

Pulitzer Prize To MacLeish

Bible Story, 'J. B.' Takes 3rd Award for Ex-Librarian

NEW YORK (AP)—Archibald MacLeish won the 1959 Pulitzer Prize for drama Monday with his first play, "J. B.," a modern rendition of the Biblical story of Job. Twice previously he had won the poetry award.

Bl Finds Parker's Remains

River Yields Body Of Lynching Victim

MOBILE, Ala. (AP)—The body of Mack Charles Parker, the young Negro who was savagely beaten and dragged from a jail at Poplarville, Miss., 10 days ago, was found Monday in the Pearl River.

The badly decomposed body had been bleached white after several days in the water. But FBI was able to identify rough fingerprints.

The 23-year-old Parker was snatched by a gang of masked hoodlums two days before he was to go on trial on a charge of raping a pregnant woman last February.

Agents and officers direct Mississippi Highway Patrol Chief B. S. Hood pulled the body from the water on the Mississippi side of the river near Poplarville. The body was clothed only in men's underwear and undershirt.

Parker was taken to Bogalusa Hospital where attempts to revive him were begun. An announcement of the identification was made in Washington by Atty. Gen. William Rogers. An official announcement said the date of the time the body had been in the river had made.

Honoraries Hear Veep Meredith Co.

Walter Van, vice president and advertising manager of the Meredith Publishing Co., will receive two advertising honoraries and the general public to from 3:30-5 in 33 Union. Members of Alpha Delta Sigma, members professional advertising fraternity, and Gamma Chi, women's advertising group, will see a slide presentation of an advertising campaign prepared by the advertising staff of Good Housekeeping magazine, a Meredith publication.

This is the first time that this campaign will be shown to the general public. It will be presented to the various advertising agencies in New York later this month.

Governor to Speak Michigan Situation

Michigan's Lt. Governor John Benson will speak Thursday 7:30 p.m. on "The Michigan Situation" in 3F Union. The talk will be sponsored by Pi Sigma Phi, political science honorary.

Engineer on Sale

The May issue of the Spartan Engineer will be on sale Thursday, Friday and Saturday in Olds Hall, E. E. Building. Short Course, Physics and Ag Engineering.

HAVE YOU SEEN THIS MAN?

Do you know the man pictured above? He is wanted for questioning in connection with the assault and rape on Saturday night. Campus Police are asking for your cooperation. They ask that anyone who knows this man or might have seen him in the vicinity of the Women's Gym or the Spartan Statue Saturday night notify the police department.

He is described by his victim as about 21 years old, 5'8" tall, weighing from 150 to 175 lbs, with green eyes, dark brown curly hair and bushy eyebrows. The coed said that at the time of the attack he was wearing a bright red windbreaker-type jacket over a light shirt, light tan trousers and black and white sneaker-type shoes.

A young MSU coed fell victim to a vicious attack Saturday night. The picture above is the description given by her to the Campus Police of the man who assaulted, choked and raped her at 9:30. The assault took place in the wooded section on the bank of the Red Cedar River northwest of the Women's Gym.

She was treated at Olin Health Center and released Saturday night. The coed told police she was walking leisurely near Kedzie Chemistry laboratory when the attacker first approached her and asked for directions to different campus buildings.

She kept walking toward her dormitory at the West end of the campus, and he continued to keep pace and ask questions, she said. In front of the Women's Gym, she said, the man tried to put his arm around her. She started running, but he caught and dragged her behind the gym.

She said she screamed once, but her assailant choked her. Rumors have been spread through the campus that an unidentified man has been seen and heard lingering around the women's dormitories and sorority houses at night during the past two weeks. Campus Police have been combing these areas carefully in search of such a man, with no results.

Ask End to Bomb Tests

Australian Prof to Lead Delegation to Russia

SYDNEY, Australia (AP)—Prof. C. F. Powell, Nobel Prize winner and professor of physics at Bristol University, England, is to lead a delegation of scientists to Moscow within 10 days to call on Premier Khrushchev to stop H-bomb tests.

Powell, who has just completed a lecture tour in Australia, announced the plan at Darwin Monday night. He declined to name other members of the delegation but said American philanthropist Cyrus Eaton is financing the trip.

After calling on Khrushchev

the party will visit other heads of government. Members of the party were nominated at meetings of scientists held during the past four years, Powell said, and added:

"Three countries now have atomic weapons. Soon there will be four and then shortly after maybe five or six. The chances of accidents happening will then be very great.

Governments of all countries must realize that the effects of a third world war, in which atomic and H-bombs would inevitably be used, would be catastrophic."

'Anatomy' Production 'Nothing Extraordinary'

UP Sees Neo-Realistic Film Take Shape

James Stewart, Eve Arden and company have taken up residence thousands of miles from home in Michigan's upper peninsula to film "Anatomy of a Murder" and there's really nothing extraordinary about the whole thing.

If this sounds slightly confusing and improbable, consider this explanation by Dr. Nicholas Vardac, an MSU associate professor of Comm Arts in motion pictures as to why this unusual phenomena is occurring:

According to Vardac, this particular motion picture that has all of Michigan buzzing with excitement is simply one of a long series of "neo-realistic" movies that have been produced in the last 14 years.

story that is based, at least to some degree, on a real life situation. The filming, in turn, is done on the actual location where the story occurred.

This technique has met with extreme success in the relatively few years it has been in vogue. Started at the end of World War II in Italy with the filming of "Open City" on location in Rome, the process has now evolved to the point where almost every picture with a sizable box office appeal has been filmed on location, regardless of the additional cost.

A recent example of this was "Peyton Place," which was shot on location in the small town of Camden, Maine and became a "smash" on American screens just last year.

GOP Rejects Williams' Compromise Proposal

Inspection For Health Ruled Okay

In Supreme Court Dwelling Decision

WASHINGTON (AP)—The Supreme Court ruled 5-4 Monday that a health inspector may search your home without a warrant.

The dissenters said the decision curtails the right of privacy which every home-owner has the right to believe was part of our American heritage.

Justice Frankfurter, author of the majority opinion, spoke of the need for maintaining basic minimum standards of community health to prevent the spread of disease. He said:

"Time and experience have forcefully taught that the power to inspect dwelling places . . . to treat a specific problem is of indispensable importance to the maintenance of health."

The power to inspect private dwellings, Frankfurter said, would be greatly inhibited by a blanket requirement of the safeguards necessary for a search for evidence of criminal acts.

Justice Frankfurter said for the majority that even by giving the fullest scope to the Constitutional (Fourth Amendment) right to privacy, its protection could not be invaded.

Frankfurter said that city after city has seen the need for health inspections and has granted the power of inspection to health officials. He remarked that these inspections are apparently welcomed by all but an insignificant few.

Justices Clark, Harlan, Whitaker, and Stewart concurred in Frankfurter's opinion, while Chief Justice Warren and Justices Black and Brennan joined in a dissent by Justice Douglas. Douglas said the majority "misreads history which it reads the Fourth Amendment primarily to search for evidence to be used in criminal prosecutions."

Winnie Lands in U.S.

NEW YORK (AP)—Sir Winston Churchill arrived by jet plane from London Monday en route to Washington for a three-day visit with President Eisenhower. The venerable British statesman transferred from a BOAC Comet 1 jet to President Eisenhower's special plane, the Columbine, which was waiting for him at Idlewild Airport.

GOSH! IT'S FUN TO GIVE BLOOD! These two gentlemen, Ferris Laraway, Lansing Jr., and Jerry Englar, Centreville st., enjoy themselves over a cup of coffee and doughnuts after having done their best to make this year's Plasma Pageant a success. The blood drive, co-sponsored by the Army and Air Force ROTC units, will run now until Friday at Dem Hall so there's still plenty of time for you to do your part and have some fun at the same time.

Army Tops Air Force

Donors Give 330 Pints In Blood Drive Monday

The 1959 Army-Air Force ROTC blood drive got off to its best start in recent years Monday. Don Schuster, chairman of this year's drive, reports almost 100 pints over the totals of the two preceding years. However, it still fell 70 pints short of the daily quota, with a total of 330 pints donated so far.

Economic Aid Sought For India

WASHINGTON (AP)—Vice President Richard Nixon and Sen. John Kennedy (D-Mass.) called strongly Monday for more economic aid to India.

The two, who may be planning additional aid for President next year, agreed that it is of the utmost importance to have India overtake and surpass Communist China.

Nixon said private capital as well as U.S. government funds should be put to work. Noting that where private money enters a country there is no question of political implications.

Kennedy's main point was that it is not enough that we participate on a crash basis, for temporary relief. We must be willing to join with other western nations in a serious long range program of long term loans, backed up by technical and agricultural assistance—designed to enable India to overcome the challenge of Communist China.

Payless Day To Hit State This Week

Demand Approval Of Use Tax Hike

LANSING (AP)—Republican Senators Monday rejected Governor Williams' plea for immediate approval of the Veterans Trust Fund Bill.

After a casual Senator Frank Beidle of St. Clair, Republican majority leader, said the closed meeting was really much of a technical affair.

He said all amendments members heard in their district were the weekend version of their bills, and are not the final bills.

He said this was taken as endorsement of the Republican stand for an increase in the use tax and disapproval of the Governor's graduated income tax proposal.

Republican bills returned to the Senate immediately after the day's session. The Governor's proposals until the Governor's session. The income tax and sequestration bills are the proposals.

Williams offered to rescind the tax recommendations and start a new program if the Legislature passed the Trust Fund program without delay. Without such action, he said, some 28,000 state employees will go without paychecks Tuesday.

It looks to me like he failed to get any compromise by pushing on passage of the bill before any tax discussion, Beidle said. Tax discussions ought to come first.

Williams described his proposal as "an offer to progress."

This is what we need," he said. "I want a conference. The only crisis now is how and how to get the state's tax program that will solve a real crisis."

In theory, Democrats are opposed to the use tax because it taxes those least able to pay, he said. "But I will sit down with Republicans and discuss every tax proposal from the beginning in an attempt to come up with a tax program."

Lack of Funds Decreases Construction

Although the lack of funds has severely decreased the construction of new buildings on campus, it will not affect maintenance of the grounds themselves, Harold Lautner, campus landscape architect said Friday.

Lautner, in charge of campus planning and maintenance, said the usual standards were being maintained, but added he had fewer men and less funds than last year.

Not much work has been done on the grounds so far, Lautner said, because until recently it has been too cold and dry. The rain, however, brought out the grass and work will begin as soon as possible.

Construction on new buildings has been cut to those buildings not financed by the state, Lautner said. "Most likely every building would be underway if funds had been available," Lautner said. He added that when these buildings were finished the temporary and quarters could be done away with for teaching purposes.

Drill Required

ROTC cadets who pledged blood last week must report No. 1000 to their regular drill session, but do not need to wear uniforms. Failure to report will be considered an absence.

Failure to report will be considered an absence.

Michigan State News

Read Daily by MSU's 25,000 Students and Faculty

Vol. 51, No. 21 Tuesday, May 3, 1959 Page Two

Elected Reps Must Work for Students

STUDENT CONGRESS representatives elected last week will meet for the first time Wednesday night. They will be officially sworn in at that time, but their duties as responsible congressmen really began even before the election returns came in.

A Congress representative's responsibility extends beyond simply attending and participating in weekly sessions. To really do the job for which he has been elected, he must seek out the needs and desires of his constituents. He must question them and get their opinions on what should be done for them and for the student body as a whole.

Student Congress has been criticized in the past for not responding to significant student interests. It has done much commendable work in the interest of the student body—but some of this has not been noticeable and has perhaps seemed trivial.

Safety rubber mats on the floor of Herkey and the Nat Sci Building, better lighting in Nat Sci, donating funds to support various student groups for all-campus projects—these have been a few of many perhaps unnoticed accomplishments of the past Congress.

THE HOUSING REGULATION passed by Congress just two weeks ago certainly affects all students in an area of extreme significance to everyone of them.

Another Congress action important to all students was the listing of instructors and courses to be made available prior to registration. In this way MSU paid attention to the university student's major concern—the academic program.

Then there are areas of student quality and administration concern that Congress has not yet addressed, which has been discussed in almost every other group on campus except the student body representatives.

ROTC is a prime example of such an area. The regulations in the new ROTC program, which were mentioned at Congress, have caused the student body to have serious concerns.

These are vital areas of student concern, and Congressmen should be cognizant of them. They must be right now. They must be right in the future. They must be right in the past. Action, or lack of it, will bring it home.

Blood Needed—Donate Today

TWO THOUSAND PINTS of blood are needed to meet the quota for the spring drive, sponsored by the Army and Air Force ROTC. This special drive will not be repeated until next year, so it is important that you give blood today. The drive will be held in the gymnasium of the Army and Air Force ROTC building, which will be open from 9 a.m. to 5 p.m. Each donor will receive a certificate of appreciation.

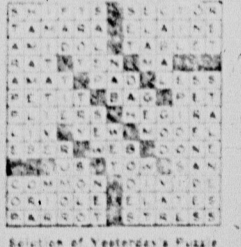

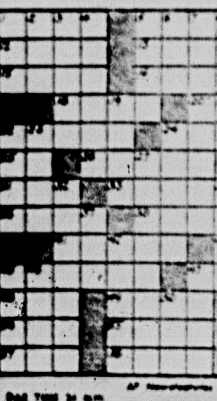

Such a service, though, is not only a noble one, but it also increases participation in the ROTC program. The drive is a serious drive to help meet the needs of our country, including combat and medical needs. The drive is open to all students, regardless of their ROTC status.

The blood drive is part of the ROTC program, which is a part of the ROTC program. The drive is a serious drive to help meet the needs of our country, including combat and medical needs.

The drive is a serious drive to help meet the needs of our country, including combat and medical needs. The drive is a serious drive to help meet the needs of our country, including combat and medical needs.

Well, you see, she didn't think she was speaking for publications, or maybe I mean I think her husband's publication is unspeakable. Anyhow, she's a very good diplomat, only she's not very diplomatic. Well, her husband naturally thinks she's great, so naturally he said that she should resign. Mind you, I'm not one to kick, even when somebody beats this old bag of bones.

Letters to the Editor

Board of Trustees Member Favors Compulsory ROTC

EDITOR'S NOTE: The Star News recently asked members of the Board of Trustees if they would consider it desirable to have an expression of student and faculty opinion on the question of changing MSU's ROTC program from a compulsory to a voluntary basis. This is the fifth reply received. The other four were published April 27. The Board member Arthur Rosen has not yet replied.

Allen Hartley
Mst. Board of Trustees

I believe that the ROTC program is a very important part of the university's education. It provides a valuable opportunity for students to receive military training and discipline. I believe that it is essential for the university to continue to support this program.

Socialist Club Explains Aim

In the Editor:

The Socialist Club is a group of students who are interested in social justice and equality. We believe that the ROTC program is a form of military indoctrination that is designed to prepare students for a life of service to the state. We believe that this is a form of brainwashing that is designed to suppress individual thought and freedom.

Michigan State News

The Michigan State News is a student-run newspaper that provides news and information to the MSU community. We are committed to providing accurate and unbiased reporting on all matters of interest to our students and faculty.

Night Staff

The Night Staff is a group of students who work on the Michigan State News during the night hours. They are responsible for gathering news and writing articles that are published in the morning edition of the newspaper.

Individual Ideas

After all, it is our responsibility to provide our readers with the most interesting and thought-provoking articles. We encourage our writers to share their unique perspectives and ideas on a wide range of topics.

'Titan' ICBM Test Success

Two Stages of Missile Split After Launching

CAPE CANAVERAL, Fla. (AP)—A Titan intercontinental ballistic missile roared aloft Monday and two minutes later the two powerful stages of the 90-foot rocket separated successfully in flight.

The Titan, named after the giant of Greek mythology, is the fourth successful test flight in three months.

The Air Force said later in an official announcement that the missile appeared to accomplish its test objectives.

As in previous tests, the 37-foot second stage was a dummy, loaded with water for ballast. The two sections of the missile plunged to Earth.

Had the second stage carried fuel and ignited instead of being loaded with water, it would have fired at this point and pushed the nose cone to a speed close to 6,000 miles per hour before falling out.

The Titan made a very smooth, controlled flight, followed by impressive tests Feb. 25 and April 3.

Experts say it is a more "sophisticated" ICBM than the Atlas, which has been fired 22 times in two years. The Titan at 110 tons is more powerful than the Atlas even though it weighs less.

The two liquid fuel engines developed by Aerojet General Corp. reportedly burn out some 20,000 pounds of thrust for a 10-minute burning period.

When ready the Titan will be launched in launching sites bored 10 stories into the ground. This would make the missile virtually immune to nuclear attack by the Soviet Union.

Symposium To Discuss Labor Abuses

The abuses of labor and some problems created by industrial mechanization in the early 1800's will be discussed tonight by the Student Symposium in Humanities at 8:30 in 35 Union.

The informal group, which meets every Monday, and is open to all students, will hear Dr. William Sweetland, astoria professor of humanities. Following Dr. Sweetland's introduction, the students will exchange ideas among themselves on this topic.

Tonight's topic was planned to provide background for next week's meeting when the writings of Karl Marx will be reviewed by Dr. Werner Rohstedt, humanities professor.

The symposium, a new organization on the campus, was formed at the beginning of spring term by popular demand of students who wanted to explore more thoroughly areas touched upon in their basic humanities courses.

The members themselves choose the subjects they wish to discuss, and a speaker is provided through the cooperation of the department. Audio-visual material, when available, will be provided.

Nearly Three-Quarter Million Science, Math Center Receives Eight Grants

Eight grants totaling nearly three quarters of a million dollars testify to MSU's leadership in the national campaign to better American science.

The grants were made by the National Science Foundation to the Science and Mathematics Teaching Center, created two years ago in keeping with the object of grant-university philosophy of providing education to all the times.

In the words of its director, Dr. Frederic Dotton, the center "got off the ground before the first spark."

Since April 1957 it has instructed, advised and provided materials for thousands of elementary, high school and junior college teachers and students in Michigan and other states.

Two years ago, the National Science Foundation gave the center \$40,000 for the teaching of 50 high school teachers at a summer school physical science and mathematics institute.

Last year, the NSF granted \$107,000 to MSU to provide the same sort of institute for 50 junior college teachers and 50 high school teachers.

It also provided \$7,000 for in-service instruction— evening and Saturday classes for 30 high school science and mathematics teachers—during the 1958-59 school year.

This year, the foundation has given MSU \$139,000 for 107 teachers to attend the summer physical science and mathematics institute and \$11,000 for in-service instruction for 40 teachers in 1959-60.

The MSU center also has NSF grants of \$49,000 for a traveling science teacher program and \$40,000 for a high school honors science institute.

These will be joined this summer by other science education grants at MSU.

Pulitzer Prizes

(Continued from Page 1)

The Pulitzer Prize for music went to John La Montaine for his "Concerto for Piano and Orchestra."

The editorial award to Merrill was based on the body of his work during 1958, specifically cited was an editorial on the Church, One school which appeared on Oct. 12. The citation also referred to "his long, courageous and effective editorial leadership," and the specific editorial referred to the bombing of a synagogue in Atlanta, Ga., and a high school in Boston, Tenn., as the work of "rabid mad dog minds."

He also received the Pulitzer Prize for a drawing published Oct. 20 after Boris Pasternak was forced to give up the Nobel Prize for literature. Its title, "I won the Nobel Prize for literature. What was your crime?"

The prize was awarded to Miss Warner for her comprehensive, fearless coverage of the integration crisis in Virginia.

He also received the award for displaying courage, initiative and resourcefulness in his effective four-year campaign to halt labor violence in Scotland.

A traveling scholarship in art was awarded to Jerome Witkin, a student at Cooper Union in New York.

The prizes were established under the will of the late Joseph Pulitzer, publisher of the New York World and the St. Louis Post-Dispatch. The first awards were made in 1917.

The prizes are awarded by the trustees of Columbia University on recommendations of the advisory board on Pulitzer Prizes.

Schedule Tryouts For TV Fantasy

Tryouts for a fifteen minute television drama to be produced on WMSB May 31 will be held today from 2-4 p.m. and Wednesday from 4-6 p.m. in the arena theatre area.

Rehearsals for "Forever Hold Your Peace" by William Sakajanskas will begin May 18 and continue up to the production on May 31, 12:30-12:45 p.m. on WMSB.

Prof To Write Article

Dr. Martin S. Soria, associate professor of art at Michigan State University, has been invited to write the lead article for a special Pan-American issue of Art in America, international art magazine published in New York.

COME TO THE CIRCUS! It's an invitation to come under the big top this weekend at MSU. Three performers are scheduled for the Friday and Saturday event in the IM building.

'Clowning Universal Language' Says Spartan Circus Spokesman

The clowns for the 1959 Spartan Circus are ready, announced Cabbage McPickle, head funnyman Monday. The sixth annual presentation gets underway at the IM building arena on Tuesday, May 8 at 8 p.m. and May 9 at 2 and 8 p.m.

"Clowning," said McPickle, "is a universal language. A clown is a cartoon character come to life. P. T. Barnum called clowns pegs to hate citizens."

When asked if clowns are persons without their makeup, McPickle vigorously denied the allegation. "The old line about laugh clown, laugh even though your heart is breaking is nonsense. Clowns don't laugh because their business is to make you laugh."

And what does McPickle and his hairy pants crew have in store for the Spartan Circus? "Clown acts both old and new," he replied. "Adults want to see the clowns do the same acts that they saw years ago, children want to see something new."

Promenaders Present Dance

If you're looking for something different to do this Saturday night that's fun and free, MSU's Promenaders think they have the answer in their annual square dance.

A traditional campus event for several years, the square dance will be held in the main amphitheater of the Women's Memorial building from 8:30 to 11:30. It is open to all and there is no admission charge.

This year the dance was timed to coincide with Parents Weekend and the Promenaders invite all students whose parents shall be visiting to bring them along. "And if they can't come dance we'll teach them," said Bob Westfall, chairman.

Dancers may come stag or tag, but everyone is cautioned to wear soft soled shoes or sneakers.

Research Cobin's Topic At Comm Arts Meeting

Dr. Martin Cobin will speak at the General Communications Art Dept. colloquium tonight at 7:30 in the fourth floor library lounge.

Cobin, speech professor at the University of Illinois, will talk on "research potentials in oral interpretation."

Berra's Mother Dies

ST. LOUIS, Pa., May 14 (AP)—The death of a woman, believed to be the mother of New York Yankee slugger Yogi Berra, was reported today by the St. Louis Post-Dispatch.

LATE SCORES

Results of the Michigan State football games played today are as follows: MICHIGAN STATE 20, Notre Dame 14; MICHIGAN STATE 27, Indiana 14.

Hope for Victory Kobsmen Meet Irish In Fourth Road Game

Hoping to get back on the winning side of the ledger, the Michigan State baseball squad takes to Notre Dame today for a single game with the Irish.

For the Spartans, owners of an 11-1 record for the season, will be the fourth road game of the year. Michigan State will leave for Ohio State tomorrow before dropping a game to the Buckeyes at Indiana Saturday.

Notre Dame will look to eliminate the Spartans' Big 10 title aspirations. Capt. Dick Radatz, who posted states lone victory over the weekend to remain the winningest Spartan hurler, is scheduled for mound duties today.

Winning will provide the next Big 10 competition for Coach John Kobs' squad. Next Friday at Ohio College Park Northwestern then moves in for a doubleheader Saturday.

MSU Tennis Team Wins Initial Home Meet, 9-0

The tennis Spartans opened their 1959 home season Monday afternoon as they proved to be unshakable to their hosts, the University of Detroit, and blanketed them, 9-0. MSU swept every match in the scheduled non-conference meet as they upset their season mark to 2-1. They had previously defeated Ohio State and lost to Illinois.

Foster Hoffman then applied the same treatment to Bill Klesnowski, 6-1, 6-2 in the No. 3 slot. Roger Plagenhoer continued the Spartans' mastery as he swept Bill Bellinger, 6-0, 6-0, after which Bob Sassaack bettered Fred Rizzo, 6-1, 6-3. Ron Mescal completed MSU's sweep of the singles as he outclassed Ed Goebel, 6-1, 6-0. The doubles team did just as well as they swept all three of their matches.

The competition should be tougher on Wednesday when Notre Dame invades East Lansing to meet Coach Stan Dehaer's charges. The Irish defeated MSU last season, 8-1, and have posted the stoniest team in the decade at the Indiana school. Notre Dame's No. 1 singles spot has been occupied by players so far this season. Of those players, Max Brown is a senior and was named the second team of the N.A.A.A. All American squad last year.

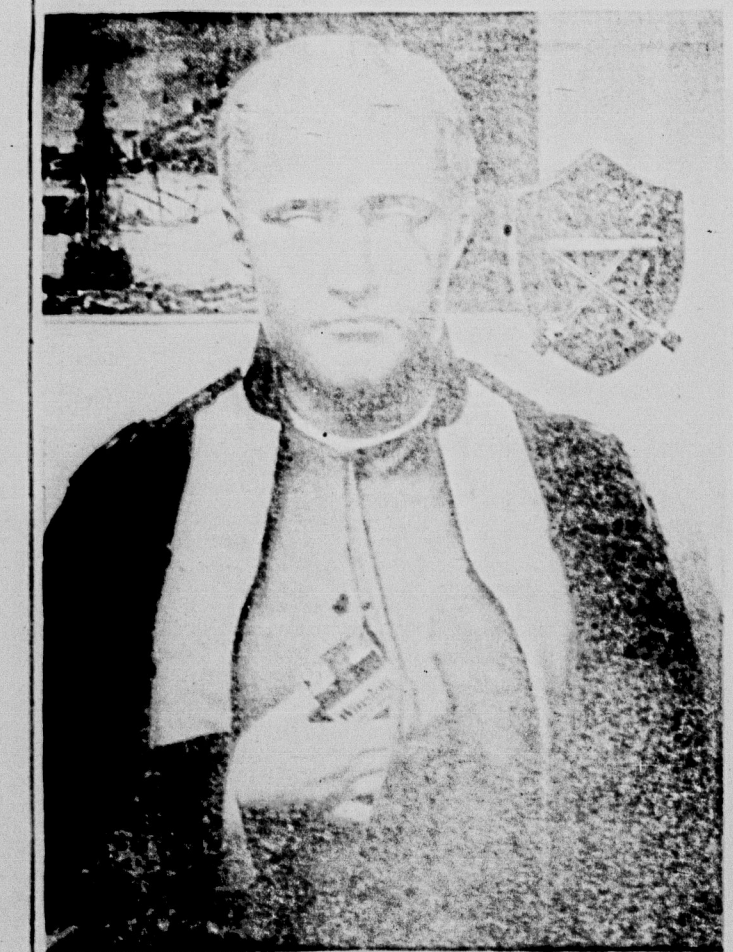

Butterfield, W Shaw Win in IM Softball

Butterfield 2 edged Buttefield 1 in a softball thriller Monday night in another diamond. West Shaw 9 was trouncing West Shaw 7, 16-5, in a real slugfest.

Butterfield 2 combined seven hits and some neat fielding to get the win. With the score tied 6-6 going into the last half of the fifth and final frame, they came through with a walk and a home triple by clean-up man Bob Stackhouse to wrap up the game.

Two came back for five runs in their half of the first. The winners combined triples by Marty Dimes and Dave Goodard, a double by Tom Carmichael and a walk and two errors to get the tally. In the fourth, one called for three runs to tie up the game. After a walk and a single by Wally Leonard, Ed Allen stepped up and smashes a long home run into center field.

"Oh, to be in Elba... now that Winston's there!"

IT'S WHAT'S UP FRONT THAT COUNTS The mystery is solved! Napoleon's famous gesture was just to reassure himself that he had plenty of cigarettes. His army may have prevailed on his stomach, but the old hot hummer wouldn't have been caught at Waterloo if he hadn't been checking the Belgian habit for a spare carton of Winston's. There's a cool smoking treat that comes from Winston's famous Filter-Blend - which means a careful selection of fine, mild tobacco specially processed for filter smoking. Try a pack real soon, and you'll agree that... Winston tastes good - like a cigarette should!

Death Claims Texas Boxer

HOUSTON, Tex. (AP)—A Texas A&M sophomore from Dallas died early Monday from injuries received in a boxing match at Sam Houston State College at Huntsville.

Curtis Raymond Lyons, 20, died in Methodist Hospital, where he was admitted after Thursday night bout with Ed White of Sam Houston State. Lyons was injured when he was knocked out in the fourth round of a scheduled three-round match. Efforts to revive him in the ring failed.

Two looked polished on defense Lou Chol in left field handled his chances well and third baseman Steve Sokolow made a nice stab of a line drive in the fifth.

Hospital attendants on Friday said Lyons had regained consciousness and was not in critical condition. Texas A&M officials said school does not sponsor boxing teams and that Lyons and other students were in Huntsville by matches arranged by student groups of the two schools.

West Shaw 9 gave pitcher Al Cary a comfortable lead as they slammed Seven and pitcher Bill Pauline for 16 runs.

With Wayne and MSU in a near-tie race at the midway point of the 2,000-meter course, the two shells collided, damaging enough equipment that a start had to be called.

Frosh Crewmen Tops In Detroit 3-Way Meet

Pitting its lone crew against fresh Wayne State and Marietta (Ohio) squads in each of three races, the Spartans rowing team copped one win Saturday in a meet at WSU Detroit River course.

With Wayne and MSU in a near-tie race at the midway point of the 2,000-meter course, the two shells collided, damaging enough equipment that a start had to be called.

Rowing an eight-man shell competition, the MSU freshman team posted the best winning time of the afternoon, topping runner-up Wayne State in the first race.

With only one eight-man crew and a pair of coxswains to alternate, the Spartans faced well-rested opponents in the post varsity contest. "Freshmen crewmen without previous collegiate experience may race higher divisions in the post sport.

With only one eight-man crew and a pair of coxswains to alternate, the Spartans faced well-rested opponents in the post varsity contest.

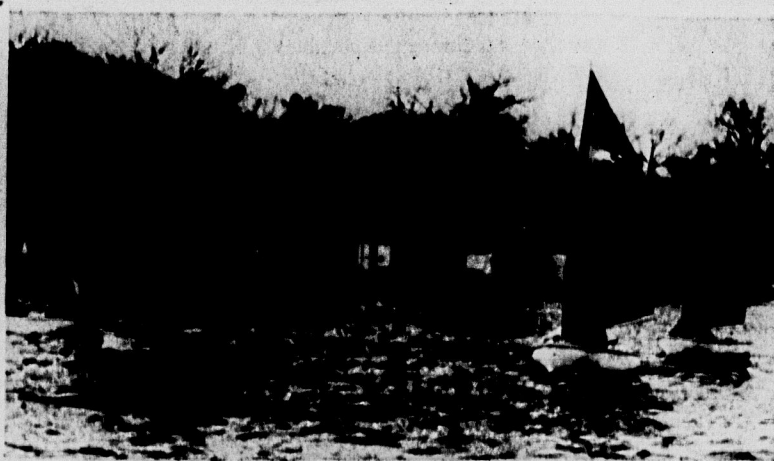

On the second try, Wayne State lasted second place Marietta and the Spartans, who won some two lengths behind the winners.

Up against another pair of fresh opponents, the Spartans also placed third in the varsity race, with WSU again setting the pace.

Let the 4 Winds Blow . . . or Row, Row, Row

Pictures by Max Shulman

By PETE WALTERS State News Sports Editor

ASK THE ATTENDANT at the Canoe Shelter on the water ski structure at any local lake and he'll tell you in no uncertain terms that boating of one variety or another is strictly a summertime college diversion.

If you were to visit the Spartan crew's training grounds on the Grand River or the sailing club's headquarters on Lake Lansing, you would probably hear a different version of the water sport story.

In either case you would become acquainted with a club which is engaged at least partially in a competitive group and which not only enjoys itself but practices its aquatic skills with considerably more earnestness than the average local waterside lover or outdoors jockey.

THE CREW OR ROWING TEAM if you prefer, has in its brief two-year history grown from a tiny four-man club to one of the best contenders for a coveted varsity berth in the Michigan State regatta program.

Not yet boasting the talent, equipment, following or finances to rival Harvard or Oxford, the crew is nevertheless earning its place

on the Michigan State sports scene with support from the intramural department and tutelage from student coach Jim Tyler.

For equipment the Spartans have a pair of eight-man shells (boats to be initiated), each 61 feet long, a little less than two feet wide and weighing less than many 12-foot rowboats. Constructed of a fragile laminated wood, the eight-oar power craft cost an average of \$7,000 each.

Incidentally, the "oars" are blades to experienced rowers, weigh no more than a couple of basic No. 300s and cost even more (\$30 each).

Each eight-man shell is accompanied by a coxswain, a lightweight "trimmer," who does not wield a blade, but faces ahead (coxswain never sees where they are going, they face stern), handles the rudder, keeps time for strokes and provides "pup talk" throughout each race.

Another common collegiate race is for four-man shells (plus coxswain), which are a mere 46 feet long and are miniature replicas of their larger kin. Olympic competition includes a variety of other classes, including one and two-man "sculling" (two blades per man).

Standard racecourse is a 2,000-meter stretch (a little over a mile and a quarter), State's begins near its storage area on the Grand River near Mt. Hope road. Land for storing the somewhat ponderous

equipment is being leased to the crew, while a coaching boat and a few other items include a boathouse when finances permit.

Coaching duties are the responsibility of its participants. Seven days a week per week whenever the crew is in free time include an hour and a half of rowing, speed training, a race over roughly 1,000 meters, a 100-meter sprint and running. In the winter, rowing machines and the 100-meter sprint are substituted for the real thing.

The Spartan crew lacks experience, all but three of its dozen members are complete newcomers to the sport, but Coach Tyler, himself an MSU rower and Row Western, off the speed boat in 1956, says this season, were 1956 Olympic athletes.

Coach Tyler, after his 10 school years, says, and just one of them, "We're going to better than \$40,000 annual rowing budget, approximately, by the way."

SAILING, WHEREIN NATURAL FORCES are relied upon to provide the impetus which propulsion trust to their arms, is entirely more than a strictly competitive activity at Michigan State. The first sailing club inception in 1946 marks a regatta has since then.

The club serves a dual purpose in offering instruction to members and also in being a racing team to compete with other clubs. Sailing is not a varsity collegiate sport, but one

organization at this region's Midwest Collegiate Sailing Assn. with its 30 member clubs still provide the "conference" flavor to the sport by sanctioning regattas between member schools.

Newcomers to the club are classified as "crew" (no reflection on the racing team), then are promoted to "racing crew" and eventually "skipper" status as progress allows.

Skipper, sailor, who have demonstrated proficiency in knowledge of racing rules and tactics, are allowed to pilot sailboats during regattas, which often run close to a full weekend in length. A double round robin regatta between two clubs includes 20 races in each of classes A and B. The former category is designed to include better sailors.

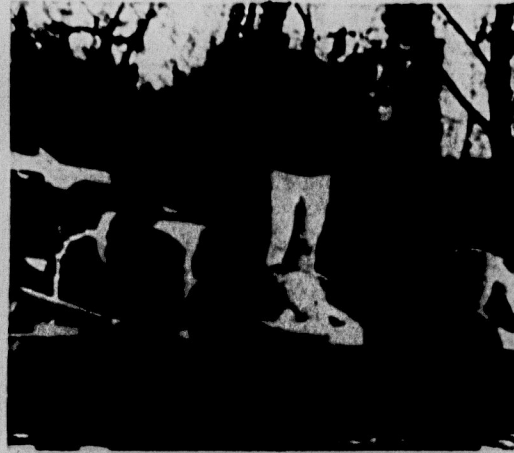

The Spartan club recently bought five new two-man "Dolphin" class boats, each a sturdy over nine-foot long and built of fiberglass with aluminum fittings.

Races are held over a triangular course, with distances varying according to wind conditions, and no length of race specified by NCAA rules. Scoring is done on a basis of one point for starting a race, one for finishing and one for each boat beat at the finish.

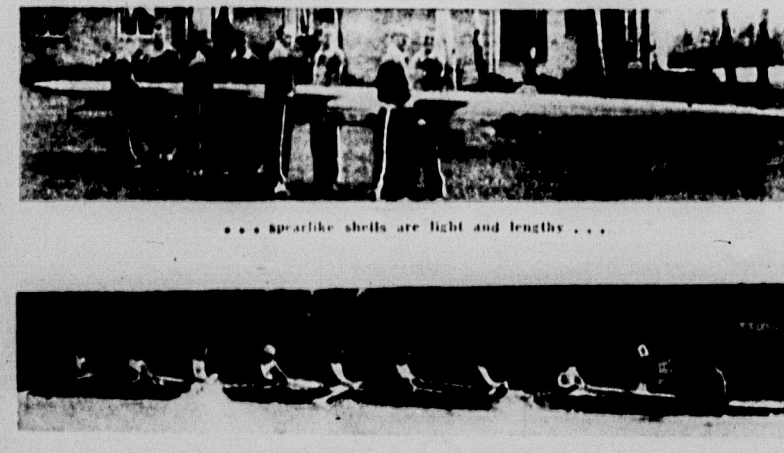

A far cry from staged races, Michigan State's two 20th century model sailing clubs both promise to make a big splash on the regatta scene in 1957, and years to come, in more than one

Delvecchio Captures Trophy

MONTREAL (P) — Alex Delvecchio of Detroit edged Andy Hebenston of the New York Rangers for the 1956-57 Lady Byng Memorial trophy Monday.

The closest vote ever for a National Hockey League post-season award.

Only five-fifths of a point separated the two in the balloting by hockey writers and broadcasters for the coveted award given "to the player exhibiting the best type of sportsmanship and gentlemanly conduct combined with a high standard of playing ability."

Delvecchio received 86.8 points on a basis of five points for a first choice vote, three for second and one for third. Hebenston collected 86.3 points. The Rangers' star right winger won the Lady Byng award in 1956-

followed by Don McKenney of Boston, 31; Andy Balgobel of New York, 18; and Eddie Lattensberger of the Chicago Black Hawks, 14.

Hebenston turned in a more productive campaign than his Red Wing competitor. He had 24 goals and 29 assists for 62 points while Delvecchio collected 19 goals and 35 assists for 54 points.

However, Delvecchio served only six minutes in penalties to eight for Hebenston.

In the split-season voting Delvecchio garnered 54 points in the first half and 32.8 in the second half. Hebenston had only 18 points in the opening half and 68.3 in the final balloting.

Delvecchio is the award. Red Kelly, the Wings' ace defenseman, has won it three times while Earl (Dutch) Peibel, Bill Quackenbush and Marty Barry had one victory each.

IT'S NO EASY TASK to ready the Studio Theatre for a play. The Theater is small to present a problem no matter what the production. "Ashes of Scarlet" this term's presentation by Theta Alpha Phi is no exception. Cast members Ron Weaver, Three Rivers senior, and Don Baum, eastman, Pontiac senior, pitch in to do some of the heavy work. The play will be presented on the evenings of May 13-16.

Scene Designer Overcomes Difficulties

'Ashes of Scarlet' Soon Ready For Three Day Presentation

Production work is nearing completion for Theta Alpha Phi's presentation of "ASHES OF SCARLET" scheduled for performance May 13 through May 16, in the Studio Theatre, 40 Ark., at 8:15 p.m.

Lighting and scene designer, Michael Walsh, Michigan senior, sketches the setting of the play as it is first represented. Working under the handicap of the limited stage area, Walsh has designed a set consisting of six tall, vertical, white, vertical, rectangular panels of several tones of a beige, including an upstairs bedroom.

Lighting has been designed to provide transition into the "flash-back" scenes and to set the mood of the drama. Special lighting effects include the projection of a lighted willow tree on a back-drap in the outdoor scene staged behind a window. Lighted spotlights will be used for the play.

Local Doctor Speaks Here

Dr. Clayton Lewis will speak to the Pre-Medical Society at Michigan State University tonight at 7:30 in the Art Room on the third floor of the Union Building.

Dr. Lewis is a graduate of the Medical school at the University of Michigan and also received his residency in surgery there in 1946.

The usual number being 20 for Studio Theatre productions.

Music for the drama serves thematic and transitional purposes and was composed by Mrs. Rachel Thorsen of Traverse City. Arranging the music for the Theta Alpha Phi production is Charles Greenwell, East Lansing sophomore majoring in music.

Costumes designed by Jim Dearden, Romulus junior, assisted by Ray and Carole Lewandowski of Bay City, will suggest rather than depict the historical periods covered in the play.

Leading other phases of production are Jo Ann Roe, Hartwood junior, properties; Amy Salisbury, Hart junior, publicity; Gerald Bates, East Lansing graduate student, and Sidney Phillips, Charlotte sophomore, sound; Ken Kregel, Mason junior, stage manager; and Thomas Maniack, Ypsilanti senior, assistant director. Directing the show is Allan Aiken, Detroit senior.

Film Series to Feature French 'Premier May'

"Premier May," a gay French comedy will be featured on the foreign film series again today. One of the gayest of French holidays, the First of May, provides the setting.

Starring in the leading role is Yves Montand, who appeared in "The Wages of Fear." Yves Noel, a nine-year-old boy, plays the pivotal role of Jean's son.

"Premier May" revolves around the experiences of an anguished group of Parisiennes on both sides of the Seine during a 12-hour period on the day dedicated to the arrival of Spring. For some, the holiday means the annual rebirth of the world; for others, the meaning of the day is just as they become involved with intrigue and vice.

The film will be shown at 8 and 9 p.m. in Fairchild Theatre.

Melby to Speak at Education Honorary Banquet

Dr. Ernest Melby, distinguished Professor of Education at MSU will deliver the dinner speech at the annual Kappa Delta Pi Spring Initiation banquet tonight.

His address, "Education for Renewed Faith in Freedom," was published after he gave it as the luncheon address at the national conference in Chicago.

Also on the program for initiation banquet is the presentation of the Senior Award which is given each year to an outstanding graduating senior.

25 SECOND PRIZES:

100 THIRD PRIZES:

EMERSON TRANSISTOR RADIOS
Packed with power
plays 1500 hrs on 1 set of batteries

500 FOURTH PRIZES:

Cartons of America's finest cigarettes

LIGHT UP AND LIVE IT UP! 3 great cigarettes offer you 627 chances to win! So pick your pack - save the six wrappers - and get going! It's crossword puzzle fun and real smoking pleasure all the way!

ENTER OFTEN - HAVE FUN - AND WIN! But think carefully! This puzzle is not as easy as it looks. At first the DOWN and ACROSS clues may appear simple. There may appear to be more than one "right" answer. For example, the clue might read: "Many a coed will be given her best date's P.-N." Either "I" (PIN) or "E" (PEN) would seem to fit. But only one answer is apt and logical as decided by the judging staff, and therefore correct. Read the rules carefully. ENTER AS OFTEN AS YOU WISH. Good luck!

RULES—PLEASE READ CAREFULLY

- The College Puzzle Contest is open to college students and college faculty members except employees and their immediate families of Liggett & Myers and its advertising agencies.
- Fill in all missing letters . . . print clearly. Use of obsolete, archaic, variant or foreign words prohibited. After you have completed the puzzle, send it along with six empty package wrappers of the same brand from L&M, Chesterfield or Oasis cigarettes (or one reasonable hand-drawn facsimile of a complete package wrapper of any one of the three brands) to: Liggett & Myers, P. O. Box 271, New York 46, N. Y. Enter as often as you wish, but be sure to enclose six package wrappers (or a facsimile) with each entry. Illegible entries will not be considered.
- Entries must be postmarked by midnight, Friday, May 29, 1959 and received by midnight, Friday, June 5, 1959.
- Entries will be judged by the Bruce-Richards Corporation, an independent judging organization, on the basis of logic and aptness of thought of solutions. In the event of ties, contestants will be required to complete in 25 words or less the following statement: "My favorite cigarette is (Chesterfield) (L&M) or (Oasis) because . . ." Entries will be judged on originality, aptness of thought and interest by the Bruce-Richards Corporation. Duplicate prizes will be awarded in event of final ties. Illegible entries will not be considered. By entering all entrants agree that the decision of the judges shall be final and binding.
- Solutions must be the original work of the contestants submitting them. All entries become the property of Liggett & Myers and none will be returned.
- Winners will be notified by mail as soon as possible after completion of the contest.
- This contest is subject to all Federal, State and local laws and regulations.

CLUES ACROSS:

- These men indicate that a nation is prepared to wage war in the air.
- Some college students.
- When at . . . Light up an Oasis.
- Sinking ship deserter.
- Plural pronoun.
- One expects . . . discussions in a sociology class.
- A student's rancor . . . might annoy a short-story instructor.
- Initials of Uruguay and Denmark.
- Germanium (Chem.)
- Nova Scotia (Abbe.)
- It probably would count when you pick a horse to bet on.
- Sometimes a girl on a date must . . . into her pocketbook to help pay the tab.
- The muscle-builder's . . . may fascinate a poorly developed man.
- Chemical Engineer (Abbe.)
- Familiar for faculty member.
- Associate in Arts (Abbe.)
- One could appear quite harmless at times.
- Reverse the first part of "L&M"
- What will soon appear in a bombed-out city.

CLUES DOWN:

- The beginning and end of pleasure.
- A rural . . . can be moving to a vacationist.
- Second and third letters of OASIS.
- When one is . . . packed, it could be exasperating to remember a few articles that should be included.
- It would pay to be careful when glass is . . .
- Grounds for relax on with a mild CHESTERFIELD.
- Author . . . Ambar.
- District Attorney (Abbe.)
- An inveterate traveler will . . . about distant lands.
- are hard to study.
- Stone, Bronze and Iron . . .
- How Mexicans say, "Yes"
- All L&M cigarettes are . . .
- May be a decisive factor in winning a horse race.
- Initials of Oglethorpe, Iowa, Rutgers and Emerson.
- United Nations Organization (Abbe.)
- Golf mound.
- Colloquial for place where the finest tobaccos are tested for L&M.
- Post Laureate (Abbe.)
- Filter ends.
- What Abner might be called.
- Bachelor of Education degree.

MURRY! ENTER NOW! CONTEST CLOSES MAY 29, 1959

PRINT CLEARLY! ENTER AS OFTEN AS YOU WISH
Mail to Liggett & Myers, P. O. Box 271, New York 46, New York. Be sure to attach six empty cigarette wrappers of the same brand (or facsimile) from Chesterfield, L&M, or Oasis cigarettes.
