Union Opposes T-H Move

Both Sides Tell Case In Court

Steel Officials Say Strike Not Harmful

PITTSBURGH, Pa.—Government attorneys Tuesday sought a Taft-Hartley injunction to halt the record 98-day steel strike. They encountered stiff opposition from the United Steelworkers Union.

Both sides presented their cases before Judge Herbert Holtz in U.S. District Court Tuesday morning at the federal court building.

Acting on orders from federal court, the government asked the court to issue an injunction compelling the 300,000 workers back to work temporarily. The union requested the court to deny an injunction.

The Taft-Hartley act provides that labor disputes imperiling the national economy may be terminated for an 80-day "cooling off" period. After that time, the strike could continue.

The government's petition stated the strike might imperil the economy because of the steel shortage. The government asked the court to issue an injunction compelling the 300,000 workers back to work temporarily. The union requested the court to deny an injunction.

The petition named the United Steelworkers and 97 steel companies as defendants.

The union's counter-petition stated that the workers' demand for a better contract does not endanger the country's economy or imperil public health.

David McDermid, United Steelworkers president, has said the union would open a back-to-work negotiation. But he also would an adverse decision would be appealed to higher federal courts, the U.S. Supreme Court if necessary.

Since the strike started July 15 in a new contract dispute, some 250,000 workers in steel-related industries have been laid off. The figure, according to government experts, could be expected to mushroom in the next few weeks.

During the period of an injunction, the union and steel companies would be required to continue collective bargaining with the help of federal mediators.

President Eisenhower Monday instructed the U.S. Attorney General's office to seek a T-H injunction after a special three-man fact-finding panel reported it could see no immediate end to the strike through voluntary negotiations.

CHARLES VAN DOREN, who accepted service of a subpoena demanding he testify in a Congressional probe into fix TV quiz shows, is shown in his Hotel Roosevelt room in New York prior to a news conference October 11. This was the first time Van Doren appeared in public in over a week.

'Rare Personation' Faculty Panel Reviews 'Mark Twain Tonight'

By HOWARD HOLMES
State News Assistant Night Editor

Mark Twain will visit campus next week! Hal Holbrook's future visit, as a reincarnation of the great American humorist-writer was reviewed last night by a three man panel of the forthcoming "Mark Twain Tonight" as one of the highlights of this year's Lecture-Concert Series.

The meeting to give a background on Holbrook and Mark Twain was led by Don Buell, professor of speech, telling of Holbrook's sudden rise to fame as "Mark Twain." Cyril Burkhart, instructor of English, giving a review of the works of Twain and Harry Brown, associate professor of history, giving in the background of the Mark Twain era.

Holbrook became interested in Twain, said Buell, and began to make studies of old newspaper reports of his appearances at his cross country tour. He interviewed many people who knew the author personally and saw him perform. His interests turned into a career.

The turning point of Holbrook's career, said Buell, occurred when he performed at the famous New York actors' club, the Lamb Club.

Following this appearance, Buell said, he was offered contracts to appear on TV and Broadway. He declined the offers to accept a coast to coast tour.

"He will hold you, as Twain held his audience," said Burkhart.

Brown added that the reason for Twain becoming famous in his era was because he wrote of the things he knew from his own life.

SELECTED TO REIGN over Homecoming festivities, including the football game in Indiana Saturday, is Queen Joanne, 19-year-old junior from San Angelo, Miss Kane, seated on floor in front, with members of her court; left to right, first row, Pat Podas, Minneapolis, senior; Carole Spamer, Detroit senior; Arnell, Manhasset, N.Y., senior; Kaye, Armada junior. Second row at left

Rules Need Not Infer Immaturity

Rules of student conduct, according to the committee on the future of the University, should not create an atmosphere in which students do not feel that they are considered as mature responsible citizens.

The committee, of course, desires to safeguard the student from the consequences of his own judgment and, as well, shield him from unfavorable publicity. But, the Committee warns, any tendency in the university towards a "policy of regulation and restriction" should be resisted in favor of a program of principles and personal responsibility and respect for the individual student and student group.

The degree of success or failure of the university activities in regard to the need for freedom and the need for freedom is the Committee observes, is related to the perception of the campus status, is related to the appropriateness of content of the rules applied by the Dean's Office and the degree of student understanding of the rationale of the rules which the regulations are applied.

Total 491 Pints Blood Donations Continue in Union

The stream of donors in the Alpha Phi Omega blood drive slackened Tuesday as only 178 pints were collected with 39 rejections. This brought the two-day total to 491 pints collected.

Blood can be donated today and Thursday 2-8 p.m. and Friday 11 a.m.-3 p.m. on the fourth floor Union.

John Gull, blood drive chairman, said "Although the drive slowed down Tuesday, I hope that today will approach Monday's total."

The names of all the living units and their percentages are listed below.

Prof Travel Around Globe English Department Spreads Fame Abroad

By JOE DANIELS
International education has sent many members of the department of English to foreign countries. This has made the department widely known in foreign service.

Prof. Robert Geist is spending his third year as a member of the MSU mission to the University of the Ryukyus. He is successor to Prof. David Mead, who

Prof. William Heist is a Fulbright lecturer at the University of Galway in Eire this school year. He spent last year doing research work in Brussels, while his wife was an exchange teacher in the Brussels public schools.

Prof. Edward Lawrence is spending this year as a Smith-Mundt professor of American literature at the University of Seoul, Korea.

Just returned from a year at Smith-Mundt exchange lecturer in British and American language and literature at Damascus University, Damascus, Syria, is Prof. David Dickson. While in Syria, Dickson was able to make side-trips to Egypt, Palestine, Jordan, and Lebanon. For Dickson, whose professional interests include the study of the Bible and its literary influences, this period in the Near East was especially stimulating and valuable.

DAVID DICKSON
returned from Syria

pioneered in the teaching of English at the Okinawan institution, 1955 to 1957.

Prof. Harry Hoppe is currently a Fulbright lecturer in English literature at the University of Malta, the British crown colony in the Mediterranean. Hoppe spent the summer in Belgium doing literary research at the Royal Library in Brussels.

Also, just returned from abroad are Prof. Eric Leichty and A. J. M. Smith. Leichty succeeded Prof. Adrian Jaffe as Smith-Mundt Professor in English and American Literature in the Faculty of Letters at the University of Saigon, Viet Nam. Smith spent his sabbatical leave (1958-59) traveling in England, France, Greece, Switzerland, Austria, Germany and Belgium.

Professor Jaffe has been asked by the Federation Internationale des Langues et Littératures Modernes to give a paper at their eighth Congress to be held at the University of Liege, Belgium, in September 1960.

The Congress, a biennial international meeting of scholars, is under the direction for next year by the professor of romance philology and professor of English literature at the University of Liege. The subject of the paper is "Effects of Existentialism on Linguistic and Stylistic Structure."

These names and places give evidence of the impact MSU is making in international education through the department of English.

Impressions of Japan Ex-S'News Staffer Says It's 'Dai-Jobu'

(Editor's note: Joseph Hoffman, a former MSU student and State News staffer, will be forwarding his impressions of Japan each week. He graduated from the school of journalism in 1957, and worked on the State News in a variety of positions. After graduating, Hoffman worked with the Miami News in Florida for 13 months before enlisting in the service to work with the Army Security Agency.)

BRADY AIR FORCE BASE Japan: In early August, 1945, a B-29 dropped an atom bomb into Hiroshima. Three days later, August 9, a similar bomb was dropped over Nagasaki. The result from these two bombings—nearly 200,000 persons killed and almost double that amount injured.

But more than the casualties, a nation was destroyed. One month later, on the deck of the battleship "Missouri," a defeated and battered Japan surrendered to the U.S.

That was 14 years ago. Today, Japan has a new face, a smiling face. It is a nation which has miraculously undertaken the task of rebuilding its torn walls into new buildings, its burnt shacks into livable homes and its damaged spirit into renewed hope.

It is this new face I intend to look into in this series.

When I first arrived and saw cars rolling down the left side of the street, watched people walk along in large wooden clogs (getas) and heard them say "dai-jobu" instead of "it's okay," I was ready to call it quits. The Army, however, wouldn't allow it. Soon it was routine to see the cars move on the left side. I tried a pair of getas, and more often than not, saw "dai-jobu."

These are some of the wonderfully different things one sees and hears in Japan.

It's amazing how nearly 100 million people squeeze into a country no larger than the state of Montana. But they do, and few seem to mind. The Japanese are an extremely friendly and warm-hearted people and will go far out of their way to accommodate an American and make him feel at home.

I realize there are quite a few students from the Far East attending MSU. At no time will the column intend to offend or insult any of them. In explaining differences between the two countries and in relating some personal experiences, it may appear I am poking fun at the people, but this is unintentional. I am, however, considering by many to be Japan's most outstanding violinist. He is now a violin teacher at the Curtis Institute of Music in Philadelphia.

For those of you interested in geography, Brady Air Force Base is situated on Japan's southernmost island, Kyushu. The base is located on a peninsula 12 miles from Fukuoka, a city of 600,000 people, seventh largest in Japan.

Former Project Of Campus Chest Student Workers Help Ease Traffic

By JANE DENISON
Anybody here like traffic? Probably not. But there's no getting around it. MSU is plagued by it, and the problem is a big one for the department of public safety.

To help ease the traffic tension on campus and come to the aid of frustrated motorists, especially during the daily rush hours of 8 a.m.-noon and 3 p.m., and also during pre and post-game tie-ups, student assistants have been employed by the department.

The men, who are stationed at ten strategic traffic points around campus during the peak traffic hours, are under the direction of Richard Bernitt, assistant director of the department of public safety and head of the office of protective services.

The students are equipped with the familiar yellow helmets and whistles, plus flashlights and reflective material for winter evenings.

"There were almost 15,000 cars on campus last year," Bernitt said, "which make for congestion. The assistants have done much to improve the flow of the motorist on campus."

Bernitt said that most of the employees are students of the department of Police Administration, although some are drawn from such other departments as fisheries and wildlife. These former police officers are training at MSU.

Regular student rates are applied to the men, who are paid from applications.

The new employees are through two or three hours of classroom training, which includes demonstrations and use of visual aids about traffic control. The training then shifts to an intersection where the assistant directs traffic under the supervision of a uniformed officer.

Bernitt said that under the new traffic ordinance being issued, the students are considered to be officers of the university, and are exempt from the city ordinance to give service.

Gold!—Fish That Is— Found Here

They said it couldn't be done, but they were wrong. Gold has been found in the horticulture garden.

The pool located in the center of the garden is full of gold—goldfish that is.

Each fall many of the tiny nuggets are transferred from their home in the garden's pool to a winter home in the greenhouse for safekeeping.

According to head gardener, Carl Keyes, and his assistant, Russ Osterhart, some of the fish are given special treatment to insure their survival until the next summer.

The lucky few that reside inside are kept in heated pools designed to protect the tropical fishes also found in the outside pool.

As cold weather approaches each fall, the head gardener and his assistant don hip boots and waders to catch the fish that will spend the winter inside where they thrive and reproduce abundantly.

The remaining hundreds of fish left in the outside pool are protected by floating logs which prevent the pool from freezing completely.

'Penny Night,' Gala Show Slated for Campus Chest

The fall fund drive, "Penny Night" and a gala star-studded show are events Campus Chest has planned to raise funds this year.

Campus Chest is a service organization, committed to the charity drive that takes place during the year. Through Campus Chest, the student is asked to contribute only one cent and the money is then divided among various charities.

This year's charities are World University Service, National Scholarship Service and Missionary Society, and the American Cancer Society. United Community Club, Spartan Nursing, United Negro College Fund, Save the Children, Federation and University YWCA.

During the campaign canvassers are placed in living units enabling all students to donate. The events planned by Campus Chest also raise money for charities.

In "Penny Night" women are asked to bring an extra pound of purchasing a ticket for 60 cents.

Last year's parade was presented and proceeds from the parade went toward the charities.

This year's proceeds from the star-studded night will be put towards the total.

Prof Emeritus Visits

Walter Friedlander, Professor Emeritus, University of California at Berkeley, has joined the faculty of the MSU School of Social Work as visiting professor for 1959-60.

D. Friedlander received his Ph.D. at the University of Berlin in 1926. He served as judge of the juvenile court at Potsdam, as commissioner of public assistance and child welfare services, and as associate professor of social work, University of Berlin.

He was president of the German Child Welfare League when the Nazi regime forced him to emigrate to France in 1933. After serving three years in Paris as director of the legal and social service for refugees, he came to the U.S. to be in the faculty of the School of Social Service Administration, University of Chicago.

He left there in 1943 and became a member of the faculty of the U.S. School of Social Welfare.

Life Can Be...

WHENEVER SOMETHING GOES WRONG IN THIS WORLD IT'S THE CHILDREN WHO SUFFER!

Nation Buries Gen. Marshall In Arlington

WASHINGTON (AP) — Gen. George Marshall was buried Tuesday in the sunny hills of Arlington Cemetery.

President Harry S. Truman, Secretary of State and Secretary of Defense, attended the funeral services. He and President Eisenhower sat in the front row and bowed heads together as Canon Luther Miller gave the eulogy.

They were joined by the members of the cabinet who gathered about this great leader.

Truman had paid his own emotional tribute earlier to this friend he esteemed so highly. In a talk filmed for television, Truman called Marshall "the greatest General since Robert E. Lee... greatest administrator since Thomas Jefferson... greatest of the great in our time."

Truman arrived at Ft. Myer Chapel before Eisenhower. When Eisenhower walked down the aisle to the same pew, Truman stood up and the two shook hands and spoke solemnly to each other.

Eisenhower in his own tribute to Marshall, had proclaimed a period of mourning. Mrs. Marshall, the widow, dressed in black, sat sad-eyed by the aisle as the members of her family.

WKAR Sets Antenna Site

The FM antenna of WKAR Radio will be moved next week, increasing the local signal area to approximately 90 miles, according to Larry Frymire, station manager.

Frymire said the FM station will go off the air at 3 p.m. Saturday with full service to be resumed by Oct. 31. Transmission facilities will be moved from the station's 300-foot tower on Forest Road to the 1,000-foot tower on Dodge Road, formerly used by WKAR-TV, Channel 69.

The increase in signal power will be a gain of some 233,000 FM-equipped homes including the Detroit area, and a gain of some 600,000 listeners, Frymire said.

Present radius of the station's local FM signal is approximately 50 miles, he said.

WKAR's AM programs will not be affected by the FM change.

Home Ec. Dept. Will Give Dessert

The College of Home Economics is celebrating the 50th anniversary of the American Home Economics Assn. with a birthday dessert today at 7:30 p.m. in the Union Ballroom.

Mary Sweeney, past president of the AHEA and former dean of the College of Home Economics, will be guest speaker.

Tickets are available for 50 cents in the home ec office. All home ec students and faculty are invited.

The birthday dessert is one of three events celebrating the 50th year. A faculty open house will be held Nov. 18. A colloquium is scheduled for December.

Visiting Prof Slates Lecture

Dr. Urban Holmes, professor of romance philology, will give a lecture entitled "Medieval Houses" Thursday at 8 p.m. in the Music Aud.

Holmes is instructing an inter-disciplinary course on the middle ages during his stay at MSU.

During the summers of 1967 and 1969 he traveled with his wife through Ireland, France, England, Spain and Portugal, viewing medieval homes which will give him first-hand information for his lecture.

Holmes' other interests include coin collections.

He has been honored by the Chevalier Legion of Honor and Fellowship in the Medieval Academy.

He has written "A History of Old French Literature," "A History of the French Language" and a new interpretation of "Chrétien's Conte del Graal."

Authors Tea Set to Honor 80 Students

Eighty Natural Science honors students, faculty members, Dean of the Honors College, Stanley Izert, and President John A. Hanson will attend an authors tea Thursday.

The tea will be to honor the publication of a book written by the students. It is composed of the exceptional term papers the honors students wrote in their Nat. Sci. classes last year. These term papers are in the form of essays and deal with many subjects ranging from biology to zoology in short, they discuss any subject that is touched on in the Nat. Sci. course.

The assembly will be held at 4 p.m. Thursday in the Union Ballroom.

**Players Inform Owners
All-star Game Desire**

NEW YORK (AP)—Major League players, through representatives Robin Roberts and Harvey Kuenn, informed baseball's executive council Tuesday they favored two all-star games next year provided they are played within a space of four days.

This was one of several proposals submitted by the player representatives involving player-owner relations.

ED GRAYDON
... sophomore thinedad ...

Canadian Runner Is Showing Potential

By SUZETTE RAMSEY
State News Sport Editor

A newcomer to the varsity cross country squad, Ed Graydon from Hamilton, Ontario, has been earning a permanent place on the team by his recent performances, as he has outrun some of last year's varsity members.

Graydon placed seventh in the Michigan AAU Oct. 3, ahead of four of the six remaining Spartans in the race. In the Western Michigan meet, he came in

eight to be the fifth man to score for MSU.

Coach Fran Dittrich says of Graydon, "He has a lot of natural ability and is a willing runner." Dittrich says that Graydon has shown a "very high potential to be one of our outstanding cross country men in the future."

The slight, redheaded sophomore didn't go out for track until he was 16, which is old for a Canadian youngster, who usually starts running three and

four miles when he's 12, since Ontario has several junior road races, and a meet a week for two and a half miles during the season.

A friend who was trying out for the high school team dared Graydon to run a quarter of a mile. Ed weighed 180 pounds at the time, but he tried the race and he beat his friend. The coach was watching and urged the boy to try out for the team.

Through his high school running, Graydon lost 35 pounds. He credits his overweight problem to the fish and chips store his mother had.

With the help of high school coaches Harold Colbey and Murray Gazluk, Graydon improved, and at the age of 17, he was brought to Ann Arbor for a novice mile race for the AAU.

Dittrich and track coach Karl Schlademan saw Graydon at the meet and interested him into coming to MSU. Dittrich said that he "thought Graydon looked like a good prospect and would be a welcome addition to the squad."

Graydon is also interested in running short distances. He prefers the mile and did 9:27 for two miles last year, improving his best try by 30 seconds.

Ed, an accounting major, is 21 years old. He comes from a large family and has five sisters and two brothers. Of his brothers, his 17-year-old one is trying running in high school, while his older brother is in a different type of running—owning and running race horses in western Canada.

**Al Kaline on All-Star Squad
Dominated by Chisox, Giants**

NEW YORK (AP)—The Chicago White Sox and the San Francisco Giants dominated the 1959 Associated Press major league all-star team, landing three players each on the squad named Tuesday.

Second baseman Nellie Fox, catcher Sherm Lollar and right-handed pitcher Early Wynn represented the American League champion White Sox. The Giants selected were first baseman Orlando Cepeda, outfielder Willie Mays and left-handed pitcher Johnny Antonelli.

The rest of the team, chosen by 173 members of the Baseball Writers Assn. of America participating in the annual poll, lists third baseman Ed Mathews of the Milwaukee Braves, shortstop Ernie Banks of the Chicago Cubs and outfielders Hank Aaron of the Braves and Al Kaline of the Detroit Tigers.

The world champion Los Angeles Dodgers failed to place a man either the first or second team. So did the New York Yankees, 1958 champs.

Fox, named on 163 ballots, was the top individual vote-getter. The balloting for second base was the most divided in the poll with runner-up Jimmie Temple of the Cincinnati Reds receiving only four votes.

The closest race was at shortstop. Banks drew 88 votes to 81 for Luis Aparicio of the White Sox.

The rest of the second base, in addition to Temple and Aparicio, 1b-Frank Robinson, Reds; 3b-Ken Boyer, Cardinals; c-Harvey Kuenn, Tigers; Rocky Colavito, Indians, and Vada Pinson, Reds and Jim Landis, White Sox (tied); c-Del Crandall, Braves; left-handed pitcher Warren Spahn, Braves; right-handed pitcher-Sam Jones, Giants.

**Hapless Lions Look to Retired Veteran
For Help; Role Suffers Broken Thumb**

DETROIT (AP)—The winless Detroit Lions Tuesday persuaded tackle Lou Creekmur to return from retirement for the remainder of the 1959 National Football League season.

To make room for Creekmur, the Lions placed Ken Russell, a third-year tackle from Bowling Green, Ohio, on waivers.

The 6-foot-4, 235-pound Creekmur retired at the end of the 1958 season to become Detroit's terminal manager for the Saginaw Transfer Co., with which he previously had worked during the off-season. Creekmur, 32, played pro football nine years following his graduation from William & Mary.

The announcement of Creekmur's recall followed the disclosure of a broken left thumb suffered by quarterback Tomo Rote.

Coach George Wilson said he expected Rote to be able to play at Los Angeles next Sunday.

Ref Admits Bum Pass Call in SMU-Rice Tie; Verbal Row Starts in Southwest

HOUSTON, Tex. (AP)—Southwest Midland and Rice football referees admitted a referee's admission of a bum pass call in a 13-13 tie between SMU and Rice Tuesday night in IM football. Referee C. W. Davis admitted Tuesday he made a mistake when he ruled that SMU's Don Merendy was beyond the line of scrimmage at the moment he passed a touchdown pass into the end zone.

Motts Theft Leads to Win

A pass interception by Motts Franklin Manning stopped a Howland House drive and set his own team up for a 6-0 win Tuesday night in IM football. Howland set the stage for Manning's theft when it put together a long drive early in the fourth quarter and neared the Motts goal. It looked as if Howland might be the first to break the ice as it had the goal in view, but Manning's leaping grab halted them.

Quintuplets, 5 Girls, Born To Texan

SAN ANTONIO, Tex. (AP) — Five tiny girls, the third set of quintuplets in United States history, were born to an Air Force lieutenant's wife Tuesday. Four of them died within nine and one-half hours after their birth.

SAN ANTONIO, Tex. (AP) — Five tiny girls—believed to be the country's first live quintuplets—were born within 20 minutes yesterday to Mrs. Charles Hannan, 27, wife of an Air Force lieutenant.

They were born three months prematurely at Lackland Air Force Base Hospital.

Baby "B", so designated to indicate the alphabetical order of birth died at 6:40 p.m. Baby "A" died at 7:10 p.m.

At 10:12 p.m. doctors said the condition of baby "E" was "extremely poor" and that of baby "C" had deteriorated from its former satisfactory condition. Baby "D" remained in a satisfactory condition.

First reports said the babies were breathing well and presumably had good chances for survival. Doctors said the mother was in good condition.

The father, 30, is an Air Force navigator who returned in July from duty in Japan. A career man in the Air Force, he attended St. Mary's. Grandparents, Mr. and Mrs. Charles Hannan of Taylor, Tex., described themselves as speechless. The quintuplets' mother, like their father, was born and reared in the Taylor area.

Mr. and Mrs. Hannan also have two sons, Pat, 4, and Bob, 5.

Live birth of the five girls surprised medical men at Lackland. Noting that the chances for successful delivery of quintuplets are one in 42 million, they said in advance that prospects for the Hannan babies to survive were slim.

PLACEMENT BUREAU

(B) Bachelor's degree (M) Masters (D) Doctors. Where no degree is indicated, all degree levels are eligible to interview.

EMPLOYERS

OCTOBER 22 & 23, 1959

Square D Co. Elect. (B) (M) & Mech. (B) (M) Engrs. for field, application & design engineers. All Engrs., Physics & Math. majors for design, R & D.
