## NEWS IN BRIEF

### Air Force Fires Secret Test Rocket

CAPE CANAVERAL, Fla. (AP)—A new, highly secret test rocket bearing a gray smoke trail roared aloft Monday on its first launch. The Air Force declined to comment on the "mystery" missile other than to confirm that it was fired. Sources said it was a two-stage solid fuel test vehicle developed by McDonnell Aircraft. The rocket shot up with lightning speed from a launching site near the Thor IRBM area and disappeared in the second sky in seconds.

### U.S. to Put off Stand on Space Laws

WASHINGTON (AP)—Loftis Becker, legal adviser for the State Department, says the United States has decided to wait for more facts about outer space before taking a stand on laws applying to space. "There is much more to learn before we can make a position to say what shall be the general legal principles governing the law of space."

### Soviets Charge U.S. Exploits Loss

MOSCOW (AP)—The Soviet Union charged Monday that the U.S. government was exploiting the loss of a U.S. transport plane found in the Russian border in order to fan an anti-Soviet campaign at home and keep up the cold war abroad. An official Tass news agency statement again denied U.S. charges that Soviet jet fighters shot down the unarmed transport last Sept. 3 near the border between Turkey and Soviet Armenia, with a loss of possibly 17 lives.

### Senators Pray for Dulles' Recovery

WASHINGTON (AP)—A top specialist in cancer research was summoned Monday to consult on Secretary of State Dulles' illness. At the Capitol senators joined in silent prayer for his recovery. Maj. Gen. Leonard Heaton, hospital confidant who performed Friday surgery, said Dulles' condition "remains satisfactory." According to the information from Heaton, State Department Press Officer Latham White said radiation treatment for Dulles' glioblastoma cancer in the abdomen is expected to begin this week.

### Army Launches Redstone Missile

WASHINGTON (AP)—The army Monday launched a Redstone missile under field conditions—just as it would in wartime. At the White Sands, N.M., missile range, the 20-mile range ballistic missile, now technically deployed in the hands of North Atlantic Treaty forces in Europe, was fired at less than its full range. The goal of the usual prepared launching setup used in testing, the missile was assembled and fired under simulated tactical conditions. The battery's platoon commander triggered the launching from a hand type control panel.

### House of Commons Approves Malta Bill

LONDON (AP)—The House of Commons Monday night gave final approval to a bill revoking Malta's constitution and placing the island under direct rule of the British government. The bill was passed by a vote of 273-220. The bill goes into effect in April after routine approval by the House of Lords. Malta has been without an elected government since last April, when Prime Minister Dom Mintoff resigned. He had been seeking guarantees that the British would keep up employment at Malta's big British naval base. When he failed to receive them, he demanded independence for Malta.

### Castro Delegates Return to Cuba

MEXICO CITY (AP)—A Cuban delegation touring Latin America to explain the policies of the Castro government wound up its campaign here Monday and left today for Panama. It failed to make any noticeable dent in Mexican editorial opinion. On a five-day stay, the group tried to convince the press, public and officials that the Castro revolution was Cuba's salvation. Editorial reaction was almost solidly unfavorable.

### 'Board of Trustees'

## Ag Board Name Change Introduced in Legislature

A proposal to change the name of the State Board of Agriculture, MSU's governing body, was introduced in the state Legislature last week.

### Accountants Need Drive, Enthusiasm

"The major asset of a student who hopes to be an accountant is drive and enthusiasm during his first post-graduate years,"

Wm. Paulus, of Dow Chemical Co. accountant, said that professors do a good job preparing the student technically.

"You have to decide early in life what kind of a work you want to do," he said. "Some people think that accounting is dull work. But it has its own rewards. There are good surroundings and people with the same 'passion'."

He stressed the importance of communication, an "under-rated qualification," in accounting.

"It is also important to have an orderly mind, but also to be quick-witted at times and always flexible."

### LC Tickets Ready

Tickets for Leon Fleisher, concert pianist presented by the lecture-concert series February 23, will be ready for distribution starting at 9 a.m. in the Union Student Center.

# Cagers Edge Wildcats, 71-68

## 210 Pints of Blood Donated First Day

First Ten Prize Winners, Percentages Announced

Winter term's blood drive opened Monday with a total of 210 pints donated.

Winners of Monday's prize were: Al Grimes, Rocky River, 100 pints; John Weller, Lansing sophomore, No. 6000; Nancy Macklin, No. 6001; Jack Weller, No. 6012; Margaret Westphal, Lakeville sophomore, No. 6003.

Rodney Cross, Benton Harbor senior, Barbara Benedict, Hillsdale sophomore, No. 6002; Bud Gross, Detroit senior, No. 6009; Barbara Teel, Grand Ledge freshman, No. 6005; Kenard Kenworthy, Battle Creek senior, No. 6001.

The winners will receive prizes from the Pizza Pit Cafeteria, One Hour Mart, and the Buffalo Theater.

Winners can pick up their prizes on presentation of the blood drive card at the desk in the Union Tower Room. All prizes must be claimed by Monday at 4 p.m.

There will be a plaque presented to every dormitory, sorority or fraternity that reaches 100 percent.

In addition, the Women's Hall Assn. trophy will go to the dormitory with the highest percentage and the Phi Delta Theta traveling trophy will be shared by all fraternities that reach 100 percent.

### Confirm Entries

All Spartans unit chairmen must confirm their entries and programs in 323 Student Services between 4-5 p.m. today. This is the last opportunity to confirm entries.

### Includes Conference Rooms, Offices

## Kellogg Addition to Open in Spring

According to H. R. Neville, Director of Continuing Education, the new addition to Kellogg will be completed in April. Adding to the present facilities, the new wing will be better able to permit the educational conference program to serve the needs of Michigan.

The new addition, to the south of the present structure, will include ten conference rooms, 30 additional offices and an enlargement of the present auditorium to make it similar to the setup of Fairchild and the Aud.

Each of the new meeting rooms will seat 35 people around conference tables or 50 people in theater style. Six of the new rooms will be separated by fold-down partitions so they can be converted into three larger rooms. This feature will make it possible for MSU to be flexible in designing education courses.

Some of the other new offices will be used by present Continuing Education departments as space readjustments are made. Many of the people employed in the university conferences department and the Labor and Industrial Relations Center are crowded now with three and four people working in small rooms.

A revolving library, coordinated with the MSU library, will be established to fit the needs of the groups scheduled for conferences. Thus when the first group, the Michigan Rural Health Conference, meets on April 8-9, books pertaining to their interests will be found on the Kellogg library shelves.

One of the attractions of the new overall building will be a patio located in the center of the connection between the new wing and Kellogg. The patio will contain a small formal garden and will make it possible

JANE CSITELI, of Lansing, offers both encouragement and assistance to Arnold Ruben, Newton, Mass., senior, as he joins the 219 students who gave blood yesterday in the winter blood drive which began Monday and continues through Friday.

### Few Issues Discussed

## Roundtable Discussion Centers on High Schools

By BILL CALLAHAN

State News Editor-in-Chief

In his introductory remarks to new members of Spartan Roundtable, Monday night, James Denison, assistant to the president, said there has been a common complaint recently about lack of communication between students and the administration.

"This is it," Denison said, "and you have anything on your mind, land up and say it."

Yet after the meeting, President John A. Hannah remarked that few controversial issues had been discussed.

"Perhaps you are only saying what you think we want to hear," Dr. Hannah said. This has been suggested during the discussion by one of the student present.

Hannah led off the discussion with a question which during the after-dinner conference.

"Why is it that high school students seem to be less interested in coming to MSU than they have been in the past?" he asked.

Many solutions were offered by students. One said that perhaps it is due to a tendency of high school teachers to favor I of M over MSU.

He, along with several others, suggested that MSU students should go to talk with high school students.

Another student said the problem is caused by thinking that other schools are more intelligent and suggested more student-faculty contact on an informal basis.

When one student said that he did not think students have the pride in the university that they should have and that this might be caused by an outstanding number of "mid-Victorian"

ideas, Hannah asked for specific reasons.

The student replied that there are no many rules that "bind" the students' integrity.

"The administration seems to assume that without these rule books, we are going to perform as well as we can," he said.

At this point another member of the group suggested "perhaps" haven't been saying what we want to say — maybe we have only been saying what you want to hear."

After the discussion of the high school issue closed, a student raised a question about co-curricular regulations.

He said that between term, students are subject to harsh regulations, but are not eligible for treatment at Olin Health Center.

The Student-Faculty Motion Picture Committee says we are not considered students by the Health Center, he said.

Hannah said he would look into the situation and promise to resolve the contradiction.

If you are students between terms for one purpose, you should be for others," Hannah said.

When asked why the age limit for unapproved housing was raised from 21 to 22 last spring, Dean King replied that the original change, from 24 to 21, had been made on a trial basis but there had been too many violations last year.

"We will look over the statistics this spring and if they are good we will leave the limit at 21," King said.

Hannah was then asked if it could be possible to schedule commencement after final exams this year.

This is in the hands of the commencement committee, Hannah said. He suggested that it be up with the committee and the senior class officers.

Students wishing to take part in the MSU cheering section at Saturday's basketball game against Purdue should pick up their tickets at the Spartan Spirit Office, 323 Student Services. Only a limited number of 300 tickets are available, according to Jim Baber, assistant director of Spartan Spirit.

## Anderegg's 18 Points Lead Way

Fabs Nets Crucial Last Ditch Tallies

By CHUCK RICHARDS

A little 5' 9" guard out-one players a foot taller to give Michigan State the commanding Big 10 lead it has ever experienced, Monday night.

Dave Faber, a sophomore substitute guard, put in the shot when it counted to give the Spartans a crucial 71-68 victory over Northwestern at Evanston.

With 2:18 left to play and Northwestern leading 66-65, the Spartans took a long 30-footer and missed the shot to give the Spartans a one-point lead which sealed the difference.

Bob Anderegg, who had only 10 points from the foul line all that point, added two free throws to put it on ice with 30 seconds left on the clock.

With the partisan Wildcats fans cheering for a basket, Jim Ruck put one in to pull his team's lead within one point, 69-68, 10 seconds ticked away.

But Michigan State came storming back and Lance Olson was belted by Nick Mantle as he tried to drive in for a layup with :02 left.

Olson received treatment from trainer, Gayle Robinson, and stepped to the foul line and sank a pair of free throws to end the game.

A desperation Northwestern attempt went awry as the Wildcats rebounded to end the game.

As a result of the see-saw affair which saw the lead change hands repeatedly, MSU's 30-point lead over second-place Indiana which lost to Purdue, 1-83.

Michigan dumped Iowa 90-84, at Illinois blazed Wisconsin, 83-54.

Before the Spartans met Northwestern, Coach Fordy Anderson called the Wildcats the best team we have played all season.

But four players put in double digits to make sure Northwestern would not spoil the Spartans' bid for a Big 10 championship.

Bob Anderegg led the way with 18 points, followed by Olson with 16, Olson's 15, and Faber 11.

Olson's scoring role was perhaps the most lucrative.

The Spartans raced to an 11-0 lead before the Wildcats snapped the scoring famine. Ruck, who had 20 points, got hot and put his team into a 20-18 lead at one point.

The teams traded baskets until Anderegg and Walker hit the back ones to give State a 33-31 halftime margin.

Willie Jones (30 points for the night) took up the slack in the second half and finally pushed Northwestern back into the lead, 44-43. State captured the lead 45-44 on Olson's basket and he had changed hands down the wire.

But the Spartans had it when they needed it — and pulled over to their first undisputed Big 10 championship.

## IFC Begins Book Drive

Today is the beginning of IFC's campaign to regain all the books missing from the library during the past few years.

BLOB (Bring Lots of Books) will last indefinitely, as long as people keep returning books.

IFC personnel director Bill Durrell, chairman of the campaign, has announced the locations of the containers which are placed around campus in which students may drop library books.

Durrell commented that this will be an excellent opportunity to return the books, which are sorely needed.

# Virginia Community Ordered To Desegregate High School

BALTIMORE (AP) — Warren County, a community of some 100 Negroes in northern Virginia, was ordered by a top federal court judge to open its one high school to Negroes.

## Vivid Reply Given Dems By Benson

WASHINGTON (AP)—Secretary of Agriculture Benson, accused of handicapping the Republicans and aiding the farmers, gave voters a vivid, poetic reply Monday.

EZRA TAFT BENSON

He supports at levels that preserve and build markets. While the figure of speech was new, it was a familiar argument from the Salt Lake City man who has been President Eisenhower's No. 1 farm adviser from the start. His audience was the Senate Agriculture Committee.

Benson was before the committee in connection with discussions on what to do about new legislation in this new session of Congress. He said his argument has not drawn up a specific price support bill, but will do so if the committee wants.

The annoyed Chairman Allen (D-La.), who told Benson and the President are complainants. What we would like you to do is submit legislation you think would do it.

The nub of the problem is that we are growing more wheat than we can consume and sell. If we didn't grow one bushel of wheat in 1959, we still meet all our current needs—and still have a surplus on July 1, 1960, of 6 million bushels.

High School last spring. Their applications have made the full round of courts. Monday's decision by Chief Judge Simon Sobeloff of the U. S. Fourth Circuit Court of Appeals was, in essence, the final legal court.

William Phillips, attorney for the Warren County School Board, said he was confident that no more than 22 Negro students of a half-dozen or so white students would appear at the high school.

The people there don't want integration, Phillips said, and they're not going to have it.

It's not a question of integration of schools. It's not a question of integration of races. It's the integration of a school which is not a school.

Warren County was ordered last September to integrate its high school, with about 1,000 pupils. It appealed to Judge Sobeloff within a week to overrule the U. S. District Court's order. Sobeloff refused.

After Virginia's massive resistance law was declared invalid by both state and federal courts last fall, 19 attorneys for the 22 Negro students at Front Royal instituted federal court proceedings. Last week U. S. District Judge John Paul upheld the original integration order and Monday's decision by Judge Sobeloff upheld Judge Paul.

Within the state of Virginia, there have been five court cases which have fought integration.

Norfolk, Alexandria and Arlington have gone through the

same legal steps taken by Warren County, and have also been ordered to integrate their schools. All have, without particular incident.

Washington (AP)—President Eisenhower and Mexico's President Adolfo Lopez Mateos have no serious problems to discuss when they confer Thursday and Friday in Acapulco, Mexico.

In fact, the White House said Monday, Eisenhower's visit to the picturesque Pacific resort is regarded chiefly as a good will mission.

Eisenhower, scheduled to leave Washington Wednesday aboard the presidential plane Columbine III, will spend that night at the Bergstrom Air Force Base, Austin, Tex., and then fly to Acapulco the next morning.

Acapulco, a primitive fishing village 30 years ago and now one of the world's more elaborate seaside resorts, has more than 300 hotels. One, the Paraiso Marquies, will be Eisenhower's headquarters.

He and his party will stay in two clustered wings of the hotel. All of its accommodations are on a single floor. Lopez Mateos will stay in a separate wing.

The schedule calls for the two presidents to have informal talks aboard Lopez Mateos' yacht Thursday afternoon and further talks the next day after a luncheon in Eisenhower's hotel.

The Pajama Game will be presented at 8:15 p.m. Wednesday through Saturday evenings in the Studio Theater, 46 Aud. by the MSU Players.

Those students selected for the play will tour Michigan in the third week of the spring term. The tour is sponsored by the department of speech and the Cap and Gown series.

The cast for the Moliere comedy includes parts for three women and eight men. Tryouts are open to all regularly enrolled students of acceptable academic standing.

Students who wish to tryout will be expected to have read the Morris Bishop translation of the play. These copies are available in 42 Aud. for students to check-out for two days.

Also selected during tryouts will be the technical crew, who are limited to four by touring restrictions. Patton Lockwood, art student in theater, will be the director.

Management Society Hosts GM Director

T. F. Anderson, director of labor relations, General Motors Oldsmobile Division, will be a guest speaker at the Society for the Advancement of Management to be held Wednesday at 8:29 p.m. in 33 Union.

Anderson is the third in a series of speakers on the topic "Labor and Industrial Relations" sponsored by SAM.

## Number in Dormitories Declines by Over 1,000

MSU is faced with a serious housing problem. During the past two years there has been a sharp decline in the number of people living in residence halls. In the fall of 1956 there were 7,734 people living in the campus dormitories. Last fall the number dropped to 6,522.

A survey was taken last summer to determine why students returning to MSU do not return to the residence halls. The results of this survey have shed some light on the problem.

The main factors influencing their decisions not to live in the dormitories were study conditions, food, finances, and dormitory rules and regulations.

Approximately 78 percent of the students felt that off-campus housing is more conducive to study. They also pointed out that the residence halls were too expensive. Approximately 34 percent felt that off-campus housing offers a better opportunity for a well-balanced diet. Fewer and more lenient rules and regulations have drawn about 87 percent of the students off campus.

The survey also pointed out other important reasons for leaving. It was found that about 63 percent of the students felt that off-campus housing offers the greatest degree of self-expression. Approximately 54 percent felt that the business management of the dormitories was poor.

Almost half of the non-returning students expressed their belief that off-campus housing offers more opportunity for more and better social life.

The survey also revealed several deficiencies in the residence hall program. Half of those returning to the halls felt that the dormitories should contain more in the area of social skills. About 66 percent felt that academic skills should be improved and stressed.

Approximately 87 percent felt the halls because they felt that they were not allowed enough self-government.

# Gifted Child May Not Show Interest

Many gifted children may not show interest in the studies, an MSU educator indicated here Tuesday in an address before the American Education Research Assn.

"One reason for this," reports J. C. Grating Kemp of the Department of Communication, is that the student may be more interested in winning

teachers' favor instead of working in accordance with his own interests.

"All life grows from within. It is necessary for its own development," he said. "But in many classrooms the teacher demands that the student learn what the teacher thinks is best for him and in a way which he requires it to be done."

In such a situation the student more and more loses touch with his own thoughts and feeling and concentrates on understanding the demands of the teacher in order to be acceptable in his school society.

Instead of being motivated from within he is manipulated from without.

Kemp listed several alternatives which students follow when faced with doing tasks which adults consider proper and necessary.

The student may work on his tasks merely because he feels he should. He may develop a habitual or other automatic tendency and become direct in his movement. He may do only enough to get by or he may

work just to receive the adult's reward in the form of praise or recognition or good grades.

THE GIRL I LEFT BEHIND ME

It happens every day. A young man goes off to college leaving his hometown sweetheart with a heart of eternal love, and then he finds that he has forgotten her. What, in such cases, is the honorable thing to do?

Well, you can do what Rock did.

When Rock left out and about, he said to his sweetheart, a simple country lass named Tea d'Urberville. My dear, though I am far away in college, I will love you always. I will never look at another girl. If I do, may my eyelids parch and wither, may my powers wane, may my address may the moths eat my new tweed jacket!"

Then he clutched Tea to his bosom and planted a final kiss upon her fragrant young skull and went away, meaning with all his heart to be faithful.

But on the very first day of college he met a coed named Fata Morgana, a girl of such sophistication, such grace, such savoir-faire as Rock had never beheld. She spoke knowledge of Franz Kafka, she hummed Mozart, she smoked Marlboro, the cigarette with better "smoke." Now Rock didn't know Franz Kafka from Pinocchio, or Mozart from James K. Polk, but Marlboro he knew full well. He knew that anyone who smoked Marlboro was modern and advanced and so studied with brains as a ham with cloves. Good sense tells you that you can't beat Marlboro's new improved filter, and you never could beat Marlboro's fine flavor. The Rock knew.

So all day he followed Fata around campus and listened to her talk about Franz Kafka, and then in the evening he went back to the dormitory and found the letter from his home-town sweetheart Tea.

Dear Rock,

I've kids had a keen look yesterday. We went down to the pond and caught some frogs. I caught the most of anybody. Then we balanced rules on trucks and did lots of really stuff like that. Well, I must close now because I got to whitewash the fence.

Your friend,

Tea

P.S. I can do my Hula Hoop 5,000 times.

Well, we Rock thought about Tea and then he thought about Fata and then a great sadness fell upon him. Suddenly he knew he had outgrown young, innocent Tea, his heart now belonged to smart, sophisticated Fata.

Rock, being above all things honorable, returned forthwith to his home town and walked up to Tea and looked her in the eye and said humbly, "I do not love you any more. I love a girl named Fata Morgana. You can hit me in the stomach with all your might if you like."

That's okay, hey," said Tea smiling. "I don't love you either. I found a new toy."

What is his name?" asked Rock.

"Franz Kafka," said Tea.

"A splendid fellow," said Rock and shook Tea's hand and they have remained good friends to this day. In fact, Rock and Fata often double-date with Franz and Tea and have heaps of fun. Franz can do the Hula Hoop 6,000 times.

So all day he followed Fata around campus and listened to her talk about Franz Kafka, and then in the evening he went back to the dormitory and found the letter from his home-town sweetheart Tea.

Dear Rock,

I've kids had a keen look yesterday. We went down to the pond and caught some frogs. I caught the most of anybody. Then we balanced rules on trucks and did lots of really stuff like that. Well, I must close now because I got to whitewash the fence.

Your friend,

Tea

P.S. I can do my Hula Hoop 5,000 times.

Well, we Rock thought about Tea and then he thought about Fata and then a great sadness fell upon him. Suddenly he knew he had outgrown young, innocent Tea, his heart now belonged to smart, sophisticated Fata.

Rock, being above all things honorable, returned forthwith to his home town and walked up to Tea and looked her in the eye and said humbly, "I do not love you any more. I love a girl named Fata Morgana. You can hit me in the stomach with all your might if you like."

That's okay, hey," said Tea smiling. "I don't love you either. I found a new toy."

What is his name?" asked Rock.

"Franz Kafka," said Tea.

"A splendid fellow," said Rock and shook Tea's hand and they have remained good friends to this day. In fact, Rock and Fata often double-date with Franz and Tea and have heaps of fun. Franz can do the Hula Hoop 6,000 times.

**THE GIRL I LEFT BEHIND ME**  
It happens every day. A young man goes off to college leaving his hometown sweetheart with a heart of eternal love, and then he finds that he has forgotten her. What, in such cases, is the honorable thing to do?  
Well, you can do what Rock did.  
When Rock left out and about, he said to his sweetheart, a simple country lass named Tea d'Urberville. My dear, though I am far away in college, I will love you always. I will never look at another girl. If I do, may my eyelids parch and wither, may my powers wane, may my address may the moths eat my new tweed jacket!"  
Then he clutched Tea to his bosom and planted a final kiss upon her fragrant young skull and went away, meaning with all his heart to be faithful.  
But on the very first day of college he met a coed named Fata Morgana, a girl of such sophistication, such grace, such savoir-faire as Rock had never beheld. She spoke knowledge of Franz Kafka, she hummed Mozart, she smoked Marlboro, the cigarette with better "smoke." Now Rock didn't know Franz Kafka from Pinocchio, or Mozart from James K. Polk, but Marlboro he knew full well. He knew that anyone who smoked Marlboro was modern and advanced and so studied with brains as a ham with cloves. Good sense tells you that you can't beat Marlboro's new improved filter, and you never could beat Marlboro's fine flavor. The Rock knew.  
So all day he followed Fata around campus and listened to her talk about Franz Kafka, and then in the evening he went back to the dormitory and found the letter from his home-town sweetheart Tea.  
Dear Rock,  
I've kids had a keen look yesterday. We went down to the pond and caught some frogs. I caught the most of anybody. Then we balanced rules on trucks and did lots of really stuff like that. Well, I must close now because I got to whitewash the fence.

All's well that ends well—including Philip Morris. Philip Morris ends well and begins well and is made of superb natural tobacco by the same people who make Marlboro.

# Michigan State Ranked Ninth in Basketball Poll

By THE ASSOCIATED PRESS  
The Michigan State basketball team placed ninth in this week's AP poll as a result of the win over highly touted Michigan Tech. Spartans were ranked in 12th place last week.  
Mississippi State handed Kentucky its second defeat of the basketball season last week but it was North Carolina and Auburn who reaped the benefits in the national rankings.  
The 66-58 setback they took last Monday shook Kentucky's Wildcats loose from the hold they had taken on first place in

the Associated Press weekly ranking poll back in mid-January. North Carolina's Tar Heels moved up from second to first place and unbeaten Auburn, the only team to defeat Mississippi State this season, jumped from fourth to second. Kentucky landed in third place.  
Mississippi State, which went on to trounce Florida 105-68 in its second game of the week, climbed from tenth to fifth in

the ratings. Two weeks ago State was 11th. But the sports writers and broadcasters, who had been leery of going overboard on the Maroons because of their comparatively soft schedule, apparently were convinced by a 20-1 record and

## Icers Tie for First

Michigan State's hockey team is tied for first place in the Western Collegiate Hockey Association with Michigan Tech as a result of last week's play. Both teams have identical records of 7-4-1. Minnesota is third with a 9-5 record.

## Ski Squad Paced By Ross Hohn

Ross Hohn is a busy man winter term.  
When most students at Michigan State bemoan the oncoming winter weather, Hohn is happiest.  
But then, most avid skiers welcome the snow which throws open Michigan's numerous skiing resorts. The difference is that Hohn virtually lives for skiing.  
The 20-year-old junior spent last week, for instance, placing second in the Michigan Intercollegiate Ski association meet at Boyne Mountain.

Racing with Michigan State's team, which placed fifth among Michigan's colleges, he raced to seconds in both the downhill and slalom events.

Ted Nelson of Michigan Tech was the winner. Northern Michigan took team honors. Other finishers for State were Homer Greer (11th), Dan Perry (15th), and Dick Huey (18th).

Mary Ann Thompson's second-place finish paced the girls division of the team, sponsored by the intramural department.

Hohn made many arrangements for the trip to Boyne despite the fact that his term as president has expired.

The fact that he finished second in the meet is a testimony to his talent, considering the fact that he has skied only two or three times this winter.

Ross, a member of Sigma Alpha Epsilon fraternity, has been kept busy weekends working at Don Thomas Ski shop when he is not on the slopes.

Hohn and Huey, a member of the same fraternity, spent the summer in Chile, working as instructors in a ski lodge to pay their way. The old pals have been skiing since they were children.

second place in the Southeastern Conference standings.  
Only one of last week's top 10 teams retained the place it held in last week's ratings. That was eighth-place St. Louis, which gained second place in the Missouri Valley Conference during the week by knocking off Bradley. Michigan State, winner over well-regarded Michigan en route to the Big 10 title, regained a place in the top bracket at the expense of West Virginia.

## Swim Coach Praises Team

Speaking of MSU's loss this weekend to the Ohio State swimming team, Coach Charles McCaffree said, "Ohio State has their best day in two years and turned in performances we could not match with our young sophomore squad."

McCaffree called the races close, the times terrific. Michigan State did not have their best day of the season, he declared, and two or three close races decided the issue.

Credit went to the Spartan swimmer, who believes that Michigan State brings out the best in their opponents. "In every meet we have the opposition seems to swim their very best meets and times against us," McCaffree said.

Ohio State has yet to meet Indiana and Michigan, the first two teams in the Big 10. Ohio State is presently No. 3. MSU is rated No. 4 and Iowa No. 5.

The Big 10 Championships will be at MSU this year on March 5, 6, 7 in the new pool in the IM Building. McCaffree predicts that the swimming at that weekend should be the greatest ever seen in the conference and perhaps the nation.

## Play Vital Role 'Waldo' and 'Magoo' Backcourt Specialists

By LARRY WROBLEWSKI

"Waldo" and "Magoo" are fictional cartoon favorites of moviegoers.  
But to members of the MS basketball squad these names are nicknames of State backcourt corps of Lance Olson and Tom Rand, respectively.

The sparkling performance of these two guards has played a vital role in State's steady climb toward its first undisputed Big 10 championship.

Last year with Jack Quiggle Helms Foundation All-American and All-Big 10, graduated, Coach Fordy Anderson decided to team Rand and Olson. Rand gained starting stature in mid-season when Dave Scott was scholastically ineligible.

Pre-season critics, after examining the strength and weakness of the Spartans under the sportswriters' microscope, pointed to the lack of competent guards as a weakness.

As the season opened the play of both guards has directed the Spartan quintet to a present 12-3 overall mark and a 7-2 record. Olson is regarded as a fiery competitor, who like forward Bob Anderson, enjoys the play when it gets rough. Lance is an outstanding shooting artist who is averaging nearly 14 points per conference game.

Rand is a defensive specialist. Although his outside shooting carries him into double figures on occasions.

Off the court both players are close friends. Both came from the same city, Green Bay, Wis., but starred in cross-town high schools. Olson was an All-American high school grider at West High. Meanwhile, Rand was an all-conference selection while playing for East High.

Olson lacks the basketball finesse of stars like Cincinnati's Oscar Robertson and West Virginia's Jerry West, but he moves

his 6-4, 200-pound frame like a bruising fullback.  
Lance decided to make basketball his steady varsity sport in lieu of football. Certainly Coach Duffy Daugherty could have used a big end during last year's disastrous season.  
As a sophomore Olson became familiar with the Spartan offense by playing as the valuable sixth man alternating between guard and forward. He appeared in all the team's 22 games and posted a 4.8 points per game average.

## Swim Team To Enter AAU Meet

Six MSU coeds will journey to Long Beach, Calif. for spring vacation to compete in the Women's Senior Indoor National AAU Synchronized Swimming Meet.

Members of the swim team include Mary Jean Campbell, Ed Lansing sophomore; Sandy Gilmer, East Lansing senior; Ann Harrison, East Lansing sophomore; Gretchen Lechner, Berea, Ohio, sophomore; Karen Luken, Berea, Ohio, freshman; and Sue Montgomery, East Lansing sophomore.

These coeds are members of the Sea Sprites, a Lansing women's synchronized swimming organization. Of a membership of approximately 60, the six plus five other girls were chosen to represent the group at the national competition in California.

Under the direction of Mrs. Fran Jones, coach for the Sea Sprites, the team holds the third place in national synchronized swimming competition.  
Hours of hard work and drill go into such a show, and the girls are now undergoing six weeks of intensive practice. Ten hours a week are spent in rehearsal for the California contest.

Besides competing in AAU competitions across the country, the girls also put on an annual synchronized swimming exhibit to raise money to pay for the trips.

The Sea Sprites practice in the pool of the Otto Junior High School, Lansing. In addition to the MSU coeds, other members include high school girls.

Although Rand is not a star, he has turned in some consistent performances. His defensive assets are his quick hands and his constant heckling to distract the opposition.

Rand hasn't limited his athletic prowess to the backcourt. In addition, he has been on the track team as a high jumper.

When a sportswriter hears the name Rand he usually associates the All-American play of Terry Rand, Tom's brother. Terry starred at Marquette and is currently a star with the Denver Broncos, a powerhouse in the industrial league.

However, Tom knows his capabilities and talents, and is considered by Coach Fordy Anderson as a valuable performer.

The steady play of both was exemplified in an early season score game against Minnesota. At the time MSU and Minnesota were deadlocked for first place in the Western Conference with one loss apiece. Minnesota had the advantage of a home court.

The Gopher defenses were to concentrate on State's two scorers, Anderson and John Green. This gave Rand and Olson an opportunity to prove their worth. The two responded by combining for 31 points as State jumped Minnesota, 82-76. Olson scored 17 and Rand 14.

Rand and Olson were responsible for 30 points in State's record shattering, 103-91 triumph over arch-rival Michigan. Olson kept State in the game with his jump-shooting and lay-ups when Michigan grabbed its biggest margin, 15-6. He finished with 15 markers. Rand fired nine points.

In the classroom both are better than average scholars. Olson is majoring in engineering and Rand in social science.

As State gears its operation for the last four league games Olson and Rand have solved the premature backcourt problem. After the Iowa home engagement on March 7, the season's finale, Rand ends his three-year college career. Olson will be a real mainstay in next year's basketball plans.

# Wolves Swamp Gymnasts, 73½-38½

## Montpetit, Marion Each Total 21 Points

Shellacking Worst Defeat For Spartans Since 1913

By PETE WALTERS  
State News Night Editor

Michigan's gymnasts combined superior depth with a good breaks Monday night, bombarding Michigan 73½-38½, in the Spartans' first meet in the new intramural arena.

Since their first year of play—1948, when Minnesota applied 73-29, Michigan's 28½ shellackings—had a hard time of it.

Senior Richard Montpetit, veteran Nino Marion, led the attack, each winning the seven events and scoring 21 points apiece. Trampolines Ed Cole and sophomore

PLAYERS FROM EAST SHAW 1 and 9 battle for the ball under the backboards in Monday night's IM basketball action.

## West Shaw, East Shaw Victorious in IM Play

Gary Ballman led West Shaw 1 to a 54-20 victory over West Shaw 9 in IM action Monday night.

Ballman collected 20 points, including the game-winning shot, and was named MVP. He was also named MVP of the game.

West Shaw 1 led 26-6 at the half. Things slowed down in the third quarter, at least for 9, who couldn't get more than two points in the whole second half until the last second when one more basket was made.

## 'Spoilers' Do It Again

## Purdue, Michigan Win Big 10 Games

LAFAYETTE, Ind. (AP) — Purdue's Boilermakers side-tracked Indiana's defending Big 10 basketball champions Monday night 94-89. Jake Elson scored 31 points for Purdue in the contest that left both teams with 6-4 league records.

Sophomore Leroy Johnson and Gary Long of Indiana fouled out against the veteran Boilermakers, who won on free throws. Purdue dropped in 24 of 36 charity shots and Indiana made only 17 of 26.

Averaging a 77-69 loss at Indiana Jan. 5, Purdue gained a second-place tie with the Hoosiers in the Big 10 race. Indiana jumped into a 7-2 lead at the start. Purdue went ahead at 14-12 and led 47-44 at the half.

Purdue ran up a 52-46 lead in the final period, then stood still while Indiana made 11 straight points, most of them on long shots by Long and Herbie Lee. That gave the Hoosiers a 57-53 advantage, but Purdue fought back to a 68-67 margin and was in control the last nine minutes.

While Merriweather gave Elson 22-point help and Harvey Austin added 18 for the winners. Six Indiana players scored in double figures, topped by Johnson's 19.

Illinois 93, Wisconsin 54. Illinois ran up a 42-22 half-time advantage over Wisconsin and won handily 93-54 for its fifth basketball victory in 10 Big 10 games.

Roger Taylor and Josh West shared Illinois' scoring honors with 18 points each. The game's high total was 19 points by Wisconsin's Ron Harrison.

Bob Marley, with 17 points, was Wisconsin's only other man in double figures.

Michigan 90, Iowa 86. George Lewis' layup with 4 seconds left checked off a spirited Iowa rally and provided Michigan with a 90-86 Big 10 basketball victory Monday night. The victory kept alive the Wolverine's flickering hopes for the conference championship.

Michigan was forced to battle from behind in the final two minutes after holding a 14-point lead early in the second half. The Wolverines held a 52-41 halftime lead.

Michigan was forced to battle from behind in the final two minutes after holding a 14-point lead early in the second half. The Wolverines held a 52-41 halftime lead.

For Summer Season  
...or just plain fun  
HAWAII

Here's an unforgettable 6 week summer program that costs you less than a vacation at home!

Enjoy a summer of travel fun... or earn college credits at the University of Hawaii's famous Summer School. Meet young men and women from all over the world... make friends you'll never forget... go on fascinating island trips... enjoy dinner dances, beach parties... all the special events of an exciting Hawaiian program that anyone can afford. And, your parents will approve.

The cost is low. Six weeks of grand living plus round trip transportation plus planned social and leisure events... all for as little as \$495! Imagine! That's less than you might spend for an ordinary summer at home.

Leave for Hawaii June 12 by ship or June 21 by air. Return August 3. But we urge you to act now! Mail coupon for 1959 Bulletin and Application or write Dr. R. E. Crallo, University Study Tour to Hawaii, 2305 Wilshire Blvd., Los Angeles 5, California.

## TV Physics Class Starts On WJIM

Physics Course Offered Mornings

Television viewers can keep abreast of the latest developments in nuclear energy, atomic power and modern theoretical concepts by participating in a "University of the Air" telecourse offered this winter by MSU.

Topics in Contemporary Physics is being presented each morning from 6:30 to 7 over Channel 9, WJIM. Five terms of graduate credit will be granted to viewers who enroll and participate actively in the telecourse.

This is the second in a series of "Continental Classroom" courses, offered by the National Broadcasting Company and the American Association of Colleges for Teaching Education in cooperation with the Continuing Education Service.

Teaching the course, which began Feb. 11, is Dr. Harvey White, professor of physics, University of California.

It is recommended that viewers interested in taking this course for credit have a minimum of one year of college physics and a working knowledge of algebra and trigonometry, according to Dr. Lawrence McKinnon, producer-coordinator for the "University of the Air." It is especially recommended for high school science teachers, he adds.

Credit students will meet every two weeks with Dr. Paul Farber, of the department of physics and astronomy.

Information and registration material can be obtained from Dr. McKinnon, University of the Air, Kellogg Center.

## Lecture Stresses Socialist Different Than Communist

Students of socialism must explain to others the differences between it and communism, Wolf Fuhrig, social science instructor, told the Young Socialists Club Sunday night.

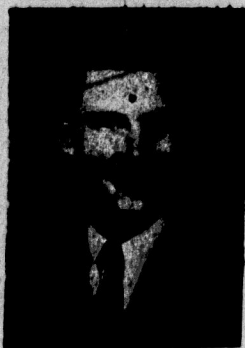

Fuhrig said the club members should make this one of their goals on the MSU campus. He spoke on "The History of German Socialism," tracing the differences in approach among Marxists and non-Marxists in the late 19th and early 20th centuries.

The organization is now engaged in the study and discussion of the historical development of socialist thought and government. At its next meeting this Sunday at 8:30 p.m. Gerald Critch, social science instructor, will discuss the history of American socialism. Dr. Lewis Edinger and Dr. Alfred Meyer, both of the political science department, will speak at future meetings.

## Seniors of the Week

NELDA TROUT

DON BECKER

Nelda Trout, East Lansing, Delta Gamma, and Don Becker, Reading, Pa., SAE, were selected as Seniors of the Week by Senior Council.

Nelda is currently president of both Mortar Board and Theta Sigma Phi, women's journalism honorary.

A journalism major, she has maintained a 3.42 all-university average and has held the posts of managing editor, city editor, night editor and education supplement editor on the State News.

Last year she was campus correspondent for the Detroit News and currently writes the "Undergrad Views" column for the MSU Alumni Magazine.

Other campus offices and activities include Delta Gamma

secretary, historian and publicity chairman, Tower Guard and chairman of Outstanding Junior Awards Committee.

Becker is serving Blue Key as recording secretary. He was chairman of last year's J-Hop Entertainment Committee.

He is this year's co-chairman for the Big 10 IFC-PanHiel Conference and is currently member-at-large on the IFC Executive Council and Treasurer for ADS, professional advertising fraternity.

Becker has been corresponding secretary for his fraternity as well as IFC representative and member of the SAE intramural softball team.

A journalism-advertising major, he plans a job in advertising sales after June graduation.

## Williams Sets Up Panel To Investigate Hospitals

BY THE ASSOCIATED PRESS

Gov. Williams Monday instructed a Citizens' Mental Health Inquiry Board to "let the chips fall where they will" in a survey of Michigan's handling of its mentally ill.

The panel was set up by Williams after a legislative investigation of alleged mistreatment of mental patients became the focus of widespread controversy.

The first meeting of the group, headed by Prof. Robert Mowbray of the Wayne State University political science department, was held in the executive office.

The governor said the board should inquire first whether there has been abuse of patients, and if it finds that there has been, to recommend corrective action.

If it finds there has not been, then citizens should be reassured that mental health department operations are being properly carried on," he said.

After a discussion with Mowbray about availability of data from the department on complaints.

## Nicol to Attend Convo

Joseph Nicol, of the department of police administration, will attend the annual meeting of the American Academy of Forensic Sciences Feb. 23-28 in Chicago. He will present a report entitled "Developments in Forensic Science in 1958-Criminologists."

## Fisheries Club Sets Game Film

Big game of northern British Columbia is the subject of a film to be presented by the Fisheries and Wildlife Conservation Club at 7:30 p.m. Wednesday.

The public is invited to attend the showing in the Forestry Cabin. Commentary will be provided by the photographers Howard Fitzgerald II, business manager of the Pontiac Press, and Charles Wilson of Birmingham.

Fitzgerald and Wilson are frequent hunting companions who combine motion picture photography with their travels. The British Columbian film focuses on such big game as caribou, bear, moose, mountain goat and big horn sheep.

Lee Terbush, Cars senior, is president of the conservation club, formed under auspices of the department of fisheries and wildlife.

## Cuba's Prime Minister Fidel Castro Proposes Accelerated Clean Up

HAVANA (AP)—Fidel Castro's installation as Cuba's Prime Minister is expected to signal the start of a speedup in the revolutionary cleanup and acceleration of Castro's promised welfare program.

The bearded rebel leader's elevation to the premiership came a month and a half after his revolutionary movement toppled the dictatorship of Fulgencio Batista. It may be a stepping stone toward the presidency now held by Manuel Urrutia.

Castro is 32. The age limit for a president was 35, but it was lowered last month to 30.

Sources close to the New Prime Minister said they expected him to keep the bears which have become a trade mark. Revolutionary circles were saying that Castro is expected to give priority to a 20-point program emphasizing agricultural reform, industrialization to provide 50,000 jobs, and tariff reforms to protect new Cuban industries.

The newspaper Revolution, or

Lent Services Stated

Six of the East Lansing churches are cooperating in a series of Noon Day Lenten services to be held in the State Theater. Each church is sponsoring one of the services and will present a guest speaker.

The East Lansing Methodist Church will present the Rev. Joseph Edwards, the Michigan Methodist Director of Evangelism Wednesday.

February 17, 1959

MICHIGAN STATE NEWS

Page 1

gan of Castro's 36th of July movement, reported that termination of Cuba's war crimes trials within 15 days is one of the 20 points that will get "preferential attention."

Other points included a big housing program, a development program for the provinces and a general wage increase for Cuban workers to be ordered by government decree.

Some businessmen express belief a 20 percent increase is

the works for Cubans earning less than \$100 per month, with smaller increases for better paid workers.

The program was reported to embrace a reduction in military cabinet members, reopening of the gambling casinos, creation of a Cuban merchant fleet in cooperation with the transoceanic fleet operated by Colombia and Ecuador.

Still other points deal with control and modernization of the country's transportation, improvement of Havana's traffic problems.

The government was reported also considering pushing world's fair for Havana and promotion of the country's movement.

## Hearing Clinic Head Guest at Speech Club

Miss Lucy Moore, head of the MSU hearing clinic, will be guest speaker at a meeting of the speech and hearing club scheduled for 7 p.m. today in 31 Union.

She will speak on her experience in training the deaf and hard of hearing. The meeting is open to the general public and all speech and hearing majors are encouraged to attend.
