MSU lost its battle for more appropriations Friday as the House voted 57 to 29 for a $810.4 million higher education bill. The Senate approved the bill Thursday evening.

The Senate also approved $574.6 million in appropriations, which were included in a $2.6 billion federal appropriation bill passed by the Senate and House. The bill was approved by the House Friday night, and the Senate is expected to pass it Monday.

The bill includes an increased appropriation for higher education for the fiscal year ending June 30, 1961. The appropriation will be used to support the operations of the University of Michigan, Michigan State University, and the University of Michigan-Flint. The bill also provides for a $100 million increase in the state's higher education budget for the fiscal year ending June 30, 1962.

Some members of the House have been critical of the bill, saying it does not provide enough funding for the universities.

Kennedy Calls for U. S. Flexibility With Poland

CHICAGO, May 8—As he ended a Midwest tour yesterday, President Kennedy called upon the United States to demonstrate more flexibility in its dealings with Poland and other countries in the Soviet bloc.

At the same time, he expressed concern over what he called a number of recent "hesitations and hesitations made by Poland toward the United States." He added that he was prepared to make a full-scale official visit to Poland if the United States and Poland would consider such a trip as helpful to world peace.

Speaking in commemoration of the 26th anniversary of Poland's adoption of a constitution, Kennedy said the United States had not been making any "breakthrough" in its policy toward Poland since 1956. He said he was convinced there was no "right answer" to the "man's deodorant" problem
