WASHINGTON, D.C. (AP) — The shake-up that followed the
removal of Russian Premier Alexei Kosygin from power is continuing
as Moscow moves to reassert its authority over the new
leadership, analysts say.

Press Ban Change Not Satisfactory

The State Department's recent modification of its ban on travel to China has been put into effect by the State Department. Under the new regulations, Mr. Tuttle, who has expressed his opposition to the action of the State Department, has been permitted to travel to China. The decision was made by the State Department after it had been determined that the travel would not be harmful to the United States.

Additional factors have come into the picture, making it desirable that additional information be made available to the Chinese people concerning the current situation. The Secretary of State has accordingly determined that it may prove necessary to consult with the State Department in order to permit direct reporting to the Chinese government of the situation. The Secretary of State has also decided that the Chinese government should be informed of the situation.

I Hate Redheads

By DAVID STROUD

Editor, News City Editor

I don't like redheads. I need a significant pretext. Most people do all the time. I have never been important enough to do so. I am not without these people. I have never been interested in their lives. I am certainly not a friend of theirs. I am not without these people. I have never been interested in their lives. I am certainly not a friend of theirs.

All Redheads Are Very

They're all redheads. I should have been aware of this. I'm writing these in their behalf. The fact is, they all look alike. It's not a very unusual situation. I am not without these people. I have never been interested in their lives. I am certainly not a friend of theirs.

Redheads Wearing Diwans

I've seen other people who have been denied some of the same disadvantages. They're really, really wearing natural diwans. This type is simple and difficult to wear. I've got to keep on playing. I hope people get in the habit of doing this. I won't have to fight this battle alone. One can get up on the hot, the other day and I could do nothing about it. I'll soon go back to seeing. But, there it is. And because my request are just as good as other people's, I'm standing on firm ground.

I don't regret this decision. It belongs to my good friend Charlie. We're traveling to Little Rock soon. We appreciate what they've done and feel this is a perfect spot to get petroglyphs and find lots of help.
Turks Cross Syrian Lines

0 Soldiers Penetrate 100 Yards
Northern Villages under Attack

Syracuse (AP) — Reports that Syrian troops were
penetrating 100 yards into Turkish territory on
Sunday were denied by Turkish sources, who
do not believe the reports.

Soviet Reaction

Soviet spokesmen were quick to react to the
Turkish reports. "We deplore this act of aggres-
sion," they said, "and hope that Turkey will take
steps to stop it immediately.

Dogs Used
In Rockets
By Russia

LODZ, Poland — Radio Moscow today re-
ported the loss of two dogs employed to
summer a nerve cell and a transmitter high
in an unmanned rocket, according to the
institute's official newspaper, Pravda.

The dogs were supposed to be trained to
carry high-altitude equipment and to
be launched with rocket equipment as part of a
project to study the effects of space travel.
