FDR to be killed. The man whose nose was blown off by a Nazi bullet is to be buried next Thursday in a small Pennsylvania cemetery near his home. The body of the former President was released to his family this week by the Federal Bureau of Investigation.

He was buried in Wiesbaden, Germany, in 1942, Dr. von Braun was granted a master's degree in physics by the University of Berlin in 1916. He later worked for the German government during World War II and became a leading rocket scientist. After the war, he was arrested by Allied forces as a suspect in the war crimes trials. He was released and worked for the United States Army in the United States. Dr. von Braun's work on guided missiles and rockets made him a key figure in the development of space travel.

In the 1950s, Dr. von Braun and his team were working on the Saturn rocket, which would be used to launch the first American satellite into orbit. They were the first to use liquid-fueled rockets, which allowed for greater thrust and efficiency. Dr. von Braun was also involved in the development of the V-2 rocket, which was used by the Allies against the Germans during World War II.

He is considered one of the most important figures in the history of space exploration, and his work continues to be studied and celebrated today. Dr. von Braun's contributions to the field of rocket science have had a lasting impact, and his legacy lives on in the progress of space travel.
THE CYCLING SPARTANS: a 60 and go bicycle group that stop and go around campuses and other points of interest, are looking for members, preferably girls. The club meets on Sundays at the Kravitz center, 6:30 p.m. "We need more women." "Even in the high regard the I of the Men's Glee j

Cyclists Cover Lansing Area
On Weekly Sightseeing Tours

By CURT BUNDELL Daily News Free Press Writer

The Cycling Spartans offer university students an opportunity to travel around the Lansing area and see different points of interest. The trips usually range from five to 10 miles and sometimes longer, according to Bloom. "We think it's kind of fun to get out a little and go to see something," he said.

"I'm beginning to wonder if there are going from wherever we go."

The rides usually start at 1 p.m., under the sugarbush status and, weather permitting, depart from the "parking square," according to Ed Bloom, the club's president.

Senior of the Week
Home Ec and Mathematics Majors Awarded Campus Positions

The annual Delta Chi republication meeting will be held under the auspices of the Michigan State University's chapter of Delta Chi fraternity, according to Charles J. Kerne, chairman. The convention, a reunion of alumni, will be held Saturday. The convention will be held at the MSU Union. Meetings of various groups will be held all day with breakfast for lunch and supper at the Albert Pick restaurant.
