, that was blamed for the loss. Starter Bill Mills, whose season record now stands at two wins against a single defeat, allowed only eight hits and one earned run in complete innings, and Bill Mansfield hurled the final two frames, retiring all six men to face him in order.

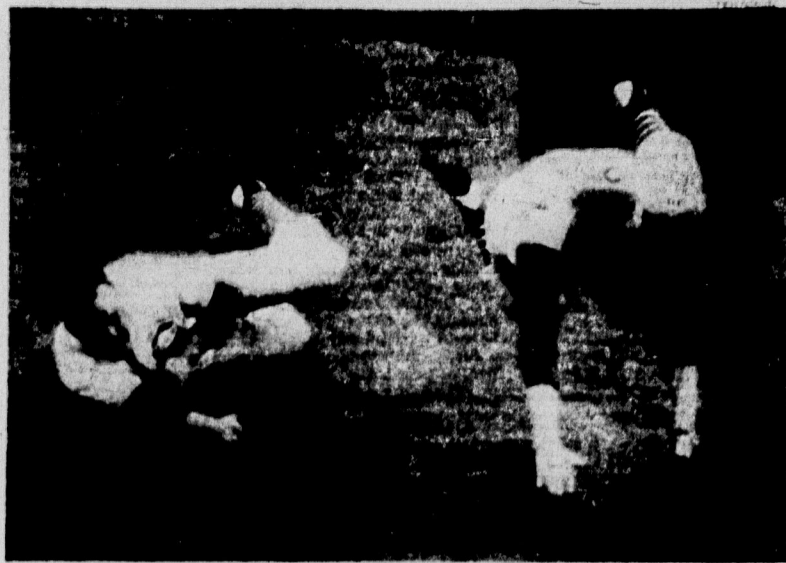

The Kobsmen collected their one tally in the seventh, as Dean Moore got on base with a single to right, was advanced to third on Pennis Menzies's sacrifice, and finally came across the plate on Gary Warner's base hit.

The rally ended as Korsek was tagged at the plate attempting to score on the same play. The Spartans had several other scoring opportunities, but left seven men stranded on the bases.

The Irish scored a run apiece in each of the first three innings to second for their three markmen. Jim Casack, Elmer Koberst and Steve Johnson each had one RBI for Notre Dame.

Agabashian Predicts Speedway Record

INDIANAPOLIS, (AP) — Fred Agabashian, who has started 10 straight years in the 300-mile auto race and is still trying to win it for the first time, predicted Monday a new non-competitive record will be set Saturday at the Indianapolis Motor Speedway.

Cincinnati Redlegs shortstop Roy McMillan, right, is upended by sliding Chicago Cubs left fielder Jim Bolger as Bolger is forced at second base in the second inning of first game of a double header at Wrigley Field in Chicago, May 12. McMillan, in spite of his awkward position, gets off throw to first base in time to double catcher Cal Neeman, who started the play with a grounder to pitcher Hal Jeffcoat.

Abernathy Pitches Senators To 5-2 Win Over Boston

BOSTON (AP) — Ted Abernathy sidetracked Boston into four hits, 5-3 submission Monday night while Washington teammate Herb Plews continued to taunt the Red Sox with his bat.

After Billy Klaus homered to right field at the second man to face him, Abernathy was superb until the eighth inning.

The 215 pound 6-4 righthander did not permit a man on first base and surrendered only one hit — Dick Gerrett's infield single off his leg in the fourth — in the interim.

Boston broke through for two runs in the eighth on pinchhitter Billy Goodman's walk, Jim Piersall's single, Ted Williams' infield out and Gerrett's triple to center.

However, Abernathy landed slugger Jackie Jensen on a sweeping curve to end the uprising after falling behind 3-0 on the Sox righthander.

In the ninth Abernathy struck out Ted Lepore and Sammy White to wrap up his first victory after three setbacks this season. The triumph was only his seventh in 22 major league decisions.

A Fenway Park gathering of 21,835 watched second baseman Plews drive in two runs and score two.

IM Hi-Lights

Tennis matches for Dorm and Fraternities will resume today at 5.

Prattling for Dormitory and Fraternities will be available this afternoon in the IM office.

All University golf tournament is to start today at Greenback. Each contestant is to play 18 holes. The tournament ends May 27.

Hole-in-One tournament will be held on Old College Field Saturday, May 18 at 10:00 a.m. Each contestant will shoot from 70 yards, using any club he desires. The shot nearest the pin will be counted. The list office will furnish some clubs.

Second round tennis matches are to be played by Thursday. Any not played by this date will be considered forfeit. Horse shoes can be checked out at the IM office.

Reay Named Maple Leafs' New Coach

TORONTO, (AP) — Bill Reay, who coached Rochester of the American Hockey League last year, was named coach of the Toronto Maple Leafs Monday to succeed Hokey Meeker, who was elevated to manager.

The change was one of the first made by Connie Smythe, longtime President of the Leafs who promised his successors a "working organization" before retiring next Sept. 1.

Meeker's duties as Manager will require him to serve as intermediary between the coach and the Maple Leaf owners. He will set policy, assign players and supervise the club's farm system.

Reay, 39, was an outstanding center before he got into the coaching phase of the business last year when he piloted the Rochester Americans into the AHL playoff final against the Cleveland Barons, who won it.

He broke into the professional hockey with Omaha of the American Hockey League in 1939 and after two seasons, moved to the Detroit Red Wings of the NHL for the 1943-44 and 1944-45 seasons.

Reay went to Montreal the next season, remaining there until 1952. He was one of the top ten scorers in the league in 1948-49. In 1954-55, he played for the Victoria Cougars of the Western Hockey League.

Gen. Duke Withdrawn From Preakness Race

BALTIMORE (AP) — Gen. Duke pulled up lame after a workout at Pimlico Monday and was declared out of Saturday's \$100,000 Preakness.

The Calumet colt, owned and bred by Thomas D. Jones in the first year of his career, had finished second in the Derby and was expected to be in one of the top spots in the Preakness.

But he began favoring the injured foot, and before leaving the track and 30 minutes later could not step on it without obvious pain.

"You can tell the boys in the press box," said Jones, "the Gen. Duke is definitely out of the Preakness."

Before the workout Jones had said the colt, throughout rated by handlers as even better than stablemate Kentucky Derby winner Iron Liege took a morning gallop without evidence of pain.

"I turned the foot and even pinched it with a pair of pliers, and it didn't seem to bother him a bit," said the Calumet trainer. "In the morning we just let him gallop a little and he seemed to want to put some pressure on it."

In the mile workout Monday afternoon the Duke ran easily with the Seven for regular exercise boys at the track. But within a matter of minutes it became apparent that he would not go in Saturday's race because of the same injury which caused his withdrawal from the Kentucky Derby.

After Gen. Duke's test he began the first and second races. Iron Liege followed with a striking workout. With Jersey Capper, C. J. Hall, and other boys more than talking to him, he breezed a mile in 1:37 1/2.

These men all play key roles in the current Civil Rights Bill under discussion. All senators, they are (reading from upper left and clockwise) Lyndon B. Johnson (Texas), Sam J. Ervin, Jr. (North Carolina), Alexander Wiley (Wisconsin), and Thomas C. Hennings, Jr. (Missouri).

House Makes Progress Civil Rights Action Delayed in Senate

WASHINGTON (AP) — The House today passed a civil rights bill, but again got nowhere in the Senate.

The House Rules committee passed a vote reported to have been 8-4 to pass a vote May 21 on sending the legislation to the floor.

In the Senate, Southern opponents of the bill prevented any action by the Judiciary Committee and rebuffed a proposal by Sen. Hennings, D-Mo., to take a decisive vote by Thursday.

The South is still in control, the bill, which passed the House last year but died in the Senate, is aimed primarily at alleged violations of Negroes' rights in the South, including voting rights.

Russia

(Continued from Page 1)

But at that time the Department suggested it would reconsider whether the world situation was such that the Russians were willing to lift their own travel ban.

This point was raised again in Monday's note, which quoted the 1953 suggestion that:

"If the Soviet Union should conclude that the international situation were such that security requirements enabled it to liberalize its regulations restricting the travel of United States citizens in the Soviet Union, the United States government would in turn be disposed to reconsider in the same spirit its own security requirements."

About 400 Russians live in the United States. These include 200 at the Embassy in Washington, 150 with the Soviet United Nations delegations at New York, their dependents and a couple of dozen news and trade personnel.

About 150 Americans are in Moscow, including 125 at the Embassy and the rest dependents and news correspondents.

Chessman Has Case Argued

Terrorist's 9-Year Battle Reaches Supreme Court

WASHINGTON (AP) — The fate of Caryl Chessman, California sex terrorist and prison author, was placed in the hands of the Supreme Court Monday as a climax to his nine-year battle to escape the gas chamber.

The court heard 2 1/2 hours of argument centering on the accuracy and legality of a transcript of Chessman's 1948 trial.

The transcript was prepared by stenographer Stanley Fraser from notes taken by court reporter Ernest B. Perry, who died before he could transcript all of his notes.

Chessman's attorney, George T. Davis, argued that Fraser's version of Perry's notes omitted "snide" and "prejudicial remarks Davis said were made during the trial by Judge Charles W. Efricke and Prosecutor J. Miller Leavy.

Davis branded the transcript as "fraudulent," saying it had been prepared through a "corrupt arrangement" since Fraser and Leavy were relatives by marriage.

Chessman's attorney also contended that his client's rights were violated because Chessman was not permitted to attend the court hearing at which Fraser's transcript was studied and made legal. Now, Davis said, was Chessman at any time informed he should have an attorney at the hearings.

William M. Bennett, deputy attorney general for California, told the court that Fraser's accuracy as a reporter had been established. He said Fraser was chosen for the job not because of his relationship to the prosecutor but because Fraser and Perry had long worked together and used the same old Pitman system of shorthand.

Chessman was convicted on 17 counts, receiving two sentences for kidnaping and attempted rape in Los Angeles, and a 1948 California "Little Lindbergh Law" under which he was sentenced to make kidnaping a capital offense if the person abducted suffers bodily harm.

House OK's Vets Increase

WASHINGTON (AP) — The House passed by unanimous vote today a bill raising by 10 percent compensation payments of war veterans suffering service-connected disabilities.

The legislation, similar to a measure passed by the House last year, would boost by 10 percent compensation payments for total disabilities rated less than total. The rate for total disability would be increased from \$181 to \$225 monthly, or about 24 percent.

The bill also would increase by 10 percent the allowances for dependents for disabled veterans.

Coal Sernauded At Olin Hospital

Paul Leavenworth, Grand Rapids Junior, and his Delta Tau Delta fraternity brothers serenaded convalescing Kathy Taft, Coral Gables, Fla., freshman, Monday night at Olin Center hospital. An illness is forcing Miss Taft to leave school.

Answering the serenade were Miss Taft's Alpha Delta Pi sorority sisters.

This is the first time a serenade has been held at Olin, according to hospital officials.

101 Landed Safely As Engine Fails

MIAMI, Fla. (AP) — Pan American World Airways reported Monday that one of its Clippers carrying 101 passengers from San Juan, Puerto Rico, to New York made an emergency landing Monday at Bermuda.

The plane, a DC-6, developed engine trouble and went into Bermuda with one of its four engines dead. The landing, FAA said, was "uneventful."

A Coast Guard plane was dispatched to Bermuda when the plane reported it was in trouble and accompanied the liner to the landing.

Saud, Faisal, Nuri Confer About Iraqi-Saudi Relations

BAGHDAD, Iraq (AP) — King Saud of Saudi Arabia conferred Monday with King Faisal and Premier Nuri Sa'ad in talks described as cementing Iraqi-Saudi relations.

Both countries are strongly anti-Communist and there were repeated reports they will be joined later in the week by King Hussein of Jordan, victor over Red elements in his kingdom.

There was still a difference of opinion here whether Hussein would come, however.

A diplomatic source said the meeting was set for Thursday, to be held at Habbaniyah, site of a British military base 45 miles west of Baghdad.

If Hussein does join his kingly Cousin Faisal and Saud, it would be the first joint talks since young Hussein ousted Leftist and pro-Egyptian elements from control of the Jordan government.

There were reports Saud was trying to smooth relations between Iraq and Egypt.

Nominally an ally of Syria and Egypt, Saud joined Faisal last month in backing Hussein against Communist and pro-Egyptian extremists.
